

Woman's Realm--the Household, Fashions and Society

The garden party given on Saturday afternoon in camp at Niagara-on-the-Lake by the Governor-General's Body Guard, took place in ideal weather. The camp, which is always near Fort George, has the advantage of being surrounded by some of the historic French thorns which are now in full bloom. The band of the regiment was in attendance, and the tea-table, set in a large marquee, was lavishly decorated with peonies and iris. Mrs. Sandford Smith, received the guests, many of whom went over from town. She was wearing a white gown of Irish lace and a Panama hat with butterfly bows of pale blue. Her little girl looked very pretty in a white lace frock and hat to match with pale blue. An impromptu polo match on the common gave zest to the entertainment. Among those present were: General Cotter, the Misses Cotton, Col. Phillips, Col. and Mrs. H. C. Cox, Col. Fleming, Col. and Mrs. Vaux Chadwick, Col. Gooderham, Maj. Walter Denison, Mr. Warwick, Mr. J. Simpson, Mrs. and the Misses Duggan, Mr. Alan Taylor, Mr. and Mrs. Warrin, Miss Ethel Webster, Major and Miss McColl, the Misses Edwards, Mr. Kenneth Marlett, Capt. Bell, Mr. and Mrs. Bennett, Mr. Herbert Telfer, Mrs. Villiers Sankey, Mrs. Phyllis Armour, Mr. and Mrs. Stockwell, Mr. and Mrs. Le Mesurier, Mr. Douglas Kirkpatrick, Mr. and Mrs. Arthur Van Koughnet, Miss Alice Hagarty, Mr. Ernest Van Koughnet, Miss Sylvia Nordman, Mr. Bert Anderson, Dr. Philip Dr. Gilmore, Major and Mrs. McKillan, Miss Birchall, the Misses Denison, Mrs. A. M. Kirkpatrick, Miss Jessie Denison, Col. G. T. Denison, Mr. and the Misses Wedd, Mr. and Mrs. Rudell Warren, Mrs. Gertrude Warren, Mr. and Mrs. Harry Patterson, Miss Sarah Eleanor MacKenzie, Miss Sarah Lanning, Mr. Ernest Watt, Col. Simpson, Mr. Gordon Beaudry, Mr. Brodigan, Mr. Frank McCarthy, Miss Adele Ginnell, Miss Grace Davidson.

Mr. Philip Dumoulin, manager of the Bank of Montreal at Kelowna, B. C., is in Ottawa, and is the guest of his sister, Mrs. T. Alder Bliss, for a few days. Mr. Dumoulin is returning from a four months' trip abroad.

Mrs. Vaux Chadwick gave a small tea in the cavalry camp last week at Niagara-on-the-Lake.

The engagement is announced of Gretta, daughter of Mr. and Mrs. J. D. Macintosh, Dominionville, Glenora, Ont., to Mr. David Bruce MacRae of Winnipeg. The marriage will take place at the home of Mr. and Mrs. Macintosh in September.

Mrs. E. A. Acland and Miss Mary Acland, Ottawa, are about for a holiday in Prince Edward Island.

Mrs. Anthony Cressie leaves this week for Toronto, to visit her daughter, Mrs. Montgomery, who will come to Toronto in the autumn to stay over Christmas.

Col. Phillips gave a large dinner at the Clifton, Niagara Falls, on Saturday night.

Mrs. Arthur Sprague and Miss Florence Sprague, have returned from the British Columbia, where they will spend the summer.

Mrs. Rutter entertained the Women's Press Club and a few others on Saturday afternoon at her beautiful country house in East Beaver Creek overlooking the lake, which was looking very lovely that afternoon, from the open-air tea-room, embowered in trees, where the guests were regaled with home grown and made salads, bread, butter, strawberry shortcake, etc. Mrs. Rutter and the girls wandered about and enjoyed the trees and fresh air until quite a late hour.

Mrs. Gibbs Wellington and Miss Beatrice M. Wellington are visiting friends in Montreal. Miss Wellington sails the end of the month for a three months' trip to the British Isles and the continent.

Miss Bevan was in town visiting friends last week, from Niagara-on-the-Lake.

The marriage of Mr. Frederick L. Wainman, Montreal, to Miss Lucy H. McConnel, London, youngest daughter of the late William McConnel, Knocknasharra, Ayrshire, took place on Tuesday in St. Andrew's Church, Westminster, London, England. The ceremony was performed by the Rev. Charles Pritchard and the Rev. the Hon. J. Northcote.

