### HOUSE FLY A FACTOR IN TUBERCULOSIS

#### Dr. Thos. Walker Addresses Life Underwriters on Causes of Disease—Rev. Mr. Boyd Urges Co-operation.

Rev. T. Hunter Boyd addressed a meeting of the life underwriters in the board of trade rooms last evening dealing with the subject of tuberculosis and the means of fighting it. In the absence of the president J. W. Lawlor occupied the chair and introduced the speaker.

In opening, Rev. Mr. Boyd referred to the importance of banding together to combat the great scourge of tuberculosis. In future, he said, the civilization of a nation will be judged not by its standing in commercial life, but by its death rate as it will be taken as an indication of the care given to protect the lives of the people.

He then referred to persons not already made in the fight against the disease and good work was being done by the societies organized for this purpose. He told of the aims and objects of the New Brunswick association for the prevention of tuberculosis, of the successes already won. Dr. Thomas Walker followed, and told of some of the causes of the disease and pointed out that it was not hereditary. Dr. Walker said that the common house fly was a very potent factor in carrying the tuberculosis germ to persons not already affected with it. He urged an observance of the laws of sanitation and hygiene as the best means of preventing the spread of consumption.

One of the most important things to be considered was the ventilation of public buildings and in this connection he said none of the public buildings in the city were ventilated properly.

Dr. H. S. Bridges spoke briefly, expressing his sympathy with the objects of the work and the meeting adjourned.

### AT THE OPERA HOUSE

The Chicago Stock Company opened the third week of their engagement at the Opera House last night with an excellent scenic production of "The Royal Boy," which was of such quality as to delight the large audience in attendance. The piece is one in which a capable company appears to distinct advantage as it carries more reality and good parts than the average stock of the city.

The leading role in the piece as taken by Mr. Dorente was particularly well done. His big scene was in the fourth act, when the setting represented the stage of the Drury Lane theatre during a production of Romeo and Juliet. For his excellent work in this act, Mr. Dorente received a well merited curtain call. Miss Clara Prae Dorente as Celia, played an effective opposite to Mr. Dorente and her work was excellent. The other members of the company were well up to their work, several of them being in difficult supporting roles.

Taken altogether the Chicago Stock Company may be fairly said to be the best that this city has had since the days of the first Valentine Stock Company. It has presented a high class of dramatic attractions in almost a metropolitan style, and it is gratifying to know that their efforts have been rewarded with continually increasing patronage.

The bill for tonight will be the Little Grey Lady which will also be given at the matinee. This play is a delicious comedy-drama from the pen of Channing Pollock, who is also the author of "Clothes," "Such a Little Queen," and other recent successes. It is a clean, delightful play from the first rise of the curtain until its final fall. The story is laid in Washington, D. C., and tells of the trials of a young society girl who tries to shield a young man from discovery who possesses a counterfeit bill of large denomination. Laughable comedy is intermingled with exciting situations and three hours of genuine entertainment may be anticipated.

### TENDERS AWARDED FOR WORK ON EXHIBITION BUILDINGS

**Safety Board Accepts Offer of W. A. Munroe With Some Reservations—Dog Catcher Much Wanted—Police Uniforms Again Under Discussion—Much Other Business Under Discussion.**

At the monthly meeting of the Safety Board last evening it was decided to ask the new mayor to appoint a dog catcher, give Chief Clark a gold-brided uniform, and extend the time for making the policemen's clothes to two months. Tenders for work on the exhibition building were received, and considerable routine business was disposed of. Ald. Vanwart presided, and Ald. Scully, Potts, Hayes, Kelley, Sproul, and Wilson were present, with the common clerk, the director and chief of police.

David Magee asked that the rent on the lot at the end of Elliot Row, which he had leased from the city be reduced from \$20 to \$10. He said that he understood the rent was to be \$10, but for some reason \$20 had been inserted in the lease. He declared he had spent a considerable sum of money, filling in the lot, and constructing a sewer through it. The board decided to grant his request.

### Exhibition Tenders.

The following tenders for painting, carpenter and mason work on the exhibition building were received:—  
Painting—James H. Pullen, \$850; James Huey, \$384; Wm. Johnston, \$570.  
Carpentering, galvanized iron work and repairs to roof—H. J. Pratt, \$615; Charles F. Stevens, \$750; Harry P. Williams, \$698; A. E. Hamilton, \$500.  
Mason work—W. F. Sproul, \$100; R. C. Clark, \$325; H. C. Taylor, \$200.

