LINER ANCONA WAS UNARMED

Attack by Submarine Had No Justification, Says Italian Government.

NINE AMERICANS LOST

Latest Estimate is That More Than Two Hundred Lives Perished.

ROME. Nov. 14 .- (Via London)-The Italian Government has sent an official communication to the neutral governments dealing with the sinking by a submarine of the Italian liner Ancona. The note denies that the Ancona carried any arms or contraband or persons in belligerent military service, or that there were any circumstances justifying such an attack as a necessity of war.

A statement issued today by the Italian emigration office is that of ten Americans on the Ancona only one was saved, and that of a total of 507 passengers and crew only 299 were saved, making the loss of lives 208. The note declares that the submarine began to cannonade the Ancona without any previous warning or a blank shot and fired without respite at the wireless apparatus, the decks and even at the boats, in which passengers were attempting to escape.

Many of these, adds the note, were killed or wounded, while many who approached the submarine were driven

off with jeers. Thus nearly 200 peo-ple were drowned. Deny Lack of Warning

BERLIN, Nov. 14 .- (Via wireless to Sayville.)—The Austro-Hungarian admiralty today officially announced that the Italian steamship Ancona at-tempted to escape at full speed after a warning shot had been fired across her bow, and that the vessel only stopped after being shelled several times by an Austrian submarine, says the Overseas News Agency. The sub-marine commander, it is further as-serted, allowed the Ancona's pas-sengers and crew 45 minutes to abandon the ship, after which the ves-sel was torpedoed, sinking three-quarters of an hour later. The report that the submarine fired on the lifeboats is

It is claimed that only a few boats were lowered and that the crew were intent on saving their own lives and reglected to care for the passengers.
