

BIG THINGS FOR ST. JOHN AHEAD; HERE ARE THE CHEERFUL FACTS

REFINERY AGREEMENT REACHED

Sugar Plant for Saint John At a Cost of \$1,250,000

START EARLY IN SPRING

D. Lorne McGibbon Declares It Will Be One of Finest in the World—Terms of Agreement by City and Company

The construction of one of the most modern sugar refineries in the world at a cost of \$1,250,000, with a capacity of at least 2,000 barrels a day, is now being planned for St. John. The negotiations for the establishment of a refinery here have been in progress for several years and although, for a time, the outlook was far from good, an agreement reached yesterday between the representatives of the Atlantic Sugar Refinery Company and the city commissioners removes all doubt regarding the further progress of the project.

The final draft of the agreement between the city and the company was ratified at a special meeting of the common council which was held yesterday afternoon and the representatives left by the Pacific express to return to Montreal.

The resolution, as given below, was introduced by Commissioner Schofield and after the agreement had been read, was adopted unanimously. The resolution provides that the council approves of the draft agreement with the Atlantic Sugar Refinery Company Limited, and hereby directs that the same be executed by the mayor under the common seal of the city.

AND HIS STOMACH IS ALL RIGHT Thousands with Poor Teeth Have Good Digestion by Using Stuart's Dyspepsia Tablets After Meals.

Whether or not we eat too much is a matter for individual judgment. Benjamin Franklin tried the experiment of living on a handful of rye. But he discovered that the quantity of what he ate was not the quantity thereof, but one of digestion and assimilation.

It is provided that in the event of this agreement becoming void by breach of the city or the company, the said city and company shall be bound to pay to the other party the sum of \$100,000 as each \$100,000 is shown to have been expended in construction of the refinery buildings, and equipment up to the sum of \$100,000, the remainder to be held by the city until the final completion of the refinery.

Many people have poor teeth, weak gums, sore teeth and other bothersome troubles that prevent a vigorous mastication of food and instead of eating soft, mushy food that falls on the appetite they go in for those savory dishes, the very odor of which starts the saliva and makes the stomach fairly reel with anticipation.

LARGEST DOCK IN WORLD; BIG STEEL WORKS

Here's a Greater Saint John Statement by Mr. Stewart

MORE INDUSTRIES TO FOLLOW

Imperial Dry Dock Company Charter to Be Acquired by Norton Griffiths Co. and Then For Large Extensions

An important meeting of the Imperial Dry Dock Company was held yesterday afternoon. W. H. Thorne was elected president, Thomas McAvity, vice-president, and P. R. Warren managing director. Colonel H. H. McLean, James Manchester, W. Burton Stewart and J. R. Stone were elected to the board. S. A. Corbett was appointed secretary. A vote of sympathy was also passed for the family of George Robertson who was killed.

The Imperial Dry Dock Company has under consideration large extensions of its original programme which consisted only of the construction of a dry dock. Application will probably be made to the federal government for a contract to build a dock of 110 feet in length, which is believed will be the largest dock in the world.

BRITAIN'S POSITION IN THE BALKAN SITUATION London, Nov. 5.—The British attitude in the Balkan situation was explained today in the house of commons by Sir Edward Grey, the foreign secretary, who was loudly cheered when in reply to a question he said: "No one in view of the result of the war to date will be disposed to dispute the rights of the Balkan States to formulate the terms on which they are prepared to conclude peace."

WILSON SWEEPS THE COUNTRY; A GREAT VICTORY IS WON BY THE DEMOCRATS

Boston, Mass., Nov. 5.—Woodrow Wilson, governor of New Jersey, and former president of Princeton University, was elected president of the United States to day by an overwhelming vote.

WILSON ADDRESSING MEETING IN MADISON SQUARE GARDEN

USING CITY SCHOOLS IN SOCIAL WORK

John Bradford, Amherst Community Worker, Tells of the Benefits

IS A HELP TO ALL

Addresses Trustees and School Principals on Subject of Importance—What Has Been Done Elsewhere

In an interesting address John Bradford, community worker of Amherst, strengthened the appeal of the Playgrounds Association for the use of the public school buildings in the evening for social purposes. He explained very forcibly to the members of the school board and principals of the schools yesterday afternoon, the real good that had been accomplished in other cities by making the school buildings established social centres after the school hours.

Other cities in Canada are doing their best to attract manufacturers by offers of free sites, exemption from taxation, and large bonuses; many firms in Great Britain, the United States and Canada, are ready to take advantage of such offers. St. John is singularly deficient in suitable sites as possible should be reclaimed when it can be done at a low cost. It would certainly seem to be a fatal mistake to allow the spaces from the present dredging contracts to be dumped at sea.

The nominations were as follows: For president, M. Robinson, H. C. Schofield and W. Shivers Fisher.

THE EVERY DAY CLUE

John Bradford and Mr. Milligan, secretary of the Y. M. C. A., attended the meeting of the Every Day Club last evening and gave inspiring talks upon what a men's club which was to help the other fellow could do in St. John.

Other Speakers

Miss Peters also spoke encouragingly about the evening socials and gave an interesting sketch of her visit to the evening schools of Detroit, where all branches of household and technical education were taught. She said that she hoped Mr. Bradford's remarks would bear fruit and that the school board would grant at least one building to start some activity. She remarked that the Women's Canadian Club last year conducted a course of lectures in Central School, which was an attempt at the social education.
