

A GREAT FEAT.—The bicycle run of "200 miles in one day," performed by Dr. W. N. Robertson, of Stratford, Ont., on the 3rd of June, was a remarkable exhibition of endurance in a purely amateur rider. The doctor's scientific training would, no doubt, prove an important factor in successfully engineering such a difficult operation, though (as will be seen by a letter published in another column) he does not hesitate to award due credit for his performance to the agent he relied upon in his great effort. The doctor's testimony to the marvelously sustaining powers of "Maltine with Coca Wine" is entirely spontaneous and unsolicited, and, therefore, of the higher value. His report will be read with interest by wheelmen generally, in view of his claim that

"Maltine and Coca Wine" enabled him to "pedal comfortably for hours after the period that I should have been exhausted without it." Dr. Robertson tersely summarises the valuable action of "Maltine with Coca Wine" in those cases of enervation common among most "novices on the wheel," and affirms that "it is a wonderful heart-sustainer." This preparation may be had of all druggists, and may be relied upon as an agent of infinite value in nervous prostration and brain exhaustion resulting from undue strain upon the mental or physical energies.—*Daily Globe, July 6th, 1895.*

Retro-pharyngeal abscesses are generally situate to one side of the median line.
