INDIA QUITE CHEERFUL UNDER HEAVY TAXATION

Disposition Shown to Assume War Burdens in Loyal Spirit. GIFTS STILL POUR IN Equipment of Various Kinds and Money Are Contributed Freely.

LONDON, March 12, via Reuter's agency.—A special despatch from Delhi says: "The executive council of India has been discussing taxation with much animation, the keynote of all the speeches being the remarkable manner in which the people of India have approved of the general and fresh taxation imposed, and reiterating the whole-hearted support being given to the government in all its schemes for the successful carrying on of the war. Thus, India is exporting large quantities of raw materials to the allies, especially jute and saltpeter, while Burma is supplying wolfram (tungsten ore). The shell output of the Indian workshops is rapidly increasing. Cheered by Successes. "The recent great successes of the Russians over the Turks in Armenia and the splendid fighting of the French in the defence of Verdun have given the keenest pleasure in India. The whole country continues to watch events in Europe, in Mesopotamia and in East Africa with acute interest. There is no falling off either in the support which India is giving to the empire. Gifts of aeroplanes, hospital equipment, motor ambulances and ambulance launches continue to be presented by the princes and the people. Money still pours in also for the various war funds and for comforts for the troops in all theatres of the war."

HAVE MORE OFFICERS THAN CAN BE ATTACHED

No Recommendations for Appointments Until Supernumeraries Are Absorbed. MILITIA HEADQUARTERS, Ottawa, have ruled that further supernumerary officers will not be appointed to battalions of the C.E.F. until these supernumerary officers now attached to the different battalions in Canada have been absorbed. Under the present system, the number of supernumerary officers is continually increasing, and these officers could do far more good and useful service if they were made provisional officers in new units. Moreover, if they went overseas as supernumerary officers and their battalion goes to the front they would be left behind in England, thus denuding Canada of their services and without any prospect of employment in England. Steps will therefore be taken to absorb all supernumerary officers in battalions already formed or forming in the Toronto division into the establishment of units still incomplete in officers. Officers commanding units with supernumerary officers already appointed will receive notification in a few days as to the unit or units in which their supernumerary officers are to be absorbed, and officers commanding units having vacancies for lieutenants will be informed of the names of supernumerary lieutenants who will receive notification in a few days as to the unit or units in which their supernumerary officers are to be absorbed. Until all supernumerary officers are absorbed in the manner described above no further recommendations for new appointments of lieutenants will be considered. Should any supernumerary officers now serving not be considered efficient and likely to make good officers, officers commanding will report accordingly and steps will be taken to have them struck off the strength of the battalions to which they are attached.

SEALING SEASON UNDER WAY

Modern Sealing Vessels Taken by British Government. ST. JOHN'S, Nfld., March 12.—The sealing season is well under way with the departure last night of the fleet for the Labrador coast and the Gulf of St. Lawrence. The only steel steamer in the fleet this year is the Florizel, which during the summer is regularly used in the New York-St. John's service. All of the modern sealing vessels have been requisitioned by the British Government. Ice-breaking at Archangel, where some of them are now frozen in. To replace them, many of the old wooden steamers formerly engaged in sealing, and many coal steamers have been equipped for work among the floes this season.

QUAKE RECORD AT BUFFALO. BUFFALO, March 12.—An earth-quake shock that probably occurred in the Caribbean Sea, the West Indies or Central America, was recorded on the seismograph at Canisius College today, the indicated distance being 1750 miles. The preliminary shock occurred at 2.35 a.m. The main shock was from 2.44 until 2.51 o'clock, with final tremors at 3 o'clock.

SCANDINAVIANS WILL CONTINUE NEUTRALITY

Conference at Copenhagen Results in Strengthening Bonds of Union. COPENHAGEN, March 12.—(Via London).—An official statement regarding the conference of the Scandinavian ministers of state, which concluded Saturday, says: "The deliberations were opened by a general conversation on the questions which have occupied the Scandinavian governments since the outbreak of the war, and particularly after the meeting of the Scandinavian kings at Malmo in December, 1914. Various important matters which have occurred since were discussed, as regards special questions of practical interest, an agreement was reached providing for the continuation of the common measures already taken and the new measures to be taken in the interest of the three countries. "The deliberation strengthened the good relations between the three states and gave fresh expression of the desire to maintain a loyal and impartial neutrality. The desire to continue the co-operation hitherto pursued was expressed by all those in attendance. It was also urged that conferences of the members of governments or representatives of the states be held to further co-operation as often as circumstances may render them desirable.

