

MINES

A STANDARD TRAIL CREEK MINING STOCK.

The Mayflower Mine

✻✻ In all accounts of the Trail Creek district the one mine never failing to be mentioned is the "Olla Podrida" claim, operated by the Mayflower Gold Mining Co., which is considered one of the best properties in the vicinity of Rossland.

Development Work

Is being energetically prosecuted under the direction of one of the ablest mining engineers in the district. The mine is now shipping ore.

Its Ore

From the tunnel in which the Company is now working, ore is being extracted that carries \$10 to \$15 per ton in gold, and galena ranging from 130 to 220 ounces of silver per ton. Shipments that have been made to the Tacoma smelter have netted the Company an average of \$73 per ton.

It is the Only Mine

In the district that has had paying ore from the beginning, and the returns from ore already shipped have paid for all work done.

Mr. Howland Stevenson, a recognized authority on the mines of this district, writing of the Mayflower Mine, said:—

"The situation of its vein upon a very precipitous mountain; the location of the main tunnel upon the railway grade; the value of the ore in the tunnel and in various surface cuts; the regular course and persistency of the vein on the surface, and the cheapness of mining as compared with the cost in the mines in the territory north of Rossland, makes this, in my opinion, a very attractive and promising investment."

Its Shares

Par value \$1.00 each, fully paid and non-assessible, can be obtained from us at 17½c. per share in blocks of 100 and upwards.
