# **PUBLIC WILL HEAR RESULT OF PROBE**

So Says Mayor, Tho Other Commissioners Seem to Dissent.

Denison insinuated that the finding of the police commissioners on the hearing into the recent riots will not be made public, Mayor Church has emphatically declared that it will be. When asked the question at the concluding session yesterday morning by A. W. Roebuck, counsel for the G. W. V. A., Col. Denison replied: "Who are we to report to?" which comments seemed to be favored by Judge Winchester.

"It was an open encurer" description.

"It was an open enquiry," declared Mayor Church in answer to the ques-tion of a reporter for The World, "and the finding of the commissioners will be given to the public." His worship said he expected a special meeting of the commissioners would be called, when all the evidence submitted will be carefully gone into and he anticipated the finding would be about Tuesday week.
Claims Inefficiency Proved.

The morning was mostly taken up with the summing up of Mr. Roebuck, in which he claimed that the charge of inefficiency had been proved, and he expressed a desire that the investigation would be instrumental in bringing about the reorganization of the police the reorganization of the police force. Despite the fact that Mr. Roebuck was informed by the board that they would pay no attention to what he said, he stated that he understood he was to receive a polite hearing and he proceeded.

Leading Officers of Toronto District Decide to Have Report on War Activities.

Officers representing all the leading militia regiments of the Toronto (Central Ontario) military district met in conference in the office of Major-General W. A. Logic yesterday afternoon. The officers present included three generals.

An adverse financial standing was reported by most of the militia units. One regiment which had \$12,000 in the bank in 1914 is now overdrawn. It was decided to have reports prepared showing the work accomplished by the militia regiments since the start of the war. These are to be forwarded to Ottawa, backed up by a strong recommendation that grants be made to the regiments, taking the work accomplished as a basis.

It was the unanimous opinion of the conference that some recognition was due to the senior officers c, the militia regiments of Toronto and district, who since the war's beginning have kept the units intact while the younger officers served in France.

Regarding drills, it was decided that
