Chief Kerr stated to the Times this morning that he did not appoint an assistant to Edward Leonard, superintendent of the fire alarm, as appears from an interview with him published this morning and which will be found on another page of this issue. He says the appointment was authorized by the board of works but through an error did not appear in their report to the council, and thus no action was taken.

A PLEASANT AFFAIR
Mrs. H. V. Cooper the Guest of Honor at an Informal Tea Yesterday Afternoon.

A very pleasant gathering was held in the school house of St. John's (Stone) church yesterday afternoon, when the Girls' Association gave an informal tea in honor of Mrs. Hedley V. Cooper, the association's president, who is soon to leave the city on an extended tour. Other invited guests were Mrs. G. A. Kahring and Mrs. Hooper.

Tea was served at five o'clock, the table being laid in the vestry room of the school house. The table decorations were very pretty, pink being the prevailing color used, and fresh carnations the principal floral decoration.

After the dainty viands had been discussed Mrs. Kahring proposed the health of Mrs. Cooper, and the guest of honor made a pleasing response. The merry party then disbanded after expressing the hope that their president's health would be much benefited by her trip. During Mrs. Cooper's absence from the city Mrs. G. A. Kahring will act as chief executive of the association.

MORE ST. JOHN PEOPLE TELL OF EXPERIENCES
Mrs. Capt. Albert Lockett Writes to Friends Here From Berkeley Cal.

In a letter received a few days ago from Mrs. (Capt.) Albert Lockett, of Berkeley, Cal. she refers to the scenes in connection with the earthquake and fire in San Francisco as beyond description. She graphically pictures the hundreds of pitiable cases that came within her notice and says the scenes she witnessed were awful. Thousands of people, rich and poor alike, who had lost everything in the conflagration, were massed in the parks or churches and other public buildings, many of them in their night dresses. To make matters worse the days were unmonstrously warm and the nights very cold and many people who were cramped in the open suffered exceedingly. The home of Mrs. Lockett is situated in the northern part of Berkeley on high ground and it escaped injury though the family had a bad scare from the shaking they received. Nearly every house in Berkeley and Oakland made room for some of the refugees and in many cases they were given a place to sleep on straw spread on the floor.

The doctors found so many demands for their services that they were forced to refuse all calls except the most urgent; condemnation cases being given precedence over all others. During the three days following the disaster, 150 children were born, and owing to inadequate accommodations much suffering was caused. A maternity hospital was erected on the University grounds so that these cases could be properly attended to.

Mrs. Lockett said the family were sleeping in the parlor, where they were near the front door so that in case of another disturbance they could get out quickly. They had not taken their things off for three days and expected that conditions would return to normal in a day or two.
