the committee after session decided to recom-sectory and to the sector the chief from \$2.100 to y Council: Chier, 11350 to \$2. 000; first assistant, \$1.950 to \$2. econd assistant, \$1,700 to \$2. 256; second amistant, \$1,700 to \$2.-600; master mechanic, electrician and captaing \$1,535 to \$1,800; Heutenants, \$1,565 to \$1,725; first class firemen, \$1,467 to \$1,517; sec-ond class, \$1,235 to \$1,512; third class, \$1,249 to \$1,407. The new increase will involve about \$20,000 g year, and will place the firemen on the same wage footing as police-war."

men." **NO LONGER LIBERALS IF THEY** JOIN L. P. "The Independent Labor party is absolutely independent of any poli-tical organization, and has no in-tention of joining any," said Mr. W. T. McDoweil, president of the Otta-wa Independent Labor party, in re-gard to the suggestion made by Mr. Alex, R. Macdonald at the meeting on Monday night in connection with the formation of a Liberal club should co-alexee with the Independent Labor party.

Harry Bourne, correspondin etary, Local No. 26, Iron Ma arty. There is a working coalition be-ween the Independent Labor party and the United Farmers of Ontario, ut, according to Mr. McDowell, bils the J. L. P. would be glad to Union, was elected president of the Hamilton Trades and Labor Counc-last Friday night by acclamatio The election is a popular one. Del gate Bourne being one of the able trades unionists in the Ambilio City. Incidentally, he is the pa-president of the Independent Lab President Contra and the United Faint to Mr. McDowell, while the I. L. P. would be glad to have any Liberals join, they would have to sever their connection with any other political party.

ng served two terms.

# THE I. L. P. DRIVE.

Are you doing your little bit in boosting the Independent Tabop Party? If not, why not? A membership drive has been started and if it is to be a suc-cess every member must put his shoulder to the wheel and secure members. If every member would undertake to get a member the membership would be augmented by some 700 in a week. The Canadian Tabop Press suggests that this be the motto of the Ottawa Franch of the Independent Labor Party of Ontario-"Every Member Get a Member." Do it today.

 Member Get a Member." Determined to "stick" until the foundary.

A recommendation was brought in by the executive, opposing the grant correct.

# Here's A Chance For You To Be A Partner In A Real Fuel Factoy

HIS is only one of a chain of OAKOAL factories that will extend from Sarnia and Windsor to Quebec in cities having populations of 20,000 and over. In these cities there will be an output of some 4,500 tons daily, thereby effecting a balance of trade in favor of Canada and Canadians of some eight million dollars a year.

Out of this and the difference between the price of coal and OAKOAL the users of OAKOAL will save some four million dollars annually.

Shareholders in OAKOAL will participate in profits of nearly a million and a quarter a year, when this output has been attained.

This Toronto Plant is now being erected and will turn out some 200 tons of fuel daily (two shifts). The machinery has been bought and fully paid for, thus benefiting shareholdersto the extent of a substantial cash discount. OAKOAL Engineers and workmen are now loading this specially designed briquetting machinery-British made-(from the famous-Yeadon Company). This will reach Toronto early in March, at which time the contractors will have the main building ready to receive it.

OAKOAL is made from ground, dried garbage, coal dust and chemicals. These pulverized materials pour out of the big press at the rate of 10 tons per hour, under a pressure of 5,000 pounds per square inch, in briquettes of egg shape and size—THE BEST SUBSTITUTE FOR ANTHRACITE COAL THAT HAS EVER BEEN PRODUCED, this fact being indisputable as tests made by hundreds of citizens, Government and University Laboratories, Federal Fuel Testing Station at Ottawa, and fuel experts in New York, Chicago and Washington prove

You have seen or heard of investments that have multiplied their original amounts by over a thousand fold, hundreds have multiplied by an hundred fold. Here are some proofs. Since OAKOAL is an essential product and the best coal substitute known, there is no doubt but that IT WILL BEAT the best of industrials.

## \$100 invested in the original Gillette Safety Razor

worth \$100 invested in National Cash Register Stock is \$42,870 worth ::

\$100 invested in Welsbach Mantles is worth \$50,000 (Taken from Poor's and Moody's Manuals.

The conservative, careful management, with active Board consultation, and expert legal counsel, insures shareholders' interests being amply protected-hence you are advised to secure a block of this stock.

Millionaires in Toronto are engaged in the briquetting of coal dust. Their stock was not offered to and cannot be purchased by the public. Millionaires cannot control the OAKOAL industry. In the selling of its stock the Company limited the allotments to \$1,000-making this a shareholders' company-a shareholders' organization and under its new charter and reorganization, necessitated by the purchase of Quebec territory recently, the shares are now offering at \$5.00-and you may purchase any quantity from ten to two hundred shares. We suggest that you lose no time getting further information concerning this great industrial.

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text>

Ali these buildings will be equipped with the most modern type of machinery, so to eliminate every possible cost, that the public may purchase at the minimum price consistent with a fair profit.

The capital that is building and equipping this Toronto plant has been subscribed by some 500 citizens, including bank managers, wholesale, professional and scientific men, manufacturers, as well as farmers, mechanics and all classes of people generally.

This capital has been subscribed since last June, and as this was done without any tangible assets other than the Company's process and patents, it is reasonably certain that with this big, valuable plant, and the confidence and co-operation of Toronto's best citizens, the stock now offering for the erection of plants in Montreal, Hamilton and Ottawa this year will be quickly subscribed.

In the manufacture of OAKOAL the Company not only produces the best fuel, which will always be sold below others, but in that production CONSERVES wastes, and in that conservation SOLVES the disposal problem of these wastes, thus we have an industry of a distinctly ESSENTIAL NATURE and ONE THAT WILL GROW WITH THE GROWTH OF CITIES!

Our faith in OAKOAL is seen from the fact that after having fully investigated the Company, its methods, its process, progress and product and seeing the list of shareholders and the character and calibre of the men associated with it, we purchased a large block of the stock to sell, and now offer it, subject to the terms of the Company's prospectus, which with other literature will be sent you upon request.

We advise you to buy as much of this stock as you can secure. H. J. BIRKETT & CO. H J. BIRKETT & CO. 502 C. P. R. Building. Toronto, Ont. Govt. Municipal & Corporation Please send me full particulars of 'OAKOAL.' Securities C. P. R. Bldg., Toronto, Ont. C.L.P. Feb. 13.
