Among the entries is Hooper of Charlottetown, P. E. I. He is the holder of the Maritime quarter mile record of 50.45 seconds. Duffy of Charlottetown is at present the half mile champion, while Canning, of Amherst, is one of the best middle distance men in the provinces.

In all 65 athletes have entered for the different events and in addition to the five men have entered in a women's race, making seventy in all. The following is a complete list of those entered in the different events.

AMATEUR ATHLETIC UNION OF CANADA ANNUAL SESSION

Montreal, Nov. 23.—The Amateur Athletic Union of Canada on Saturday defeated a motion of the Dominion football association, asking for the rescinding of the motion passed at last year's meeting, which prohibits amateurs and professionals appearing in joint competitions.

Following the announcement of the vote, President Tom Watson, of the D. F. A., announced the parting of the ways between his association and the parent body, and the refusal of his association to make any further overtures for alliance. The question as to how the Montreal Amateur Athletic Association whose constitution allows competitions with or against "pros," will remain in affiliation with the governing body, when the same privilege is denied the D. F. A., was a much mooted one.

The discussion occupied fully three hours of an already stormy thirteen hour session.

A suggestion was made by the Quebec branch that the union confine its jurisdiction to other than team competitions. This motion was laid on the table.

Another rupture was narrowly averted when A. E. Vart, of New Westminister, opposing the rules laid down by the Amateur Swimming Association regarding the amateur and professional definition, moved an amendment that the Swimming Association should not be received into an alliance on such terms.

This nearly precipitated the walking out of the swimming delegation in a body, but an agreement was reached between the east and west acceptable to both bodies. The result is that the swimmers association remain in alliance and will be recognized solely as the governing body for swimming, water polo and diving, and as the sole arbiter in all disputes arising in connection with the sport. In future only C. A. S. A. cards will be recognized in aquatic competitions.

As the Y. M. C. A. athletic amateur cards are recognized by the A. A. U. of C. and as in the new agreement

only those of the Swimming Association will be recognized in open competitions, other than championship or international, more complications may arise.

Gordon C. Bowie, past president of the Quebec branch, brought out the fact that the details of the boxing championships, held last year at Toronto, were managed by a professional, T. Flanagan, after considerable argument a motion was passed declaring that all championships won by less than the regulation 16 foot size shall be valid.

Still another difference regarding professionalism led to the Canadian Wheelmen withdrawing from the union. The C. W. A. insisted upon the right to control professional cyclists and to place them upon the same programme with amateurs.

The Olympic organization was laid upon a permanent basis, and will be known as the Canadian Olympic Association with J. C. Merrick as its head, and Dr. D. Bruce MacDonald, president of the athletic union committee.

A communication was received from the Canadian Amateur Lacrosse Association asking the union to co-operate with the trustees in placing the national game upon a sure amateur footing in its proper sphere in Canadian sports. J. J. Lally was appointed chairman of the Manu Cup trustees. It was also decided that the national trophy, eligible for competition only between district and league champions recognized by the C. A. L. A.

Most of the amendments to the constitution proposed were tabled. To the amateur definition the words "where a collection is taken up" was added to section B of article V.

The following officers were elected: President, Dr. W. D. Johnson, Charlottetown, P. E. I.; first vice-president, G. Davidson, Vancouver, B. C.; second vice-president, Thomas Boyd, Vancouver, B. C.; treasurer, Dr. D. Bruce MacDonald; secretary, Norton H. Crowe, Toronto.

PLAYERS KILLED OR INJURED

Chicago, Ill., Nov. 22.—Fourteen players were killed and 175 were injured in football games in the season which virtually closed today. This record of casualties is only slightly below that of 1912 when thirteen players met death and 183 were injured.

These figures were compiled from press reports and published here today. The injured include only those who suffered broken bones, severe strains, and sprains and internal injuries.

Of the 14 deaths, 13 succumbed to injuries occurring this year. Charles Switzer, formerly a Hamilton University player, died November 17 at St. Paul, following a complication of diseases resulting from injuries several years ago. Other fatalities resulted with few exceptions from fractured skulls, broken necks or spinal injuries.

Kingston, Ont., Nov. 22.—Kingston Collegiate Institution defeated Toronto Varsity III, here Saturday, 5 to 0, thus winning the Junior Intercollegiate championship.

