These Represent a Large Amount of Capital - Three New Companies Just Formed in London, Eng .-Hastings Mispickel - Affairs in British Columbia.

An idea of the amount of attention that Ontario's mineral resources are securing on the other side of the Atlantic can be got from the statement that there are now no less than 25 English companies actively interested in the northvestern gold fields of the province: For a couple of years past expert engineers have gone thoroughly over the district, and as a result of their investigations their principals are putting up the capital necessary to develop some of the deposits of the Lake of the Woods and

Seine River regions.

According to a World informant three According to a World informant three instances in the second in the s According to a World informant three new companies have just been formed in London, Eng., to acquire and work properties controlled by Mr. Robert H. Ahn of Rat Portage. These three concerns are The Gold Explorers of Canada, Limited, The Ontario Gold Reets, Limited and the Canadian Minerals Co., Limited. They have a total capitalization of \$1,500,000 and each has acquired about twenty prospects. about twenty prospects.

It is claimed, by the way, that the monthly bullion output of northwestern Ontario is about eight times what it was two years ago, and that it will be again quadrupled this season.

Assays of Manitou Gold.

Some mining men at Wabigoon recentify sent 1137 pounds of white, grey and red quartz selected from properties adjacent to the town to the Toronto School of Practical Science for a test run. Of this ore 544 pounds was tested, and it is said the result obtained was; gold bullion \$12, concentrates \$4, tailings \$3, a total of \$19. Check assays of the pulp gave 21.2 dwts, to the ton. These tests were certainly encouraging to those who have taken an interest in the deposits in the Manitou, Wabigoon and Lac Seul districts.

Hastings Mispickel.

It is stated that Mr. A. J. G. Swinney, until recently superintendent of the Canadian Gold Fields Co. at Deloro, Hastings county, has looked over a number of other mispickel properties in the vicinity of Kaladar with a view to buying them up and operating them. He has sailed for England, and it is asserted he will soon return with a new English company behind his back.

Money to Work the Lulius.

Mr. H. L. Lilienthal of Rossland announces that he has secured capital in Chicago for the development of the Lullus properties on the Lardo River in the Trout Lake district of British Columbia.

Maho Pays a Dividend.

The Idaho paid a dividend of \$24,000 last week. This makes a total of \$264,000 last week. This makes a total of \$264,000 paid up to date. The Idaho is a silver-lead proposition in the Slocan country.

D. B. Bogle, the manager of the Victory-Triumph, has doubled the force of men at work on the property, and is now working the property in two places. Mr. Bogle received word this week of an interesting strike that was accidentally made on Tuesday, when in removing a part of the dump near the mouth of the present tunnel the miners discovered a vigorous lead running parallel with the main ledge, and about 25 feet away from it. The new vein apparently is about six feet wide, and of this a body of quartz between 12 and 18 inches wide is showing especially well. The assays returned values of \$14.40 in gold, largely free-milling. The high gold proportion is something new, as heretofore values in the Victory-Triumph one were largely silver—and copper. Mr. Bogle intends doing preliminary work on the newly found ledge with a view to determining its trend, and if it proves to run parallel to the old ledge, as is expected, it can be easily developed by running crosscuts from the main tunnel along the old vein.—Rossland Miner.

The fact that one more property of the importance of the Monte Cristo has been added to the list of the camp's shippers is an event of great importance. There are other mining properties here that are being brought to the same condition as the Monte Cristo and at intervals they will be added to the shipping list. This list will probably be doubled during the present year.—Rossland Advice.

### ARE YOU ANXIOUS ...

# TO MAKE MONEY?

If so it will certainly pay you to investigate the class of investments we have to offer; also to particularly note the present prices of our stocks, in comparison with others. We will also ask you to bear in mind that in interesting you in Cripple Creek Gold Stocks you are putting your money in a mining district that in 1897 produced about one-twentieth of the gold produced by the world. For dividend-payers we can heartily recommend Elkton, Portland, Gold Coin and many others. Elkton pays 2 cents per share per month, or at the rate of 24 per cent. per annum on the par value of \$1—this stock can now be purchased about 79 cents per share. Portland is the largest mining company in Colorado, owning about 130 acres of patented ground. This company pays 1 1-2 cents per share per month, or at the rate of 18 per cent. per annum on the par value of \$1. Can be purchased now at about 95 cents per share. The company has a cash reserve of about \$300,000. Gold Coin pays 1 cent per share per month, and the dividend is very likely to be increased this year. The par value of the stock is \$1 and can be purchased now at about 92 cents. We have no hesitation in saying that any of the above stocks will make big money by advanced price, outside of the interests received in dividends. Globe Hill Consolidated will, in the near future, be on the dividend-paying list-Vein No. 4 is making a marvellous showing. The principal banks in Denver and Colorado Springs recommend this stock, and we have made arrangements with banks there to loan at the rate of 5 cents per share on this stock, should any of our prospective customers wish to take advantage of that offer. We invite correspondence concerning this stock, and have now only a few blocks left for sale at 10 cents per share. Your own broker can investigate this matter for you if you so desire. Act quickly on this now, as it is a case of first come first served.

White Pass and ... Yukon Railway.

The British Yukon Company are actively engaged in the construction of their line of railway from Skaguay through the White Pass to Lake Bennett and onward to Fort Seikirk. The portion of the line between Skaguay and Lake Bennett will be completed and in operation not later than the first day of September.

The United States Congress has passed a law extending bonding privileges to Canadian goods shipped into the Yukon district via Skaguay, and, as soon as the railway from Skaguay to Lake Bennett is opened, Canadian goods can be shipped through in bond without payment of American duties.

Shippers and travelers may rely upon this route being opened as stated, and will find it the shortest and cheapest way of reaching the valley of the Yukon. For further particulars address Messrs. Chrysler & Bethune, Solicitors for the Company, Ottawa.
