Chicago Gossip.

J. J. Dixon has the following this evening from Chicago:

Wheat—After an easier and somewhat lower opening, wheat has ruled firm under light trade. Sentiment is less bearish under lesser primary market receipts and liberal cash demand. Towards the close there was some buying by the firm that before represented the interests heavily long, and who supposedly sold heavily last week. Export clearances were about double primary receipts, and primary market shipments were considerably heavier than last year. Market has very healthy appearance, and we look for higher values.

Corn has ruled firm, with prices up a fraction. Patten has been the best buyer, the selling was small and mostly by commission houses and local longs. The Price Current says the corn movement is maintained. Local receipts are more than expected, 364 cars, with one contract. In the past two days a large seaboard business has been done, and kept under cover over a million bushels. Clearances to-day liberal, 600,000 bushels. Weather slightly colder; 376 cars to-morrow.

Oats—There was a fairly large trade, with prices active and higher, closing about ¼d over last night. Prominent local operators were free buyers; the selling scattered and mostly local. Spring demand good. Prices up ¼c. Receipts only fair, 169 cars, with 210 for to-morrow.

Provisions opened steady at about yesterday's closing price, and ruled dull until near the close, when prices were easier on moderate selling by packers. Cash demand poor. Market closes barely steady at about lowest prices of the day; 23,000 hogs to-morrow.

LOCAL LIVE STOCK.

Receipts of live stock at the Cattle Market were fair for Thursday, 36 loads all told, composed of 514 cattle, 823 hogs, 461 sheep and a few calves. Besides the above number of hogs there were about 100 shipped direct to Park, Blackwell & Co.

The quality of fat cattle was again only middling, especially in the butchers' class. There were a few fairly well finished exporters, which brought $5 per cwt. The bulk of exporters, however, sold at $4.40 to $4.75 per cwt. Drovers report choice well-finished butchers' cattle as being scarce in the country, while on the other hand the common grades of this class are very plentiful.

A few exporters were wanted to fill immediate space, and had there been a large run of this class it is not likely prices would have been as good.

Trade was fair, the better grades of fat cattle being picked up readily, but the common classes were slow of sale, with prices about the same as on Tuesday.

A large number of the drovers were disappointed at the sudden drop in the prices of hogs. The run, however, was light, not quite a thousand.

The offerings of milch cows were generally of inferior quality, and some of the specimens offered as such sold as low as $20, but this class are not wanted. Good cows will bring fair prices, and are worth all the way from $30 to $40 for common to medium, while good to choice will bring $40 to $50 each.

Prices for sheep and lambs were unchanged. The offerings of lambs, however, were generally of poor quality, which caused the market for them to be slow. In all other classes prices remained unchanged.

Export Cattle—Choice lots of export cattle are worth from $4.50 to $5 per cwt., while lights are worth $4.25 to $4.50.

THE INDIAN UPRISING.

U.S. Marshal Bennett Notifies the Creeks That He Will Use Force Against Them.

Ex-Chief Roley McIntosh of the peaceable of treaty party and about twenty followers have taken refuge in Eufaul. John Cruk, a leader of one of the insurrectionary Creek Indian bands, and some of his men are watching McIntosh. United States Marshal Bennett has issued thru ex-Chief McIntosh a proclamation declaring the depredators to be in open rebellion against the constituted authorities and thereby violating thelaws of this country. He notifies them that "The time has now come when force will be used agains force, and the warrants I now have and may receive against members of the band will be served, no matter what the cost to them."

CHATHAM ENTERPRISES.

A System of Suburban Railways and a Beet Sugar Factory on the Tapis.

Chatham, Ont., Jan. 24.—A local syndicate has applied to have the charter of the Chatham and Suburban Electric Railway revived. It is proposed to have the railway built to run from Chatham to all surrounding towns, including Blenheim, Rondeau summer resorts, Wallaceburg, Dresden, Petrolea and Mitchell's Bay.

The Kent Beet Sugar Company is being organized here with a capital stock of $500,000. Of this amount New York capitalists have subscribed $250,000. The company will be in operation by Jan. 1, 1902. A provisional board of directors has been appointed.

RUSSIA MUST MEAN SOMETHING.

Supplies in Large Quantities Are Being Carried to Her Stronghold, Vladivostock.

Victoria, B. C., Jan. 24.—An officer of the steamer Tosa Maru, which arrived at the outer wharf from the far east this afternoon, stated that every steamer leaving Hong Kong carries supplies for Russia's stronghold of the Pacific, the port of Vladivostock. Quantities of this freight are continually being sent north, he said, and there are rumors of some very important movements of the Czar's forces in the early spring. He believed that fine weather would see 200,000 men of the Russian army positioned at Vladivostock.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectic Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since, I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me. ed

On Wall Street.