Toronto, Nov. 22.—Parkdale Canoe Club won the championship of the senior O. R. F. U. St. John's when they defeated T. R. and A. A. in the play off by the score of 8 to 3.

Tomorrow night in the York Theatre Anderson and Frank Carpenter are to wrestle, the best two falls out of three, and the champion is putting up his belt against a purse put up by Carpenter. Carpenter is a strong western middleweight and comes from Chicago. He is a husky looking young man and thinks that he is capable of taking the belt from the champion.

THE CHANGES OF WINNING AMERICA'S CUP

New York, Nov. 21.—Although close to twelve months must elapse before the challenging and defending yachts meet in the races which will decide possession of the America's Cup, the international regatta has already taken precedence over all other sporting events among English sportsmen. It is apparent that the polo and tennis invasions of the States in 1914 will be considered secondary to Sir Thomas Lipton's efforts to retain the America's Cup which stands for supremacy in ocean sailing competition. Already the chances of the challenger, just beginning to take form, are being weighed and discussed by yachtsmen, and the man in the street is beginning to test his tongue on nautical terms.

The impression appears to prevail in the general sporting circles of England that the chances of winning the America's Cup are better than in the case of either the polo or tennis trophies, due to the fact that the question of physical equation will be reduced to a minimum. England is not willing to concede that in the handling and sailing of a racing yacht the English tars, either amateur or professional, have any advantage over the English salt.

In other respects the general opinion is to the effect that the edge is with the defending nation. Although hopeful, it is pointed out by English yachting authorities that Sir Thomas Lipton, in the role of challenger, will be handicapped by conditions which do not need to be considered by the defending yachtsmen. The question of type and towing boom large in English yachting circles, and much space is being devoted to a discussion of these points. A prominent authority recently expressed the following views on these subjects:

"Next year, notwithstanding anything that may be said to the contrary, we consider the contest will proceed in the same groove in which it has run since 1894, that is to say, it will be between extreme vessels. In these circumstances, Sir Thomas Lipton cannot fail to find himself at a great disadvantage. He must build a very light vessel and tune her up in British waters, he must then unrig her and lose a lot of valuable time sailing her across the Atlantic under a jury rig. In America she will have to be re-rigged and tuned again for the first match on September 10, 1914, when the great contest will take place.

"Next so many obstacles in his way, it is fair to hope his opponents will give him credit for his sportsmanship, and make it as easy for him as possible to bring his new Shamrock to the starting line in good trim. They might assist him by placing no restrictions upon towing the yacht when the weather makes it difficult for her to sail during her ocean passage. We believe the cup will be defended by a yacht of her own waterline length, and it is satisfactory to learn that the members of the New York Yacht Club, who are connected with the defense of the trophy, are the leading yachtsmen of America. So far, therefore, as the actual race and the measure of the rules and the sailing rules are concerned, there can be no cause for complaint, for the match will be a fair one. The disadvantages, however, to which the challenger is subjected—many of which are insuperable in modern times, so long as the present conditions attached to the cup by the New York Yacht Club prevail—are so numerous that every yachtsman knows that Sir Thomas Lipton has entered upon a herculean task."

CANADIAN HORSES WELL UP AT NATIONAL HORSE SHOW

New York, Nov. 22.—Championships constituted the principal events at today's session of the National Horse Show, and Canadian horses figured quite extensively considering the number entered. Hon. Clifford Sifton's Ravello was adjudged the best heavy weight hunter in the show, and Major W. T. Rodden's Outpost got the reserve in the same class. The Sifton entry, Cleveland, also got the championship in the light weight hunter class, while in the middle weight hunters Sifton's Sunday Morning was second to the Glen Riddle entry, Willow King.

Sunday Morning also won in the class for qualified hunters up to carrying 180 pounds to hounds, while Willow King was placed second and Elmhurst, another Sifton entry, got third place.

Masterpiece, the pony entered by Major C. W. MacLean, of Brockville, took the championship cup for ponies in harness with Alfred Vanderbilt's Flame second.

