Swindler Who Posed as an Austrian Arch- Professor Wrong of Toronto Addresse duke Before the Courts-His

Frauds Daring.

PARIS, Dec. 31.—An extraordinary methods for formulating a theory of wages that would hold good under all conditions was deplored by Professor

story was related in the Tenth Criminal Court yesterday, when Otmar Guhatta, an Austrian cook, and his wife, an American, who is also known as Sylvia Thomson, were placed on trial for having defrauded Paris tradesmen or a large scale.

The Gubattas had taken a large house in the Avenue Kieber, at a rental of \$15,000 a year, and passed themselves off as members of the Austrian imperial family.

Gubatta began life as a cook's boy in a Mayence hotel. Then he went to Vienna, and he eloped from Vienna to New York with his mother's cook when only 17.

He drifted to California and was imprisoned for two months for swindling peeple in the name of "Count Herrick." After his release he became "Count Runach," and went to San Francisco, where he met Sylvia Thomson, an actress.

A year ago the couple came to Paris, bired a magnificent motor car, for which they never paid, and when the police became inquisitive the couple fied to America.

They next appeared at Lusanne last 'Appil, and for six months they lived sumptuously 2* other people's expense. In October "key motored to Paris, hired to America, an Italian noblewoman whom they had met during their travels.

The duchess was induced to introduce Gubatta to M. Fontana, a prom-

They next appeared at Lusanne last April, and for six months they lived Sumptuously at other people's expense. In October they motored to Paris, hired best suite of rooms at the Hotel Continental and looked up the Duchess d'Andrea, an Italian noblewoman whom they had met during their travels.

The duchess was induced to introduce Gubatta to M. Fontana, a prominent jeweller, who called on Mme. Gubatta at the Hctel Continental. She showed him a photograph of the Archduchess Marie Josepha of Austria in court dress, told him it was her mother-in-law and on the strength of this relationship secured \$40,000 worth of jewels as a birthday present for her husband, the "Archduke Charles Henry."

After selling these jewels to other tradesmen, the couple moved into the house in the Avenue Kieber, which they rented from M. Hendrikiff, one of the chamberlains of the czar.

From this address they ordered \$40,-

More-Proves Existence

BOSTON, Jan. 3.—Life on Mars is the logical and almost inevitable de-duction from the latest observations "Subsequent examinations of the records showed that Mr. Slipper had drawn one of them the day before, but not a trace of them was to be found in the drawings of August, at Flagstaff Hill as related this after July, June or May. That they were indeed new was then conclusively established by examinations of the records of the previous years."

Uncle Sam in the Panama canal zone.

"1910 will prove to be a very trying and hard year for everybody, both rich and poor, strikes and riots will be much in evidence, our militia will be called out and much bloodshed will result.

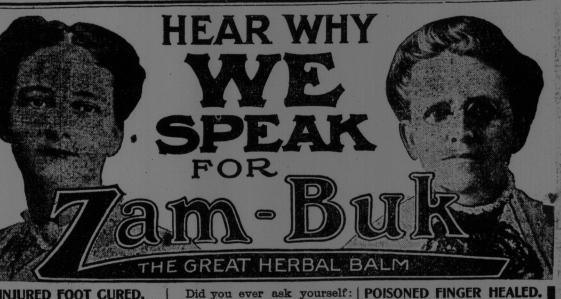

"Actors and theatrical managers will experience a more prosperous and successful season than in many years, and theatrical attendance will be unusually large, yet there will be a decrease in church attendance.

"Great scandals will occur among members of the bar, press and clergy, 'affinity' cases will be on the increase and the divorce courts will be overcrowded, and great scandals will occur among the fair sex.

"The fair sex will be very successful in speculation, but the opposite sex will not. This will be a very fortunate year for children.

"Suicides, especially among wealthy people, will be quite shocking, mostly as the outcome of scandals, swindling affairs and public exposures.

"Wages will greaty decrease, but prices of provisions, etc., will be increased, the minds of the people will be increased. HOTEL BILL WAS \$475

"I speak for Zam-Buk because it cured me of a terribly bad foot," says Mrs. Alice Berryman of 190 John St. North, Hamilton. She adde: "The injury was caused by a wagon wheel, and the sore was on my right foot. It became very inflamed and swollen and so painful that I fainted away. In spite of treatment, the wound got no better and the foot became more and more swollen until it was several times its usual size. The flesh was terribly bruised and blackened and it was quite impossible for me to walk. My husband's mother at last brought me a box of Zam-Buk. This was applied to the foot and it was surprising how soon I found relief from the severe pain. A further supply of Zam-Buk was obtained and I persevered in using this balm alone. In a couple of days the swelling had gone down considerably, the discoloration was less distinct and the pair was banished. In four days I could go about as usual: the bruised and injured foot had been thoroughly cured by the timely use of Zam-Buk."

Did you ever ask yourself:
"How is it that Zam-Buk is so popular?" It is because it is superior and different to other salves. Contrast them! Most salves are nine-tenths animal oil or fat. Zam-Buk hasn't a trace of animal fat in it. Most salves contain mineral coloring matter. Zam-Buk is absolutely without! Many salves contain poisonous astringents. Zam-Buk doesn't.

Zam-Buk is actually more powerfully antiseptic than crude carbolic acid. Yet it stops instead of causing pair.

conspicuous ones on that part of the disc. The new canals ran, from the bottom of the Syrtis Major and from a point on its eastern side south converging to an oasis, itself new, on the Cocytus about two-thirds of the distance to where the canal meets the Amenthes. The Amenthes itself was not visible except possibly as a suspicion. The new canals were recorded in independent drawiings by Assistant E.-C. Slipper and the director, and shortly afterwards were photographed as the most conspicuous canals in the images."
