According to the Monetary Times, Sir Joseph Flavelle has subscribed \$100,000 to the Victory Loan. That's noble! Think of accepting a trifling 5½ per cent in place of the money Sir Joe is used to drawing down!

VOTING REASONS.

ONE of London's ministers, Rev. Dr. H. S. Dougall, is reported to have taken advantage of a meeting in his church Sunday school to give seven reasons why the Borden Government should be supported. There may be different opinions on the question of delivering political addresses in such premises, but let that pass. The second reason he is reported to have given was this:

"It (the Government) places upon every man in Canada an equality of responsibility and the duty of service. The duty of service lies equally on all, and a man will be used according as he is of most value to the country. Perhaps on the land, perhaps on the railway and perhaps at the front."

What is there in the military service act on which such a wild assertion can be based? The man of military age who has a flat foot, a "hammer toe" or one of a thousand minor deformities is exempted from service because he is not considered fit for the trenches. He is placed in a lower category than A-2, and Premier Borden has announced definitely that the Government has no thought of calling on such men to serve. He is not taken to replace a fit man on the railway; he is simply allowed to follow his own sweet will as he did before conscription came into force. Equality of responsibility!

Why did not Dr. Dougall give his audience a fair picture of the whole political scene? Or was this just a Borden meeting? Dr. Dougall might have presented some telling arguments, many more than seven, why the Borden Government should not be supported. He might have recalled to the minds of his hearers the fact that this leader continued to send overseas Canadian soldiers equipped with Ross rifles, proved unsuitable for warfare, because "the contracts could not be broken." It was, of course, so much better to endanger thousands of lives than waste rifles and money! He might have told them all about "Col." Allison, about binoculars, about revolvers, about the fact that Sir Robert Borden and company could not take time to consider the trifling matter of soldiers' pensions being much too busy providing the stockholders of the C. N. R. with a few millions for pin money, and disfranchising naturalized Canadians (except in Waterloo) and patriotic women. Dr. Dougall might have mentioned the fact that this leader for whom he asks support is the same who paraded Hon. Robert Rogers before the people of Britain as one of the big men of the Dominion, while there was a most unpleasant charge hanging over his head. It might have been mentioned that the Borden Government has failed lamentably to bring down the high cost of living.

If Dr. Dougall, as a minister of the gospel, approves of these deeds and misdeeds of Sir Robert Borden, he should say so. If he disapproves, surely it is his duty to so inform the young people of his church if he is going to speak on politics at all.

TO HELL WITH YOUR PROFITS—SIR JOSEPH FAVELLE.
TO H— WITH PROFITEERS—THE CANADIAN PEOPLE.

THE CANADIAN NORTHERN INIQUITY.
THE twin iniquities of the last hours of the Borden Government were the franchise act and the Canadian Northern act. The burglars' jimmy was used in accomplishing both. The Canadian Northern act was to obtain money. The franchise act was to obtain power. Both were to be so obtained by utterly dishonest methods. The money to be obtained by the Canadian Northern act, was to be used to clinch with the electors another five years of power.

What an awful cost the Canadian Northern will be time will reveal. There will be first the purchase price, but that will be only the beginning. "Thus bad begins but worse remains behind."

There will be if the present Government owns the road a greatly increased payroll. There will be a very much larger number of employees—far more than now.

The service will be inferior. The public debt will be enormously increased. The Government can use the railway for its various fraudulent enterprises.

Carried far enough, the railway will own the country, not the country own the railway.

AFTER THE WAR.

A WRITER in the New York New Republic recently said that in various parts of Europe which he has traversed this year he has heard from many a chance acquaintance the determination to come to America or return to America after the war. A Frenchman in Marseilles declared that he was going back, and "going back to stay." Italians eagerly discussed with the writer a migration as soon as possible to New York or Philadelphia. One man "seemed

less proud of wearing the plume of Bersaglieri than of having once earned five dollars a day in Buffalo." The American abroad heard Italians singing ragtime when they might have been rendering the war songs of their sunny Italy. "What is a bugle call to one who has turned a hand-organ?"

Spanish Jews, 50,000 of them, in Saloniki, all seemed to have their mind set on America. Albanians and Greeks had the same disease. "A Balkan barber who had learned his trade in Massachusetts and brought back American chairs with him to Macedonia, the most palatial outfit in the Balkans, gave the writer a haircut and shave. He gave it, literally, for he could not change the five-franc bill handed him in payment, his total charge for the dual operation being one franc. Coin is scarce in the region. "Pay me some other time," he said. "But I may not be here long." "Well, then, pay me some time in America."