St. John's Church, Norway, gave its annual garden party on Saturday afternoon in the pretty grounds of Mr. and Mrs. Darnborough, Kingston-road, who had very kindly lent them for the occasion and were the best of hosts. The lawn was decorated with strings of Chinese lanterns, in addition to the shrubs and flowers which adorned it, and tea was served under the trees. A large number of members of the congregation and their friends were present and spent a very enjoyable afternoon.

The engagement is announced of Miss Eloise Bolton, niece of Miss Bolton of the Normal School, Ottawa, to Mr. J. Allan McLeod, Toronto. The marriage will take place very quietly at 112 McDonald-street, Ottawa, on June 30.

The Tenix Club will hold its first summer dance to-night at the Hotel Manitou, Centre Island.

The verandah musicale takes place

BURNS & CO'S SORES

The most popular and satisfactory remedy on the market. It is reasonable in price and truthful in its statements. The public are advised: 25c, all druggists, or Foster-Dunlop Co., Limited, Toronto, Ont.

GOOD IDEAS.

I have devised a means of supporting a baby's diaper when short stockings are worn and garters cannot be used. Make a strap about an inch wide of muslin and put a buttonhole in each end. Button one end to a button on the side of the undergarment and bring the strap down inside the diaper and then up on the outside, fastening the other end to the same button. Arrange the same on the other side. In this way the diaper cannot pull down over the knees and show below the dress as often happens.

A rainy day bag will make the time pass pleasantly for a little girl who has the bag given her to play with on wet days only. It is otherwise a waste of time. The bag itself should be made of a pretty piece of cretonne covered with figures. It should have long double drawstrings and inside there should be various little toys; a ball, small animals, a string of spoons, some bright pictures and a few little odds and ends added from time to time without the child's knowledge.

Cover for Baby's Bottle.

In place of making a flannel cover for baby's bottle, try crocheting a cover to fit the bottle. This will slip on and stay on, and make it easy to place the bottle anywhere, as it then does not slide around in the usual way.

Aid in Putting on Rubbers.

Most mothers find it hard to put on the children's overshoes. If you will use a shoe-horn, you will find that there is no trouble and will save many fingers from being bruised.

It is surprising to find how many uses children can make of a bread-board, which is an excellent device for saving sewing-tables and the tops of other tables from damage. When a child is able to sit up in bed the board makes a fine place for toys. On the floor of the playground black castles and doll's houses may be built upon it, and even small trains may be run. Placed on top of a table it serves very well for the children's painting outfit.

Clara Murray

Summer Bedspreads.

The sleeping apartments during the summer should be made to appear airy and cool.

This is an easy matter and little expense is attached to it. After all the bedspreads used during the winter have been stored away and the summer articles of furniture dispensed with, clothe your room in its summer garb.

Measure the length of the bed and allow three or four widths of material, according to the size of the bed. This should be finished by a ruffled flounce, pleated or by a deep hem. Fourteen inches from the hem, or bordering the flume, stitch bands of figured dimity, which may be had in a great number of varieties.

These spreads are easily laundered and may be kept fresh and clean through the hot, dusty summer.

Linon Bows.

There is nothing quite so dainty and becoming as a touch of white at the collar of a dress. When the frocks are of dark linen, this adds much to the attractiveness.

Not every one can wear large jabots or frills, but a small bow always looks well.

These charming bows are easily made, and what is still better, they are easily laundered at home.

Small pieces of linen are used for these bows, measuring 6-1/2 by 3-1/2 inches. The edges should be button-holed in small scallops.

Fasten the centre and finish with a narrow fold of the linen.

If a pattern is first cut from paper, it is much easier to cut the linen in the desired shape.

Variety may be gained by making the pieces of linen square, or the corners may be rounded.

Fasten the centre and finish with a narrow fold of the linen.

Colors may be used to embroider and buttonhole the edges, matching any frock you desire to wear the bow with.

Home Helps

Home Helps

Instead of little pie-plates to make something in which to bake nice little pies for lunch-boxes or picnics, take gray cardboard, the kind in which packages from dry-goods stores are enclosed, and cut a strip the length and width you desire; mine were ten and one-half inches long and two inches wide; let the ends lap over, then pin together to form a circle; grease inside and set on a pie-plate or, if a number are desired, in a thin-bottomed pan. Make your pie as usual, tucking the top crust inside the circle. When partly done, take the side of the pie circle off, so that the side of the pie can be browned. With this simple contrivance you can have your pies any depth and size you desire.

How to mend an egg-beater.—Don't throw away your Dover egg-beater because of the screw in the middle, it is just because it is otherwise too good. Take some soft twine and twist tightly around under the head of the screw in the centre of the wheel, until you have enough on to make it run firmly. It may wear out in a week or two, but is easily replaced and I have found that it is worth the trouble. The small pieces of scouring-soap that are left over from the kitchen, use to chopper, using a fine knife, making them into powder.

