the industrial situation in Cape Breton requiring his presence there.

The chairman then introduced Dr. Landry, who spoke in French. He devoted the greater part of his energy to criticizing the financial situation, alleging an increase in the public debt under the Foster-Veniot regime from \$16,500,000 to \$35,000,000. The doctor also criticized the Public Works Department, over which Premier Veniot presided until recently.

This was true, but there were not the big monied interests which Mr. Veniot meant, but the general public interest versus Peter J. Veniot. Unless something was done at once the taxpayer would be crushed out of the country, he declared. The money must come from the people and it was the fact that he was one of the people that had induced him to forsake his friends at Ottawa and endeavor to lighten the burden of the people.

LUMBER AND HYDRO.

Touching the lumber industry, Dr. Baxter said the revenue from this source was drying up because the cost of production had reached a point where the product of the Baltic and other foreign markets was underselling ours and when the lumber industry dropped off the result would be lower wages and higher taxes.

The speaker declared that although Mr. Veniot had a year ago stated that this project was so big he would consult the people before proceeding, today he was rushing into contracts to carry the work through. Grand Falls would be there after August 10 but not Veniot. He thought Mr. Veniot was anxious to get into scandal light, and was trying to do so by letting contracts to grease the wheels of election.

Practically all arrangements are completed for the annual picnic for the pleted for the annual picnic for the orphans held by C. F. Tilley, aided by an efficient committee, which will take place on the Barracks Square on Saturday, Aug. 1. A fine programme of races and amusements has been prepared and some valuable and useful prizes are being given.

All the races are being conducted for the orphans exclusively, with the exception of two open events, in which