If they are longing for the new world amidst the storm of blood and iron over there, and if as soon as it clears off and the dams are opened, a tremendous rush is going to start, as seems likely, Canada ought to have her large share of the settlers. Year by year, in spite of the war's toll of life, the would-be emigrants accumulate behind the bars. The migration may be a stampede, a contagious mania and panic. Over there hangs horror, and famine threatens, while here, especially in Canada, is peace, freedom, latent plenty and opportunity to forget or put away from mind the cruel nightmare of fear and loss and ruin. We shall have to be ready for an influx of fugitives. There will probably be Russians in plenty, of the better sort, fleeing from anarchy or some new despotism. The better we keep up our force, also, in France, the harder and heavier blows our heroes strike, well supported from home, the more widely Canada's name will be known and the more interest our wheat lands and expanding industries will excite among the masses of Europe seeking to better their fortunes. A well subscribed Victory Loan is one means of fighting the good fight in France, and making Canada a name of sweet, good omen to the peoples oppressed under military despotism or crushing burdens in Europe.

MILLIONS FOR MACKENZIE & MANN!

**BUT
A DOLLAR TEN FOR THE BOY IN KHAKI!**

"HE CAN DO NO MORE THAN CAESAR'S ARM WHEN CAESAR'S HEAD IS OFF."
THE Government, the Borden Government, that passed the franchise act, does not deserve to rule Canada. How the Liberals who joined the Borden Government were induced to do so may some day be disclosed. In the meantime let the people prevent the continuation of that Government in power and nullify the franchise act by returning to power Sir Wilfrid Laurier. There can be no better testimony of his fitness than that given by the Honorable Edward Blake, when he named Sir Wilfrid Laurier to be his successor. When Mr. Blake was asked why he had desired Mr. Laurier to succeed him he replied: "I knew the man."

Sir Wilfrid Laurier would rather remain in opposition forever, than gain power by dishonorable means. Edward Blake knew the man, and Canada has known the man ever since. Sir Wilfrid Laurier kept unstained the Liberal banner which Edward Blake handed him, and Edward Blake kept unstained the same Liberal banner which Alexander Mackenzie had handed him, in all its honor and purity.

They are three noble leaders of Liberalism. The people can prevent any harm being done by the franchise act by defeating the Borden Government. It can then

"Do no more than Caesar's arm
When Caesar's head is off."

WHAT MIGHT HAPPEN.

A GOOD CARTOONIST might draw a picture of a large roll of newspaper paper suspended on a rope. Beneath this he might place the conventional figure of a publisher—if there is such a figure. The publisher is trying to drive his mighty pen with one hand while the printer-man snatches his copy away. The cord which holds the roll of paper is frayed, and the roll is marked in large letters, "Higher Priced Newspaper."

In the background lurks a sinister figure. That is the Government commissioner. If he uses that villainous-looking dirk upon the shabby rope, the heavy roll will fall upon the publisher. So he withholds his knife—at least until after the election. For if the roll fell upon the publisher, the publisher, being used to writing in any position, might, with his final quill slashes, write those words which would send the Government commissioner's bosses to oblivion. As long as the Government keeps the commissioner in leash the publishers—at least some publishers—are good. But if that roll should ever drop—if the publisher's ox should be gored, so to speak, there would be a sudden splashing of ink that would make millions think.

EDITORIAL NOTES.

It comes as a blow to learn that Gen. Townshend's captured forces are accorded anything but good treatment by the Turks. These foes have learned much from the arch-fiends, the Germans.

Would it not be well if fewer policemen were employed to patrol Richmond, Dundas and other busy streets in the evening, and more were sent to the residential quarters during this thieving epidemic?

Look over the lists of enumerators, the senators who have been appointed recently, the recipients of "soft snaps" under the Government, and you will see the humor of this kind of comment from the English Yorkshire Post: It praises the courageous work of the new Canadian Government "in abolishing that wellspring of corruption, the patronage system."

The latest German idea of dividing or frightening their enemies is to represent the struggle as developing into a war between Europe and America, all through the Entente's fault. First, England was guilty of bringing colored troops and then the half-civilized Americans to ravage Europe, say the Hun. England is traitor to the solidarity that Europe should present against Africa, Asia and America!