Easy way to crumb bread.—Put it into a muslin bag—an empty salt-sack, for instance. Then, unless it is too hard and dry, it can be crumbed between the fingers and quickly crumbed without any waste.

TROUSSEAU ACCESSORIES.

Accessories count for much in calculating the success of the trousseau of a bride-to-day, and the girl who is planning what to have and how to spend the money at her disposal to the best advantage will put almost as much thought into the little things as she does into the big ones.

Happily for her, the majority of these little things are handmade, and can be fashioned and altered at the last moments of the wedding.

Sachets, for example, are all made by the girl herself or by devoted friends. Twenty, even ten years ago, the bride's girl friends would make large sachets of quilted satin, covered with plain satin that was decorated with elaborate embroidery or hand painting.

Fortunately for the bride-to-day, that fashion is no longer with us, for sachets are now made of the thinnest china silk or fine handkerchief linen.

They are cut double, of course, and have a sheet of very thin wadding between; but they occupy such a small amount of space that several, of their contents, can be carried in a suitcase, with room to spare. A very lovely one, designed to hold dainty lingerie, is made of china silk, is thirty-six inches long and eighteen inches wide, double. Between the two ends of the silk is a cotton wadding, thickly sprinkled with the bride's favorite sachet. The silk which is to be the inside of the sachet is caught to the wadding ends by tiny stitches to hold the wadding in place.

The outside piece of silk is embroidered with a large bowknot, having long ends that ripple over the edge of the sachet. The embroidery is done in white floss.

The edges of the silk are turned in and sewed together by hand, then bound with narrow satin ribbon. Now the sachet is folded over on itself for fifteen inches and the edges caught together with a loose buttonhole or cat stitch, leaving three inches at the top to fold over like the flap on an envelope.

Measure the length of the ribbon in the centre held down by a flat bow; the under part is fitted with the same length of ribbon, and the sachet is tied together and laid in the bottom of bureau drawer, trunk or suitcase, protecting its dainty contents from dust.

Smaller sachets are made, exactly on the same principle, of linen or pretty flowered lawn, the flowers matching the color of the ribbon.

Ribbon trimming the sachet should match in color and shade that which is run thru the lace heading on the lingerie.

Another useful accessory to the trousseau is a throwover of china silk.

This is made from a square yard of silk and many and varied are its uses. It may have a plain hemmed border or a two-inch hem can be feathered with the wadding with silks, matching the color of the china silk.

Fit one side of the "throw" with pockets made of squares and oblongs of silk, machine stitched on, and into these slip the articles most needed at the end of the journey when you stop at a hotel over night, change of underclothing, the night robe, a fresh blouse, lace jabot, belt, handkerchief, gloves or whatever you will require.

Fasten the centre and finish with a narrow fold of the linen.

It can also be used as a trunk cover or to toss over the lingerie when laid upon a chair at night.

Nimble fingers will also take delight in making all the dainty dress accessories in which every bride delights.

Girdles of ribbon and silk, jabots of lace and linen, satin and velvet bows for the neck, embroidered collars in

WHY NOT LET US SOLVE YOUR HEATING TROUBLES

PEASE HEATING SYSTEMS

Free of all cost to you, our expert Heating Engineer's Department is at your service. Many heating troubles are chiefly due to poor installation in the first place. This can be avoided or remedied by the advice of our Engineers.

If you live in Toronto, phone us, and we will gladly send a man up to see you—if you live out of Toronto, write us describing your trouble fully.

Our books "The Question of Heating," or "Better Information" sent free on request.

COMMENCEMENT EXERCISES AT LORETTO ABBEY

The annual commencement exercises were held at Loretto Abbey, where the spacious and newly-decorated convocation hall was thronged with a fashionable audience. A large number of priests were present, among whom were Administrator Kead and Monsignor McCann, the latter addressing the pupils at the conclusion of the program.

The young ladies, all gowned in white, filled the stages, making a very pretty picture. The program consisted of the crowning of the five graduates, the conferring of medals and honors, several musical selections, a splendid chorus of an unusually good setting of Mayhew's "Shooby-Show," and a reading, with musical accompaniment, entitled "Legend of the Limerick Bell."

Almost indispensable are oblong bags of bright colored muslin or gingham, made perfectly plain, to slip the shoes, overshoes or slippers in when they must be carried about from place to place. It will not be difficult to fashion any of these things, and with each stitch will be woven into these dainty things some happy thought of a golden future.