WOMAN INJURED BY TROLLEY

TUG TO ESCORT STEAMERS

ROTTERDAM, March 12, via London.—The Holland-America Line has arranged for a big sea-going tug carrying a large quantity of life saving and salving material, to escort each steamer of that line across the North Sea to and from Kentish Knock Lightship on the English coast. The arrangement was begun last night with the sailing of the steamer Veendyk for the Nieuw Amsterdam, sailing from New York, March 9.

THE ALLIES ARE NOW SUPERIOR IN MUNITIONS

Bertram Mitford, Returned From England, Gives Assurance to Loew's Meeting. SCORES SHAUGHNESSY W. C. Mikel, K.C., Says He Has Disgraced Title Conferred on Him by King.

The big crowd at Loew's recruiting meeting last night was treated to one of the best recruiting addresses of the year. It was delivered by W. Bertram Mitford, a Toronto man, who has just returned from England, and who has been in touch with some of the empire's biggest financial and business men. It is men and more men that will win this war for the allies now, he told them. Never again, he had been assured time and again, would the men in khaki be called upon to face fierce shell fire or machine gun fire which could not be returned with equal if not greater force by the allies. If street advertising had been necessary to fill the recruiting hall, the parade of the Hun down Yonge street from Bloor collected a crowd large enough in itself to fill the theatre by capacity, surrounded as he was by a guard of twelve soldiers with fixed bayonets, the Canadian private in the German uniform proved a spectacle which had he not kept on the move down Yonge street, would have been sufficient to block traffic. The great majority of the crowd saw the joke. But others didn't, at least they hurriedly inquired and huses after the spike-helmeted Canadian as long as they could see him. Bound to Win. Financially the allies are bound to win the war, Mr. Mitford told the audience. And in the matter of munitions, they have passed the preparation stage and are rapidly gaining preponderance in artillery and wealth of shells which can give ample protection to the men behind the rifles. It is men who are now needed and urgently needed. He had talked to wounded Frenchmen, Russians, Englishmen and Canadians and was struck by the unity and determination of the opinion that the allies would win the war, and that the end of the conflict would not be until the military power of Germany was brought to an ignominious end. Scores Shaughnessy. W. C. Mikel, K.C., of Belleville declared that Baron Shaughnessy of Montreal had disgraced the title conferred upon him by the King by his remarks last week. He ought to be ashamed of himself, Mr. Mikel declared. He said it was a "damned lie" that Canadians were not enlisting rapidly because they were cowardly.

was just that the realization of the big struggle had not come home to many of them. Aitho no special appeal was made for recruits, several young men gave their names to the sergeants after the meeting. Other speakers were Col. John A. Cooper, Major Tidy, Capt. Coburn of the 198th and Hon. Col. Joseph Oliver. It was announced at the conclusion of the meeting that sixty recruits for the Buffs had been secured as a result of the two meetings.

ANOTHER DISASTROUS AVA-LANCHE

VENICE, via Paris, March 12, 7.25 p.m.—An avalanche has buried several houses in the Agordo district. The victims so far reported number 25.

IN SCHOOL. "Now, boys," said the school teacher, "I want you to bear in mind that the word 'stan' at the end of a word means 'the place of.' Thus we have Afghanistan—the place of the Afghans; also Hindustan—the place of the Hindus. Can anyone give me another example?" Nobody appeared very anxious to do so until little Johnny Snaggs said proudly: "Yes, sir, I can. Umbrellastan—the place for umbrellas." SIMPLE, BUT STRIKING. Maiden: What sort of hat did Genevieve Gotham wear? Man: A simple thing—just a gardenia in front and a gol-dard-ger behind.