In the classes for harness horses, Miss E. Vlaus' entries, Eye Opener and Wonder, took fourth place in the class for pairs 15.1 not exceeding 15.3 hands high. Judge Moores, Lady Seaton and Lord Seaton got the bid, Miss Louisa Longs Revelation and Hesitation the red, while another Moore pair, Madeline and Manfred, won the yellows. Among the most consistent winners was Major C. W. MacLean, of Brockville, Ont., who had four entries and won four blues and was awarded the championship in one class.

The Sifton entries, from Ottawa, also gave a good account of themselves, while Captain Rodden's and Miss Vlaus' entries also showed to advantage.

YALE LOST TO HARVARD ON SATURDAY

Cambridge, Mass., Nov. 22.—The Harvard football team of 1913 with Fullback Charles E. Brickley playing the stellar role, established a new epoch in crimson gridiron history by beating Yale, for the first time in the stadium, by the score of 15 to 5. Although twenty points were scored by the two eleven, neither succeeded in carrying the ball across the other's goal line, and all the points were the direct or indirect result of kicking. Seven times during the sixty minutes of play, Brickley drove the ball spinning and turning over the heads of the Yale players and so deadly was his accuracy with eye and toe, that five times the ball crossed the goal bar for crimson points. Four times, Guernsey, Yale's field goal kicker, essayed the same feat, but once did the leather cross Harvard's goal. To the Eli's earned three points, there were added an unearned two, due to an unintentional play by left end O'Brien of Harvard.

The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

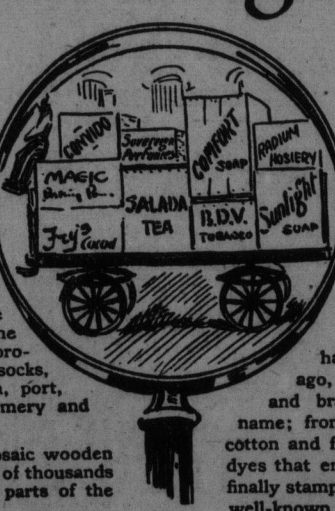

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

The cocoa had been grown in Brazil, shipped to Bristol, transhipped to Montreal and finally distributed from Toronto.

The tea was gathered by swarthy-skinned natives of the romantic island of Ceylon; from sunny Portugal the luscious, big grapes had been gathered years ago, fermented, bottled and branded with a famous name; from Egypt had come the cotton and from South America the dyes that entered into the product finally stamped with the brand of a well-known hosiery.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

If you are doing a local business call over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 205, London Building, Toronto.

AGRICULTURAL SOCIETIES ARE PROGRESSING

Carleton County Organisations Planning Fairs Government Ditcher H Much Work Ahead

Marland, N. B., Nov. 22.—On Tuesday evening the People's Union Agricultural Society held an interesting meeting in Burri's Hall. The attendance was not all that could be desired but the enthusiasm of those present made up for lack of numbers. The matter of holding a seed fair in connection with the annual poultry show was brought up and favorably considered. With the competition in the two lines it is hoped to hold a creditable show, a committee was named to work out the details.

Another matter that engaged attention of the meeting was the pure bred stock and an effort was made to get in touch with the Dominion Department of Agriculture in effort to secure some good breeds.

The institution of a cheese factory under control of the society was another proposition. This was looked upon favorably. The annual meeting of the society will be held on Saturday, the 29th instant, at 2 p. m. this meeting the officers will be elected for 1914 and further details will be perfected in connection with the posed seed fair and the erection of a cheese factory.

The hotel is next the old C. P. R. dining room, formerly by R. Owens for a number of years and but a few steps from the station.

There is a scarcity of money to supply the demands of the lumbermen and fast as one shows up willing to go the woods he is eagerly picked up by one or other of the operators and awarded the scene of operations. Wages paid, too, this year are at the average, and the supplies forwarded are far superior to those of a few years ago.

At Windsor on the afternoon of Dec. 9, the semi-annual Sunday school convention of the past of Brighton will be held. An interesting programme is being prepared all interested in the work are invited to attend. A representation from school is much desired.

Two more Maine men from the family of Bangor are here this looking for cattle for shipment to the border. Unless the farmers get to stock raising on a larger scale at the present local prices for them will go beyond the reach of the ordinary working man. St. John and large sections will surely suffer as the supply grows less on account of increased shipments to the States.

Some idea can be formed as to climatic conditions this fall when known that many farmers are glowing.