The Road Hogs of Canada

The advent of the motor car in England gave rise to a new type, the road hog. The utter contempt for the convenience, happiness and rights of others that characterized some of the drivers and owners of the new and more speedy form of conveyance was so marked that the farmers, who suffered most by reckless motor speeding on the country roads, could find only one expressive phrase by which to proclaim their resentment. The term "ROAD HOG" stuck.

Later when Mr. Lloyd George was in a way of blistering words by which to express British contempt for the barbarian methods of warfare adopted by the Germans, he fastened upon the Prussian for all time the label "The road hog of Europe." Nothing in the English tongue could express so forcibly and so accurately the contempt which Germany has brought upon herself by her arrogant and brutal disregard of the rights of other peoples.

There are road hogs in every country. Every nation, however democratic, has to fight against the tyranny and autocratic pretensions that menace the liberties of the common people from within its own borders. Canada has its war lords and autocrats and Big Interests and haters of democracy who dispute the right of the people to rule, who lay grievous burdens on the backs of the harassed consumers and who make much riches out of the necessities and sufferings of the poorer members of the community. They are the road hogs of Canada. To a man these road hogs are to be found in the ranks of the Unionist party.

The whitewashing of Hon. Robert Rogers by a Borden commission which was a legal farce, was outdone by the premier when in his speech at Toronto last week he went out of his way to whitewash Sir Joseph Flavelle. Everyone knows that packers accumulate millions out of fractional profits, but the point which Sir Robert Borden evaded was the right claimed by Sir Joseph Flavelle to carry on war profiteering on as big a scale as his credit and plant warranted.

The Borden Government tacitly admits that Sir Joseph Flavelle had a moral claim when he applied ordinary market principles to war-time contracts. They have limited the future profits of the packers. But does any sane man believe that the public grievance against the packers is redressed by locking the stable door after the horse has been stolen? Sir Joseph Flavelle and the other road hogs of Canada are getting away with the huge profits that have been wrung out of the sweat and misery of the people, and no Government hand is stretched out to recover the excessive profits for the country to which they belong. Why? Because the road hogs of Canada own the Borden Government body and soul. Canada is under the heel of the Big Interests that put obstacles in the way of voluntary recruiting and which are opposed to anything that interferes with their profiteering.

Sir Joseph Flavelle is not the only war profiteer whose ungodly gains should be investigated. The public would like to know what profits have been made during the past three years by the companies in which Hon. C. C. Ballantyne is financially interested. That Union Government is not trusted by its friends is evidenced by the well-grounded fear in Unionist circles that Borden will be snowed under at the polls if the Unionist voters are allowed to think about war profiteering and the part the Big Interests have played in bringing the Union Government into existence. The road hogs who are behind the Union Government are exploiting the public of Canada, and amassing huge profits at a time when members of the Government are imploring the people to make sacrifices on behalf of their country and the allied cause. Having amassed fortunes in war time these profiteers, in an age when money plays a sinister part in the government of the nation, are making a determined effort to control the reins of power. What hope is there for reconstruction on democratic lines in Canada from a Union Government that represents the Big Interests? The people will best consult their own interests by refusing to vote for the road hogs of Canada.

**City Physicians Explain Why
They Prescribe Nuxated Iron**

To Make Beautiful, Healthy Women and Strong, Vigorous Men

NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY.

Quickly Transforms the Flabby Flesh, Toneless Tissues, and Pallid Cheeks of Weak, Anæmic Men and Women Into
a Perfect Glow of Health and Beauty—Often Increases the Strength of Delicate, Nervous, Run-down
Folks 100 Per Cent in Two Weeks' Time.

New York, N. Y.—It is conserva-
tively estimated that over three million
people annually in this country alone
are taking Nuxated Iron. Such aston-
ishing results have been reported from
its use both by doctors and laymen, that
a number of physicians in various parts
of the country have been asked to ex-
plain why they prescribe it so exten-
sively, and why it apparently produces so
many better results than iron obtained
from the old forms of inorganic iron.

Dr. Ferdinand King, a New York
physician and Medical Author, says:
"There can be no sturrier iron tonic
without iron. Tailor means anaemia.
Anaemia means iron deficiency. The
skin of anæmic men and women is pale.
The flesh flabbies. The muscles lack
tone, the brain lags and the memory
falters and they often become weak, ner-
vous, irritable, despondent and melan-
choly. The iron tonic is responsible for
the blood of women, the roses go from their
cheeks."

