## HEARING NEXT THURSDAY

Whole Bench Will Determine Vexed Constitutional Matter Raised by Conscription.

Ottawa, July 12.-The important uestion of the validity of the ordern-council of April 20 canceling exemptions granted under the Military Service Act reached the Supreme Court of Canada this morning in the form of an application for a writ of habeas corpus for Pte. George Edwin Grey, of Nipissing, who is under arrest because he refused to don a military uniform at Niagara Camp and also declined to be inoculated.

Applicant is Farmer.

In the course of the proceedings before Hon. Justice Anglin, Mr. Chrysler said that Grey, the applicant for the writ of habeas corpus, is a farmer who had been refused exemption by the local tribunal. He went before the appeal tribunal at Halley-bury and secured exemption so long as he remained on the farm. From this decision the military authorities appealed to the central appeal judge and the application was before Mr. Justice Duff on April 20, when the order-incouncil was issued. Like similar appeals relating to the classes affected by the order-in-council, it was not proceeded with.

Mr. Chrysler said that Grey con-

Mr. Chrysler said that Grey contended that the order-in-council was not valid. "We wish," he said, "to not valid. "We wish," he said, "to have the question of the order-in-council issued under the War Measures Act settled." He added that the only apparent ground for the action of the military authorities in ordering Grey to report was to be found in the order-in-council. He was a soldier solely by the virtue of its provisions. "We contend," he said, "that the order-in-council is invalid because it is virtually a repeal of the Military Service Act by order-in-council."

Act by order-in-council."
Mr. Justice Anglin referred to the fact that the order-in-council had been passed when parliament was in session. That was an oblike to hear discussed. He also expressed a desire to see the judgment of the Alberta and Quebec courts.

Mr. Newcombe said that the crown raised no objection to the regularity of the motion. It was a case, he said, where, if the invalidity of the order of April 20 could be established.

he said, where, if the invalidity of the order of April 20 could be established on behalf of the prisoner he would be entitled to be discharged from custody. He referred to the importance and urgency of the matter, stating that the judgment of the Alberta court was having an effect all over the country. "It is," he said To Whole Court.

the whole question of the validity of application should be referred to the whole supreme court. "You think that more expeditious than an appeal from the judgment of the Alberta court?" queried Mr. Jus-

tice Anglin. Newcombe replied that this would be the more expeditious way of disposing of the matter. It would avoid the question of whether or not an appeal can be taken from the judgment of the Alberta court.

Mr. Justice Anglin asked if it would be necessary to summon parliament in special session should the supreme court declare the orders-in-council invalid, and Mr. Newcombe replied that it would. Some discussion followed as to the

date on which the supreme court should convene in special session, and it was agreed to make every possible effort to be feady to proceed with the hearing on Thursday next. Mr. Justice Anglin agreed that this would be the proper course to pursue. "I could not," he said, "refuse the writ without over-ruling the Alberta court. On the other hand, should I authorize the issuance of the writ an appeal from my order might be taken."
