English Tories Trying a New Plan

AGAINST PAY FOR M. P.'S

Effort to Embarrass Government on Ground That Those Paid Illegally Hold Places—Unionists Aided by Labor Party into Midlothian Seat

(Canadian Press) New York, Sept. 11.—A cable to the Tribune from London says: An association is being formed by members of parliament opposed to receiving pay. The organization, which is to be called the anti-pay parliament league, and actions at law have been begun against several members for sitting and voting after accepting salaries of £400 a year, the ground being taken that a member of parliament who accepts pay thereby holds an office of profit under the crown, entailing, by law, the vacation of his seat and the necessity of presenting himself for reelection in the acknowledged capacity of an office holder. The success of this contention in the law courts would have a disastrous effect on laws passed since August 14, 1911, the date at which the payment of members began to be effective. As the payment of members has not been made pursuant to statute, but in virtue of a general resolution of the House of Commons to that effect, Lloyd George gave practical effectiveness to the simple expedient of making it one of the provisions of his budget last year, the position of the government in the event of a successful challenge to the law is held to be somewhat delicate. London, Sept. 11.—Major J. A. Hope, Unionist, today was elected member of parliament for Midlothian, Edinburghshire, in succession to the Master of Elibank, who recently was elevated to the peerage. Hope's majority over his Liberal opponent, A. Shaw, was thirty-two. The poll resulted as follows: Major Hope, 5,089. Provoost Brown, 4,857. The loss of the Midlothian seat to the government was due to the intervention of the labor party, which recently announced its intention to nominate a candidate in every constituency where there was a large number of workmen, and any effect it might have on the coalition majority in the House of Commons. In the last general election when no labor candidate contested the Midlothian seat, the Master of Elibank won over Major Hope with a majority of 5,107.

KAISER IS PLEASED WITH SWISS ARMY

Says it Will Save Him Six Army Corps For Duty Elsewhere Than Border

Paris, Sept. 11.—Rene Ruz, military expert of the Temps, who was in close contact with the German Emperor during the recent manoeuvres of the Swiss army, quotes the emperor as summing up his satisfaction with the work of the troops in a conversation with the president in these words: "Your army saves me six army corps."

It is known that the emperor's main object in attending the manoeuvres was to convince himself of the ability of the Swiss army to make the neutrality of the country respected in case of war and his remark is interpreted to mean that by the Swiss forming a screen to prevent the French from invading Germany through Switzerland, the Germans could release six army corps in South Germany for service in Alsace-Lorraine or along the Belgian frontier.

ENGLAND, FRANCE AND RUSSIA IN ALLIANCE

London Paper Sees Naval Agreement By the Three in Recent Development

London, Sept. 11.—The Daily Graphic suggests that the decision of France to concentrate her fleet in the Mediterranean, taken together with England's virtual desertion of the Mediterranean in favor of the North Sea, is the corollary of the recent Russo-French naval agreement and indicates a practical understanding for a day the duke and duchess visited the hot springs on Sulphur Mountain and afterwards the cave and basin where the excavation is now being made by the dominion government for a large building to contain swimming pools and baths. Princess Patricia went for a long horseback ride. Last night the town was illuminated and made a pretty spectacle.

PLANS FOR THE C. P. R. CRUISER LINERS OUT

Commerce in Times of Peace; Fighting Ships in War Days

COST \$3,000,000 EACH

Will Have Heavier Armament Than Some of Present Warships—Capable of Five Days Trip From Montreal to Liverpool

(Canadian Press) Montreal, Sept. 11.—Plans of the new cruiser liner steamship system prepared for the C. P. R. for a type of vessel which in time of war could be rapidly changed to a fast and powerful cruiser, were made public today. With a length of 728 feet, draught of thirty feet and a guaranteed speed of twenty-four knots the steamers would be the largest and fastest vessels plying between Canada and Europe. Their most remarkable feature is that they are according to the plans of Edward Bath, an eminent British naval architect, constructed to carry larger and heavier armament than many warships in the present active fleet of Great Britain. The war armament of the steamers consists of four six inch guns in two turrets, one fore and one aft, eight 4 1/2 inch guns in turrets on each quarter, and sixteen quick firing guns mounted at various points all over the vessel. These would aggregate a battery of twenty-eight of the most modern weapons, a formidable array of artillery. The war armament of the steamers are divided into sectional water tight compartments so as to be practically unshakable, while the coal bunkers are so arranged as to protect the vital working machinery and boilers, being carried up above the waterline to the main deck. It is suggested that six of the vessels should be built at a cost of \$3,000,000 each and be inaugurated between Liverpool and Montreal. The vessels, like the Mauretania and the Teutonic, are to be constructed under the supervision of the British admiralty and the dominion government. In time of war, the design, say, the vessels would maintain uninterrupted trade and commerce between Canada and England while in time of peace the cruiser-liners might be used as fast mail boats. They could make the trip from Montreal to Liverpool in five days while mail from Vancouver would be delivered in England in eleven days. The cost of each of the vessels with armaments would approximate \$3,000,000.