In the most common foods of America,
the starches, sugars, table syrups, can-
dies, polished rice, white bread, soda
crackers, biscuits, macaroni, spaghetti,
tapoca, sago, farina, degenerated
maize, no longer is iron to be found.
Refining processes have removed the
iron of Mother Earth from these im-
purified foods, and all that is left is
home cooking, by throwing down the
waste-pipe the water in which our veg-
etables and fruits have been washed.

Therefore, if you wish to preserve
your youthful vim and vigor to a ripe
old age, you must supply the iron defi-
ciency in your food by using some form
of organic iron just as you would use
salt when your food has not enough
salt.

Dr. A. J. Newman, late police sur-
geon of the city of Chicago and former
house surgeon, Jefferson Park Hospital,
Chicago, in commenting on Nuxated
Iron, says: "It has been my particular
duty during the past six years to be
keeping Chicago's five thousand blue-
coats in good health and perfect fighting
condition. I have found that the only
way to do this was to supply them with
the iron they were physically de-
ficient in."

Recently I was prompted through an
endorsement of Nuxated Iron by Dr.
Schuyler C. Jacques, visiting surgeon
of St. Elizabeth's Hospital, New York,
to give it a trial. This remedy has
proven through my own tests of it to ex-
cell any preparation I have ever used for
creating red blood, building up the
nerves, strengthening the muscles and
correcting digestive disorders."

Dr. E. Sauer, a Boston physician who
has studied widely both in this country
and in great European Medical Insti-
tutions, says: "I have said a hundred
times over 'Organic iron is the greatest
of all strength builders. If people would
only take Nuxated Iron when they feel
weak or run-down, instead of doing
themselves with habit-forming drugs,
stimulants and alcoholic beverages, I am
convinced that in this way they could
ward off disease, preventing it becoming
organic in thousands of cases and there-
by saving the lives of thousands more
who now die every year from pneu-
monia, grippe, kidney, liver, heart
trouble and other dangerous maladies.
The real and true cause which brought
their disease was nothing more nor less
than a weakened condition brought on
by lack of iron in the blood."

Not long ago a man came to me who
was nearly half a century old and asked
me to give him a preliminary examina-
tion for life insurance. He was aston-
ished to find him with the blood pres-
sure of a boy of 20 and as full of vigor,
vim and vitality as a young man; in fact
a young man he really was notwith-
standing his age. The secret, he said,
was taking iron—Nuxated Iron had filled
him with renewed life. At 30 he was
in bad health; at 46 he was careworn
and nearly all in—now at 60, after taking
Nuxated Iron a miracle of vitality
and his face beaming with the buoyancy
of youth.

Iron is absolutely necessary to enable
your blood to change food into living
energy. Without it, no matter how
much or what you eat, your food merely
passes through you without doing you
any good, and as a consequence you be-
come weak, pale and sickly-looking, just
like a plant trying to grow in a soil
deficient in iron. If you are not strong
or well you owe it to yourself to make
the following test: see how long you can
work or how far you can walk without
becoming tired. Next take two two-
grain tablets of ordinary Nuxated Iron
three times per day after meals for two
weeks. Then test your strength again
and you will find that the body without
doing any good. It is not surprising that
millions of people annually are now
taking Nuxated Iron, and physicians
course of Nuxated Iron, and declared:
"Doctor, I feel as full of life and energy
as when a boy of 21. When you com-
pare what I am now with what I was
most remarkable and wonderfully effective
remedy."

Dr. H. B. Vall, Medical Examiner
and late of the Baltimore and Annapolis
Hospitals, says: "Time and again I
have prescribed organic iron—Nuxated
Iron—and surprised patients at the
rapidity with which the weakness and
general debility were replaced by a re-
newed feeling of strength and vitality.
One man 47 years old who had practi-
cally worn himself out with strenuous
exercising and nervous concoctions

Hospitals, says: "Time and again I
have prescribed organic iron—Nuxated
Iron—and surprised patients at the
rapidity with which the weakness and
general debility were replaced by a re-
newed feeling of strength and vitality.
One man 47 years old who had practi-
cally worn himself out with strenuous
exercising and nervous concoctions
came to me recently after a month's
course of Nuxated Iron, and declared:
"Doctor, I feel as full of life and energy
as when a boy of 21. When you com-
pare what I am now with what I was
most remarkable and wonderfully effective
remedy."