W. A. Munroe sent in a tender agreeing to find all the material, and do all the work required on the building for \$1076.

Ald. Potts said it was a great mistake to have the repairs to the roof done by tender.

The director said he had recommended that the repairs be done by day's work. Some work done on the building last year by tender was very unsatisfactory.

Ald. Potts moved that the board recommend that Mr. Munroe's tender be accepted if it included everything, otherwise that the lowest tenders for masonry work and painting be accepted.

Ald. Hayes moved in amendment that the latter part of the motion be changed to include carpenter work. The amendment was lost and the motion was carried. Ald. Sproul and Scully supporting Ald. Potts.

On motion of Ald. Potts it was decided to recommend that the director be instructed to proceed with the carpenter work on the buildings by day's work, the expenditure to be limited to the amount of the lowest tender.

### Tenders Not Accepted.

Tenders were received to take down the chimney of the North End electric station as follows:—H. S. Wetmore, \$150; Samuel Johnston, \$350.

Neither tender was accepted, the director being instructed to make what arrangements he could to have the chimney demolished.

A complaint was received from J. E. Wilson that his bill for repairs on the market building had been turned down by the committee. It was recommended that the bill be paid.

Austin A. Power applied for a lease of lots Nos. 376, 377, 378, at the lower end of the city. The application was laid on the table.

The application of Frederick Fullerton, for lot No. 28 on Tower street, West, was granted \$20 per year.

Lots Nos. 4, 6, 20 and 19 and the Yorkville tavern lot, Lancaster, were applied for by W. E. Earle, offering \$25 per year.

The director said the lots comprised 35 acres and opposed the granting of the lease. The application was laid on the table.

Applications were received from John S. Tobin and David Wells for lot No. 11 on Mahogany road, Lancaster. They proposed to put up buildings satisfactory to the director and pay \$20 a year. The application was granted.

John Sime's application for a re-approval of his lease in Lancaster was granted for one year.

The order-in-council referring the matter to the committee was adopted.

### WILL LIKELY REMOVE DORCHESTER BATTERY

The executive of the exhibition association met last evening and considered a number of matters of importance to the big fair. It is quite probable that in order to make more ground room, the old military battery known as Dorchester battery will be removed, although this is not yet decided upon. Divisional Engineer Lieut. Hill has sent a recommendation to Ottawa on the matter and it is probable that permission will be given to remove the battery.

The David Craig Company, of Boston which promised to erect a concrete building to house the art exhibit has not been able to guarantee this, owing to an unexpected activity in their business. The art show will, however, go on under other conditions and promises to be a big feature of the fair.

The executive adopted the design for the window hangers and decided to have plans of the floors and of the buildings and grounds drawn for the convenience of exhibitors.

The new prize lists for the exhibition were issued yesterday and already are in general demand.

### Appreciation of Rev. A. B. Cohoe.

At the weekly meeting of the Baptist ministers yesterday afternoon, placing on record the appreciation of Rev. A. B. Cohoe was unanimously adopted. Reference was made to his keen insight, careful discrimination and intellectual ability of Mr. Cohoe as shown in the papers he had read at the meetings and to the kindly remarks which had always existed in his work with his brother ministers. The resolution concluded: "In Mr. Cohoe's removal to the First Baptist church of Halifax, while we regret the loss of his fellowship and co-operation this will mean to us, yet we rejoice because of the larger field of service which has come to him affording greater opportunities to the Master's kingdom."

### In The Police Court.

In the police court yesterday Robert Hickey pleaded guilty to a charge of stealing two Chinese silk nightdresses and other articles from the S. S. Victorian and was remanded until this morning. William McArthur, Jr., pleaded guilty to a charge of drunkenness and \$20 for giving Antonio di Bonetto a black eye on Saturday night. Wilbur Graham, charged with selling liquor to Jacob Noffel, an interdict, proved an alibi and was acquitted.

### Estate of James G. Bryden.

In the Probate Court yesterday afternoon, Acting Judge Baxter, in the estate of James G. Bryden, granted letters of administration to James Bryden, son of the deceased. The petitioner James Bryden and Helen Bryden are the next of kin. The estate has no realty and personality, \$1,700. Heber S. Keith is the executor.
