DEARTH OF BANK CLERKS IN CANADA

Institutions all over the Dominion are Feeling the Scarcity. Scotch and English Clerks are Being Tried as Means of Supplying Deficiency.

(Montreal Star.) The dearth of clerks in the banking houses, not only in the city of Montreal, but in the offices of those institutions all over Canada, has been the subject of much discussion and much thought on the part of the managers of these concerns of late. Bank managers would not willingly deplore the fact, that Canada is the most poorly equipped country in the world for young men eligible for the positions of bank clerks. It is not every young man who is fit to make application for such positions as a clerk, and in addition to being able to figure and do the ordinary work of a clerk, they are often put into the positions of the greatest trust, positions involving vast sums of money, the fulfillment of which the management of the bank would not be willing to hand over to a man with a recommendation that he was merely a good clerk. Other recommendations are necessary and to qualify as an efficient bank clerk "young Canada" is far from providing very satisfactory material.

SCOTCH CLERKS IMPORTED. On account of being unable to get Canadians for the Canadian banks, at all times these institutions have been resorting to clerks from other countries to supply the deficiency. The Bank of Commerce brought over seventy-five Scotch lads, just out of school, and throughout the country. The importation of the Scotch boys, an example set by the Hudson's Bay Company, who in the old days used to employ none but Scotchmen and Orkney Islanders as clerks, has so far proved very satisfactory. The Bank of Montreal has taken on several Englishmen lately, but although little is said of it, this institution is still very badly off for junior clerks. The taking over of the Ontario Bank by the Bank of Montreal, will eventually throw a large number of trustworthy employees on the market, most of whom the Bank of Montreal has been very sharp so far and in some instances has taken over the Bank of Montreal by immediately hiring the local managers of the Ontario Bank's branches. A smaller number of clerks of course has a significant local influence, most people preferring to follow a man who has been in the country for some time to go over to a new institution. In the Merchant Bank a scarcity of help is felt also, although salaries offered today are much better than they were, bonuses being given also every year, the supply does not equal the demand.

In fact, every bank in Canada, may be said to want clerks. A few years ago a man to get into a bank had to commence at a comparatively early age, and the banks taking any one over the age of eighteen years now appear to be willing to accept a man at almost any age, as long as he comes up to the other requirements necessary. The reason for all this scarcity, especially in Canada, is obvious. The increase in the number of bank branches, the prosperity of the banks, the fact that the Government is so in for more lucrative employment, and the small salaries paid are some of the more prominent ones. All the banks say that they are only too willing to give the preference to Canadian clerks, but it is quite impossible to get a supply to meet the demands from this source alone.

TO EXTEND ROSS RIFLE FACTORY.

QUEBEC, Oct. 30.—An attempt was made at Friday night's meeting of the City Council to have the body petition the Federal Government to give away another portion of the Cove Fields, the historic battleground of the 1837-38 rebellion, for the extension of the rifle factory. It was explained that before giving the land the request made by the council representing the citizens of Quebec, as some objections have been made by a member of the council to the original grant to Sir Charles Ross. Several members of the council thought this was a good and sufficient reason why the council should not take the action asked of it, and the matter was consequently postponed.

MAY REVOLUTIONIZE MOTIVE POWER.

Grand Trunk and Canadian Pacific Railway officials have been asked to have tests made of an entirely new type of engine which is the invention of two Chicago men. The new engine bids fair completely to revolutionize the motive power of boats, automobiles, trucks and railroads. Most severe tests have been given to it, and on each occasion it is said it has more than exceeded the expectations of the builders. The engine is operated by steam, but in construction resembles the gasoline motor, with the exception that cylinders are set at an angle of 90 degrees. This makes it utterly impossible to "dead centre."

MAKING APPEAL TO THE PUBLIC

Historical Soc. Still Working for Champlain Monument

Interesting Relic of the Days of French Occupation of the St. John River

At the meeting of the Historical Society last evening a most interesting paper on the "Loyalist Regimental Revolt" was read by Rev. Dr. W. O. Raymond; an interesting relic of the French period of occupation was presented to the society, and the matter of the Champlain monument was discussed.

Col. Armstrong presided over the meeting, and a large number of members of the society were present. Col. Armstrong submitted a report for reference in the placing of the canon in Queen square. Several bills were ordered in going about the work, and the proposed Champlain statue, stating the proceedings of the paper and the fact that the Dominion government have promised a grant of \$5,000 towards the erection of the statue, and the design of the monument, which is to be erected on the site of the old French town of Meductie, was presented to the society. The society is willing to see every effort in furthering this scheme, but does not assume the whole responsibility of it. They feel that it is for the good of the city, and if they desire to have it erected, and proper methods are employed in going about the work, the statue will become a reality. If, however, the citizens do not desire the statue, the matter will be dropped.

Rev. W. O. Raymond's paper on the "Loyalist Regimental Revolt" was read by Rev. Dr. W. O. Raymond. The paper was a most interesting one, and was well received by the society. The paper dealt with the revolt of the Loyalist Regiment in 1777, and the part played by the St. John River in the revolt. The paper was read in French, and was well received by the society.

A unique relic of the old French period of occupation of the St. John River was presented, in the shape of a stone tablet, discovered on the site of the old French town of Meductie, about eight miles below Woodstock. The tablet was discovered near the site of the old French town of Meductie, and was found by a man named Danie Lou. The tablet is made of stone, and is about eight inches long and four inches wide. It is inscribed with Latin text, and is believed to be a relic of the days of French occupation of the St. John River.