The realizing of speculative profits proceeded steadily to-day at a resulting expense of prices. The only variation from the downward course was due to purely technical causes. The rapid recuperation in the condition of the Bank of England, and the continued ease of money there, in spite of large withdrawals from the market by the bank, points to an early reduction in the Bank of England rate. The opening prices of stocks here proved in most cases to be the highest. The weakness of the steel stocks, which began from the opening, proved a disappointment for those speculators who had hoped that the group would assume the leadership of a new advance in prices, because of the late strength shown by the leading steel stocks yesterday. Yesterday's advance proved sufficient to bring in buying orders, and the speculative backers of these stocks seemed indisposed to offer very vigorous support. The reported illness of the largest individual operator in the street, and who has been supposed to be long of stocks, had considerable influence on sentiment. Some attention was given to the reports of friction between the English and Russian admirals in Chinese waters. The day's statement of sub-treasury operations reflected the payments on account of gold withdrawn from the assay office for export, which more than wiped out the week's previous gain by the banks. A notable feature of the money situation is the heavy reflux of National Bank notes. Yesterday's treasury statement shows that receipts of bank notes for current redemption thus far this month have amounted to $13,861,608. For the six months ending Jan. 1 the total was $63,393,849. The average per working day previous to this month was a little over $420,000, while for this mouth thus far the average is considerably over $700,000 per working day. Experience shows that this return movement of bank notes is likely to continue heavy during February and March, and, in view of the expansion under the new law of about $95,000,000 in National Bank note issues, it is likely to be aggravated this year. The limitation of $3,000,000 per month, as the maximum allowed for retirement of bank notes, remains in the law, and will act as an obstacle to the contraction of circulation. The current redemption of bank notes plays a large part in the large gains made by New York banks on sub-treasury operations, as New York banks receive a large proportion of interior bank notes by return shipment, and, besides, obtain drafts on account of bank notes received by their interior correspondents. Extreme declines reached 4½ in St. Paul, 4¼ in Brooklyn Transit, 2⅞ in Steel and Wire, 2⅝ in Federal Steel and Manhattan, 2¾ in Northern Pacific, 2 in Great Northern pref., 2¼ in Sugar, and from 1 to 2 in a large number of active stocks. Kansas and Texas pref., made some show of strength.

J. J. Dixon has the following this evening from Ladenburg, Thalmann & Co., New York:

The stock market opened about as it closed last night, with the exception of St. Paul, for which prices came higher from London, and the initial price here was about 1 point higher. The trading in this stock was the feature of the market, and opinion varied as to its significance, some good judges believing that the price was depressed in order to accumulate stocks, while others thought that a line of long stocks were being closed out. The general list, after showing some hesitation in the early trading, gradually weakened, and was, in the main, heavy, the operations being largely professional. Traction stocks were heavy and the industrials irregular. Sugar was quiet within limited fluctuations. Stocks of the Pacific group were sold practically all day. M., K. & T., pref., showed considerable strength. London bought on balance. There is no financial news of importance; foreign exchange market is strong. Demand sterling, 4.87¼ to 4.87½.

Railway Earnings, Etc.

It is now reported from the west that the Omaha Line will be absorbed by the Northwestern, and that the Chicago & Great Western will be purchased by the Vanderbilt-Harriman-Morgan syndicate. It is also said that the St. Louis & San Francisco may be acquired by the Atchison.

The tobacco companies are making favorable statements. The American Company made 8.9 per cent. on common stock the past year, which does not include the Japanese business.

St. Paul's earnings for the third week of January were $793,973, an increase of $43,669.

A good investment at present low price.
One of the very best and biggest Silver Lead Mines in the Slocan, British Columbia. Will be a large dividend payer. Now on shipping list, one car a day, of clean ore, which will net about $900, and now storing a lot of concentrating ore, waiting erection of large concentrator.
Management are A1, practical mining men who have made a success of other mines, and are making the same of this one, having near $750,000 in sight. Good wagon road, tramway and shipping facilities. Investigate and purchase while they are cheap. You will not regret it.
Writer has had three years' personal experience out in British Columbia, among the mines, and has also made an inspection of this one and verified facts stated and knows whereof he now speaks.
Correspondence solicited. Agents wanted at outside points.

JIM BLAINE
The capital of this company is 1,000,000 shares of the par value of $1.00, fully paid and non-assessable. The property adjoins the great Republic mine, and is generally supposed to contain an extension of the big Republic ore chutes. The majority interest of the Jim Blaine Company is owned by the Republic Company, and, therefore, the property can be worked economically from the Republic territory, as levels can be run into Jim Blaine ground at small cost.
We do not look for any activity in Jim Blaine for some time, because the Republic people will have their hands full for a few years in putting this great property on a solid basis, but, just as soon as the Republic enterprise is brought to a high standard, the Jim Blaine property will command attention, and the stock will be selling at much higher figures. We believe the stock at the present market figures is a good speculation. It must be remembered that this stock has sold as high as
85c
and the condition of the property has not changed, yet the stock can be had from prices ranging between 5c and 10c per share. Here is a reasonable chance for a return of four or five times one's investment by purchasing now and waiting for the boom.
We shall be glad to take your orders for some of this stock. Write, wire or telephone
