USE SYRUP

MR. JAMES MILLER, OF CANNING, N. S., says: "I have used the different preparations of Hypophosphites with great result, but since your Syrup first came out I have used no other, and from what experience I have had I am convinced it is second to none. I used it with great benefit, not only in Chronic Lung Cures, but with splendid result in irritable and badly nourished children, and also as a Blood and Flesh Producer, and Typhoid and other wasting diseases."

HYPO-PHOS-PHITES.

DR. E. PAYZANT, OF WOLFVILLE, N. S., says: "I prefer your Syrup and recommend it above any other now offered to children during periods of convalescence, when the system has been too long deprived of its full desired nutrition. Wishing your well-directed efforts a fitting return."

Aromatic Montserrat.

A WINTER BEVERAGE.

MONTSERRAT RASPBERRY CORDIAL!

These are elegant Cordials prepared with MONTSERRAT LIME FRUIT JUICE, and flavored as indicated with aromatics and pure FRUIT JUICE. They form most agreeable beverages, either diluted with water or alone, and especially with aerated waters, and are guaranteed free from alcohol.

N. B.—The GOLD MEDAL of the ADELAIDE EXHIBITION has just been awarded to the MONTSERRAT LIME FRUIT JUICE AND CORDIALS; in regard to which, the *Liverpool Journal of Commerce*, September 26, says:—"The sole consignees, Messrs. Evans & Co., are to be congratulated upon this result, whose enterprise in placing this before the public has met with such success, as witnessed by the fact that in the course of a few days 60,000 gallons of Lime Fruit Juice were imported by them into Liverpool alone."

Montserrat Saline Effervescent Salt.

This Preparation has all the properties of a cooling and purifying Saline. It is an elegant Pharmaceutical preparation, and at the same time a pure mixture of Acids and Salts, whilst, from its effervescence, it will be found to produce a certain and beneficial result.

DIRECTIONS FOR USE.—A teaspoonful, in a tumbler of water, forms a mild aperient, and an anti-fever draught. A small teaspoonful in a wine glass of water is a palatable, cooling, and purifying draught. This latter dose taken before dinner is often likely to give an invigorating tone to the system.
