15 only, in brush brass, 3 lights, complete with fancy globes, wired and put up. Regular prices up to \$10. Clearing on Monday for **7.45**

WARM SPELL AFTER RAIN IS FINE FOR THE WEST

(Continued From Page 1.)
even further advanced, and contain far fewer weeds than in the districts where principles of this system have not been grasped. Many of the farmers in the more recently settled areas have to learn by bitter experience the necessity of frequent, early and careful summer-fallowing. "Indications" are that the Saskatchewan crop will be equal in quantity to that of last year, although there will be falling off in flux as the acreage sown to this crop has been greatly reduced.

Profits May Be Small.
Unless a considerable reduction be effected in costs of grain transportation from Saskatchewan to importing markets, however, prices which farmers of the province will receive for their wheat this year will be even more perilously close to cost of production than was the case last year.

"It is becoming more than ever necessary," Dunning declared, "for people who have economic welfare of western Canada at heart to insist on economies in transportation of grain to ultimate market, and particularly on that portion of the journey from Port William east."

Marquis wheat on the University of Saskatchewan farm is headed out, according to statement of Dean Rutherford of College of Agriculture of the university. He says it is five days earlier than last year.

Bank of Commerce Reports.
Latest reports to the Toronto office of the Canadian Bank of Commerce indicate favorable conditions. Lethbridge, Saskatchewan, reports a moderate soaking. Fine rains were of great benefit at that point. The crops had been suffering. The rain was followed by good growing weather. Prospects are fine. Rainy, Sask., has had storms. No damage was done. The rain is "rushing on the crop."

At Yorkton, Sask., rain was heavy. Crops are looking splendid. Drinkwater says the crops are maturing rapidly. At Laird, they are progressing well. North Battleford reports rain. The land is in excellent condition.

In Saskatchewan.
Much needed rain has come at Vonda, Sask. The crop is now reported as being in fine shape. There has been a slight frost at Prince Albert, which did a little damage to garden vegetables. Sufficient rain has fallen there to meet requirements. At Shaunavon, Sask., there has been a good supply of rain. Some frost followed. Elbow, Sask., reports plenty of moisture. The crops are growing well. Especially are prospects bright for flax, oats and barley. At Central Butte the weather has been cool. Although wheat is somewhat backward, the general condition is satisfactory. Outlook, Sask., says "cool, cloudy, growth rapid."

Prospects are excellent at Saskatoon. At Moosejaw crops are coming along "at great speed." The same does not apply to Swift Current. At that point the crops are not doing as well as they did a year ago. The fields are patchy and the farmers do not look for an immense yield. At Regina there is danger of rust. Actual rust is not reported.

Moisture in Alberta.
In Alberta a great majority of the area formerly very dry is now supplied with moisture. At Calgary and vicinity there was a 20-hour rain recent ly. As a consequence the prospects are greatly improved. In spite of that, however, irreparable damage has been done in some sections.

Lethbridge says "rain has come! Summer fallow is doing well. Oats and barley are in fine condition." Bowf reports too much rain. In the more southern direction, namely at Warner, the crop condition is improved, due to the recent rainfall.

All conditions appear to be fine at Taber. They have had a general rain, and although it was too late for some fields, the people are much encouraged. Low-lying crops near Vegreville will suffer through an over supply of moisture. Other districts are in good condition.

Exceedingly Bright.
Vulcan send out perhaps the brightest report. It says, "We have had a good rain. The crops could not be more favorable." Damage to "low-lying crops is reported from Edmonton. The rain was a splendid one there, and with warmer weather everything would be satisfactory. Heavy rains are reported as having saved the situation at Redw. Alta. The late sowing is coming fast. Prior to the recent precipitation the ground was very dry."

Manitoba Favorable.
There is still a scarcity of moisture in some portions of Manitoba. In the vicinity of Winnipeg the weather has been favorable. Neepawa, however, says showers would be welcome. No damage has been done as yet, but rain is wanted. At Brandon the weather has been favorable. Prospects are bright there.

