

Motions for Papers

April 15. Neither of them require any statistical data or research and I should hope that answers can be obtained at an early date.

Mr. John L. Skoberg (Moose Jaw): Mr. Speaker, I should like to draw the government's attention to Question 933, which was put on the order paper on December 3; Question 1121 which was placed on the order paper on December 20; Question 1256, which was placed on the order paper on January 27, and Question 1323 which was placed on the order paper on February 4. I should like to know whether I can expect answers to these questions, unless there is some reason for us not wanting to know why we should not be given this information in respect of—

Mr. Speaker: Order, please.

Hon. Donald S. Macdonald (President of the Privy Council): Mr. Speaker, perhaps I could respond in respect of Questions 933. An examination of a number of departments, for example, the Department of Transport, indicates that it would require several thousand dollars to prepare this information. Under the circumstances I wonder whether the hon. member would be prepared to withdraw certain parts of the question so an answer can be prepared more easily?

Mr. Skoberg: Mr. Speaker, I was contacted to see whether I would do this, but I believe the information should be made available?

Mr. Macdonald (Rosedale): At any expense whatsoever?
