THE SNEAK ACT AT OTTAWA.

It is just 138 days since Parliament opened. It is proposed to prorogue the House Aug. 5, or in about a week's time. It is the intention of the Government to rush through the drying hours of the session subsidies for railways and bridges to the amount of over \$8,000,000. And there is more to come. Up to date the Government's program of expenditure for the year amounts to \$58,883,190, or some \$20,000,000 more than what Sir Richard Cartwright gave the people to understand was necessary for the unparalleled extravagance of the Government. It is hardly less objectionable than the indecent haste with which these bonuses were hurried through the House. It will be impossible to properly consider the merits of the various proposals during the last week of the session. By the time the details of the various proposals reach the people the money will have been voted away. The time is so short that opportunity is possible for the people to investigate the projects and make known their views to their representatives. The bigger part of the 138 days during which the House has been in session has been frittered away. The Government leaves till the last week the most important business that the House has to deal with. There is no escaping the conclusion that the postponement of the consideration of these enormous subsidies till the far end of the session was done designedly and for the express purpose of sneaking them through Parliament. The disgraced scene which characterized the termination of the Legislature of Ontario is to be repeated, only on a larger scale, at Ottawa. The Government may be able to offer some excuse for an increase in the expenditure for the present year. They can offer none for sneaking through an empty House subsidies amounting to over \$8,000,000. The Government's conduct is absolutely without defence, and the only inference deducible from it is that they are ashamed to lay daylight in on many of the projects which the people's money is to be squandered.

WARD ONE'S BIG PICNIC.

Originally it was proposed that the Conservative picnic to be held in Toronto on Monday next should be a purely local affair in Ward No. 1. Later on, however, it was decided to extend the scope of the picnic and to make it one of the big events of the season. The idea has grown and now the prospects are that Ward One will have one of the largest and most successful political demonstrations that have ever been held in this part of the country. The leader of the Opposition, Sir Charles Tupper, has definitely announced his intention to be present, and Mr. J. H. Macdonald, leader of the Provincial Opposition, will also be on hand. Sir Mackenzie Bowell has accepted his invitation, and he will be among the speakers. Others who will be present are Mr. Nicholas Flood Davis, M.P., always a drawing card at such gatherings, Mr. John Ross Robertson, M.P., who has given the Government some pretty hot shot during his short career in Parliament, and who will take advantage of the occasion to have a few words to say to the people of Toronto. In anticipation of the big day the Street Railway Company will centre their efforts for the evening on the Broadview, Carlton and College and Parliament street lines, and will thereby be enabled to handle the largest crowd with convenience and despatch. The picnic is to take place on the beautiful elevation just east of the Don and north of Gerrard street. There is ample room for a large crowd, and electric light will be supplied for the occasion. Seating accommodation will be provided for two or three thousand people, so that all ladies who attend, at least, will have a seat. Music will be provided by one of the military bands. Proceedings will begin at 8 o'clock, and those who wish to hear the veteran leader had better be on time, as that is the hour at which he begins his address.

ACCOMMODATION FOR THE MOUNTED CORPS.

At the time negotiations were going on between the city and the Government regarding the construction of the Armouries, plans were submitted by the Government showing two distinct buildings, one for the

Mounted Corps and the other for the Cavalry.

The Cavalry building was to be a large, two-story structure, with a central hall and a number of smaller rooms.

The Mounted Corps building was to be a smaller, one-story structure, with a central hall and a number of smaller rooms.

The Government has now decided to build the Cavalry building first, and the Mounted Corps building second.

The Cavalry building is to be built on the site of the old Armouries, and the Mounted Corps building is to be built on the site of the old Cavalry barracks.

Death of Thomas Wasson

The Official Detective of the Ontario Medical Council Succumbed to Sunstroke Suddenly.

Was a Camper at Orchard Beach Afflicted on Monday, He Passed Away Thursday—A Sketch of His Career.

The shocking intelligence was received in the city yesterday morning that Thomas Wasson, the well-known detective, had died suddenly Thursday night at 12:15 at Col. Lloyd's camp at Orchard Beach, Lake Simcoe.

The detective left the city on Saturday last for a ten days' vacation. On Monday afternoon, in company with Dr. R. A. Fyne, he went fishing. He was sunstruck. The affliction was not thought serious, but it turned out to be fatal.

Dr. Fyne accompanied the remains to Toronto yesterday morning, and they were met by Mrs. Quigley, the daughter of the deceased.

Born in the East.

Detective Wasson was born 28 years ago in Nova Scotia. He received his early education in Halifax, being a schoolmate of Manager Scadding of the Toronto Railway Company.

In early life he was a captain on an Atlantic steamer. Then he became a member of the staff of J. C. Bridges, when he was President of the G.P.R. Later he was a detective on the International, and was connected with this railway at the time of his death.

Came to Toronto.

He came to Toronto fifteen years ago and was made official detective in the Ontario Medical Council. He was president of the Provincial Constabulary Association, a member of the Dominion Police, and a member of the Detective Association.

YOU'RE NOT SAFE

From the Dangers of Diarrhoea, Dysentery and Summer Complaint Unless You Have Dr. Fowler's Extract of Wild Strawberry in the House.

There are very few homes in Canada that do not have Dr. Fowler's Extract of Wild Strawberry in the house. You yourself, or one of your family, is liable to be attacked at any time just now.

Are you prepared to deal with these dangerous diseases, should they come upon you to-night?

Have you a bottle of Dr. Fowler's Extract of Wild Strawberry in the house? This is the only remedy you know will absolutely and without fail stand by you in the hour of need.

As some of the disease too sudden to initiate it do, and thus produce inflammation. It does not drive the fever, but soothes the inflamed bowels, settles the stomach, and restores the system to its normal condition.

During the past 40 years Dr. Fowler's Extract of Wild Strawberry has saved thousands of lives of both infants and adults.

Dr. John L. Carter of Bridgetown, N.S., in the following letter, tells how it saved his life: "I had suffered with dysentery for four weeks, and could get nothing to eat. I then tried Dr. Fowler's Extract of Wild Strawberry, and I feel that it saved my life. It restored me to health, when everything else failed. I consider it a wonderful remedy that should have a place in every home."