Refreshing showers have fallen at Carman, but the ground needs a soaker. This would have a very beneficial effect and would bring along the growing grain at a much more rapid pace. For a week it has been wet at Grandview, Man. The crops are excellent. A recent cloud burst did a little damage in some sections. There is sufficient farm help. Forage la Prairie needs rain. Particularly is this desirable for barley. Wheat looks well, considering the dry weather.

A week ago the general tone of western conditions was one of a desire for rain. Now the condition has

HEIR TO BEAUMONT FORTUNE WILL WED

MONTREAL, July 4.—A London cable to The Daily Mail says: Baron de Beaumont, who is not yet out of her teens, has become engaged to the Hon. Bernard Fitzalan Howard, heir to Lord Howard of Glossop.

This announcement heralds a union between two of the oldest families in the country. Lady Beaumont has been a peeress in her own right since the age of 2, when the title, which fell into abeyance on the death of her father, was continued by Queen Victoria.

The Beaumonts are one of the oldest Roman Catholic families in England.

PROMISE OF BUMPER CROPS.

Special to The Sunday World.
WINNIPEG, Man., July 4.—Hon. A. R. McNab, minister of public works, Saskatchewan, registered at the Royal Alexandra Hotel last night on a pleasure trip to Winnipeg. The crops all over Saskatchewan are looking well and there is every promise of there being bumper crops, he said this morning. In the eastern section of the province there had been some drought, but rains in the past week have ensured good crops there also.

THIRTY BUSHELS IN ALBERTA.

CARMOSE, Alta., July 4.—A new variety of prelude wheat on Farley and Twomey's farm at Dried Meat Lake, near Carmose, is in head and looking good for thirty bushels to the acre. It should be ripe by August 10. Other grains are the best that old-timers have ever seen here at this time of the year.

GRAY HAIR

Dr. Tremain's Nature Hair Restorative will positively restore gray hair to natural color and keep it so. IT IS NOT A DYE, and will not injure the scalp. Satisfaction guaranteed or money refunded. Price, one dollar. On sale at Bond's Bros. Drug Store, 453 Yonge Street, or corner Madison and Dupont Street; also sent postpaid. Address Tremain Supply Co., Dept. W., Toronto, Ont.

CHOIR HAD PLEASANT SURPRISE FOR DEPARTING MEMBERS.

Mr. and Mrs. J. L. Young, who have resigned from the choir of the Sherbourne Street Methodist Church, enjoyed a pleasant surprise last Sunday evening at the service. During a farewell social hour their fellow members presented them with a handsome mahogany clock, with Westminster chimes. Regret was expressed on all sides at their departure, and felicitous speeches were made by Mr. Atkinson, choir leader, by Mr. Parsons of the musical committee, and by several members of the choir.

MISSION WEEK AT ST. CLARE'S.

The week's mission for the men of the Parish of St. Clare, St. Clair Avenue, conducted by the Redemptionist Fathers O'Reilly and McCandless from London, Ont., have attracted large attendances during the past week at the services, both morning and evening. A source of edification to the parish and gratification to the pastor, Rev. Edward McCabe, was the presence of the men at the 8 and 7 o'clock masses regularly every morning during the week.

At the evening service on Saturday the benediction of the blessed sacrament was preceded by a procession of the boys round the church in honor of the sacred hosts. The choir closes this Sunday evening with special devotions and ser-

mon by Rev. Father O'Reilly and benediction of the blessed sacrament.

HONOR SIR WILLIAM OSLER.
MONTREAL, July 4.—A London cable to The Daily Mail says: "Everybody is hoping that Sir William Osler will yield to the influential representations made to him to go to the house of commons as member for Oxford University, the seat made vacant by the death of Sir William Anson. If he decides to do so it is altogether likely that it will be an election by acclamation."

MOHENO'S RESIGNATION ACCEPTED.
MEXICO CITY, July 4.—President Huerta has accepted the resignation of Querido Moheno, minister of commerce and industry. Honor Moheno, in announcing that he had tendered his resignation, categorically denied that it had been demanded by the president because he awarded oil concessions to persons connected with a big American oil company. He said he was retiring because of his health.