BRITAIN'S COURSE IN PANAMA CANAL MATTER

Times Says Protest on Tolls is Certainly Meant Seriously

London, Sept. 11.—The Times in an editorial this morning declares that the idea advanced by some American papers that the British Panama protest is not meant seriously is erroneous. The Times adds: "Great Britain has no intention of allowing her treaty rights to go by default, but will assert them by all the diplomatic means at her disposal, and if these fail, she will demand arbitration at The Hague."

MAN KILLED LAST NIGHT JOHN QUIGLEY

Home in St. Patrick Street, Had Been Working in Jamaica Plain

The remains of the young man who was killed on the C. P. R. line at Aurora Sidings last night have been identified. The victim is John Quigley, formerly a resident of St. Patrick street. He had been working in Jamaica Plain, Mass., for some time and had been home on a visit. He was twenty-five years of age and is survived by his mother. There is no explanation, so far as of what he was doing on the railway at the time of the accident but the trainmen understood him to say that he was on his way to Fredericton Junction.

ROYAL PARTY AT BANFF

Banff, Alta., Sept. 11.—Their Royal Highnesses are greatly enjoying their stay here. The weather is perfect and yesterday the duke and duchess visited the hot springs on Sulphur Mountain and afterwards the cave and basin where the excavation is now being made by the dominion government for a large building to contain swimming pools and baths. Princess Patricia went for a long horseback ride. Last night the town was illuminated and made a pretty spectacle.

Quebec Election Case

Quebec, Sept. 11.—The Lethbridge protest election case is to proceed to day. At the last federal election Mr. Fortier, the ex-liberal member, was re-elected but his election was contested and he filed preliminary objections which were subsequently dismissed with costs. Mr. Fortier appealed to the superior court but in the meantime the plaintiff moved to have a day fixed for proof and hearing.

FORMER SYDNEY GIRL IS SHOT IN BOSTON TRAGEDY

Slayer Turns Gun on Self and also Dies—First Night From Home, Says Mother of Young Melrose Man

(Special to Times) Boston, Mass., Sept. 11.—Frank E. Ogilvie, ice wagon driver, of Melrose, aged twenty-one, shot and killed Mabel Slayton, (or Clayton) aged nineteen, formerly of North Sydney, C. B., in the Hotel Frobie, a cheap west end lodging house, early today and then shot himself. Ogilvie died six hours later. The police say the girl has been living in various west end lodging houses for some time and that she has a sister, Mrs. Ames E. Shale, of Commercial street, North Sydney. Ogilvie was the sole support of his widowed mother. According to his mother it was the first night her boy ever stayed away from home. He was her only child and was engaged to marry a Melrose girl. The circumstances connected with the shooting are shrouded in mystery as is the cause for it. When the police broke down the door of the room they found the young woman lying on the floor at the foot of the bed in a pool of blood. She had been shot in the head and was unconscious. Ogilvie was unresponsive on the bed and a revolver was beside him. Near the revolver lay a sheet of music with the significant title "Let's Forget We Ever Met." One line of the song was underlined. It read "When we say good by." Ogilvie and Miss Slayton walked into the Frobie House about two a. m. and asked for a room. They registered "Y. Matson and wife." According to the police both had been drinking. He declared that the woman had been at the hotel on previous occasions. FOUND ON PARK BENCH; WAS BLINDED BY ACID

Girl Arrested in Brooklyn in Case Which Resulted in Death

(Canadian Press) New York, Sept. 11.—Stevens in a park in Brooklyn, late last night, brought a crowd of passersby hurrying to a secluded bench, where they found a man with his eyes closed and a woman who said that a woman had thrown acid in his face. The police arrested a girl, who gave her name as Miss Elizabeth, of the firm of the park bench, but the man was so badly burned about the eyes, that he could not see her. Soon he became unconscious and died before an ambulance arrived. Under pressure of the police, the girl declared that she knew the man as Samuel Kaplan, and that he had taken all her money under false promises of marriage. She declared that he was one of a group of swindlers who had been in Chicago. Although she insisted that he had taken the money from her, she was not charged with anything. She was looked up on a homicide charge.