LOCAL NEWS

Runnagge sale at 169 Brussels street, Tuesday and Friday, Nov. 1st and 2nd, 10-4.

Two pounds of Mixed nuts for 25c, blue grapes, 25c a basket, apples from \$1.00 per barrel up, 10c chocolates, only 25c a pound, Keesee's taffees, peanut brittle, at BARKER'S prices, 100 Princess street and 111 Brussels St.

No. 3 Company, 3rd Rgt. C. A., will meet at drill shed on Fort Howe on Thursday evening at eight o'clock to be paid off. All clothing, and equipment, including rifles, haversacks and belts must be returned.

Matthew Galbraith's house on the road leading to the Pleasant Point ferry was totally destroyed by fire this morning, about four o'clock. The dwelling had been occupied by Jas. Ogden, who moved out yesterday.

It is natural that you should need glasses for reading, sewing and other close work, between the age of 40 and 45 years. A perfect eye should be used to relieve them from strain when being used for near work. See D. Boyaner, the optician, 38 Dock St.

Samuel Girvan, late teller of the Bank of New Brunswick, has been appointed cashier of the St. John Street Railway Co., and will take up his new duties on November 1st. The old cashier, Mr. J. C. Christie, was yesterday notified that he was to be relieved of his duties on the 1st of the month.

Word has been received in the city of the death at Winnipeg, of John G. Cochrane, an estimable young man who left St. John a few years ago to try his fortune in the West. He was a son of John Cochrane of H. M. customs here. He is also survived by one sister, Mrs. J. F. Substant, of Wright street. He leaves a widow and one child. The remains will be interred at Neepawa, Manitoba.

The Lilliputians delighted another large and fashionable audience at the York last evening. Teddie McNamara as usual kept all in merriment. Daphne, as the Duchess was for yesterday, was a perfect success. The excellent. This winsome little lady has many warm admirers in St. John. The whole company was in perfect form, and their presentation of In Town was all that could be desired. Tonight the company will sing a new play, which they made a decided hit in this place when they presented it here before.

The position of signal master at the Curlew House, made vacant by the death of the late Jeremiah Drake and which has been filled up to the present time by his son, Thomas Drake, has been given to L. R. Morton of this city. Mr. Morton has been a life-long Liberal in politics, and is a son-in-law of the late J. Christie, who for years kept a shoe finding establishment on Germain street. After the death of Mr. Christie, Mr. Morton continued the business. There was a score of applicants for the position.

A meeting of the appeals committee has been called for tomorrow afternoon and is likely to be the most lively session which the committee has had for years. It will be remembered that D. G. Lingley, of the chamberlain's office, was appointed to take charge of the collection of the tax arrears. Mr. Lingley has systematized the work, and his results promise to be noticeable. At least \$2,000 of taxes of former years have been collected while he has served, and it is probable that there will probably be a large attendance at tomorrow's meeting.

Here is the St. Andrew's Rollaway programme for tonight. In honor of Halloween, after the last band two races, one mile each, the first between Hamlin and Campbell and the second between Dan and Dalton. For bands five and seven the ladies can choose their own partners, and it will be their own fault if they are forced to state alone, as no gentleman will refuse. After the races the floor will be in splendid condition and those who want to spend can do so for fifteen minutes. As usual there is a band.

Joseph Kenney of Bathurst, while working in the lumber woods in Maine, met with a very painful accident last Friday. Kenney was driving a team of horses when a tree fell across his right leg, breaking it below the knee. A doctor was not procured until Monday, and in the interval the unfortunate man suffered intensely. Yesterday Kenney started for his home in Bathurst, and arrived in this city last evening on the Boston train. The injured man now has to wash out their own hands, and those who want to spend can do so for fifteen minutes. As usual there is a band.

The milk dealers in order to carry out the new regulations of the Board of Health, intended erecting a building in which all their milk cans could be washed, each milk dealer to bear his fair share of the expenses. This scheme fell through, however, and the milkmen now have to wash out their cans wherever they find it most convenient. About eight dealers have not yet taken out licenses, and unless they do so shortly the board intends prosecuting. The milk dealers met yesterday morning and transacted routine business. It was decided that the present price of milk was satisfactory to the dealers.

ST. JOHN INVESTOR MAKES LARGE PROFIT

Northwestern Land and Investment Co., Lands in Good Demand

A leading grocer of this city has been successful in disposing to a party in Saskatoon a building between 5th and 6th streets, Saskatoon, East Side, originally purchased from the Northwestern Land and Investment Company, city, at a figure equal to five hundred and twenty-five per cent. profit on his investment.

Intending investors can secure the name and address of the investor by applying at the company's office.

RECENT DEATHS.

JOHN McSHANE. Word was received on Saturday by relatives of the death at Minneapolis, Minn., of John McShane, a former resident of Rolling Dam, who has of late years made his home with his sons in the west. Deceased was 82 years of age. His remains were brought home for burial in the cemetery at Rolling Dam.

MISS IDA MacDONALD. The death took place yesterday of Miss Ida MacDonald, second daughter of Mr. and Mrs. Robert MacDonald, High street. The deceased young lady was in the nineteenth year of her age, and will be mourned by many friends.

GURNEY LeBARON. Gurney LeBaron, eldest son of Clarence H. and Alma S. Chasler, died at his residence, Bridge street, on Saturday afternoon, Rev. G. B. McLatchy conducting the services.

MRS. ELIZABETH KENN
