FULL GOVERNMENT DEPOSIT

When were your Boilers last inspected by a competent engineer?
 Do you know what pressure your Boilers can safely stand?
 Is your Steam Gauge registering the correct pressure?
 Are your Water Gauges free and in good working order?
 Is your Safety Valve working properly?

DO not trust to luck; the unexpected
 generally happens. Avoid the
 calamity of an explosion. Protect life
 and property by taking out one of our
 Inspection and Insurance Policies.

Mineral Wool Pipe and Boiler Covering

If you want to save fuel
 " " " dry steam at long distance
 " " " to prevent condensation
 " " " cold water pipes from dripping
 " " " freezing

USE
MINERAL WOOL
 SECTIONAL
 COVERING

THE best non-conductor is the cheapest covering. Mineral Wool heads the list as a fire-proof non-conductor. Hard pressed coverings are poor non-conductors, and are therefore the most expensive in the end.

A good pipe covering is one of your best investments. It is false economy to have uncovered pipes, as you are just paying the coal man what the covering man should have, and only ashes to shew for it. Give the matter your consideration, it means money to you.

We also carry full lines of Asbestos Goods, and Mineral Wool for fire-proofing, deadening of sound, insulation, etc., etc. Send for Pamphlet.