The motormen and conductors of the St. John Railway Company, it is said today, have applied for increases in their wages. GIBSON MAY BE ARRESTED

Further Step in Case of Lawyer After Autopsy on Body of Woman

(Canadian Press) New York, Sept. 11.—A warrant for the arrest of Burton W. Gibson, a lawyer, who was with Mrs. Rosa Sabo when she met her death while rowing on Greenwood Lake, on July 16, will be asked for today by the authorities of Orange County, N. Y. The autopsy performed on the ex-husband of the Sabo woman, showed that the wind pipe was wrenched out of place and that the superficial appearance of the internal organs was such as to cause the jury to believe that the Sabo woman died of a heart attack. Deputy Sheriff Degraw was expected to return here from Middletown, N. Y., some time today with the warrant for Gibson's arrest. The warrant is expected to include the death of the Sabo woman. Lawyer Gibson said he would return to this city from his country home today to ascertain all the facts that led up to the death of the Sabo woman. COALITION GOVERNMENT IN ENGLAND IS VIEW OF LABOR M. P. NOW HERE

Quebec, Ont., Sept. 11.—E. R. Hardie in an interview here today expressed the opinion that a coalition government composed of Liberals and Unionists was one of the possibilities of the near future in the United Kingdom. At present, he said, David Lloyd George, Premier of Great Britain, is in the cabinet, and that he must soon either wreck the cabinet or resign himself. The Unionists were certain of a majority over the Liberals alone in the next election, but not a working majority over the Liberals, Laborites and Nationalists. Mr. Hardie believes that a coalition between the advanced Tories and the moderate Liberals would be formed to carry on the government, but would not last long, headed by Lloyd George.

BRUSHED ASIDE BY ENGINE AS SLEPT ON TRACK

Tramp Has Remarkable Escape From Death on North Shore

(Special to Times) Chatham, N. B., Sept. 11.—Yesterday morning a tramp named John Gallech, an Austrian, had the narrow escape from death that he will ever have. As a special way freight from Moncton to Campbellton was coming along about three miles east of Barraby River, the driver noticed an object beside the track. It proved to be Gallech. His head rested on a sleeper. The engine was unable to stop in time and gave the man up as dead. The cylinder of the engine as it passed by struck him, however, and rolled him off the track. The injured man was brought to Chatham Junction where Divisional Superintendent Brown had him removed to the Hotel Diep where Doctor Marven treated him. Unless internal complications develop the man is not seriously off. There are no bones broken but the head and arms are bruised.

Lay With Head on Sleeper—Frank Cook of Richibucto Road Has Disappeared and Grappling in River is Going On

(Canadian Press) Chatham, N. B., Sept. 11.—A London cable this morning says: The inclemency of the weather that England is experiencing, is shown by the fact that yesterday's London temperature at noon exactly corresponded with that of last Christmas eve. Wintry conditions prevail throughout England, with bitter northerly winds and unusually low temperatures. Snow and sleet have fallen in North Yorkshire. A woman, who spent the night in the open air in Surrey, died from exposure. The weather affected the Doncaster race meeting, where most of the women wore furs. The army manoeuvres in Norfolk are being carried out under miserable conditions, the troops marching through mire during the days and sleeping in sodden beds at night. The inclemency of the weather is unusually severe at a number of places. At St. Moritz, Switzerland, the temperature fell to freezing point yesterday morning. Heavy rain has been falling incessantly in central and western Germany. In the mountain districts of Bavaria remarkably cold weather prevails and so much snow has fallen that winter sports are being engaged in.

From St. John they will go to Prince Edward Island and thence to Nova Scotia. Mr. McLean said that in Charlotte County the fishermen were unanimous in seeking an extension of the open season for lobsters while in Prince Edward Island the packers are of the opinion that a shorter season would be better for the fishery in the long run.

RESIGNS AS SECRETARY

The resignation of W. E. And from the office of secretary was received by the directors of the Ferrhill Cens Company at a meeting held yesterday afternoon. Owing to the change in Anderson's plans they were forced to accept the resignation, but did so with a regret.
