

FIGHTING RUSSIANS REPULSE THE GERMANS

Czar's Troops Progressing Against Teuton Attacks in Eastern Area of Fighting

Germans Forced Back Across River Ekau After Heavy Fighting—Russians Capture Positions With Many Prisoners and Guns.

GERMANS NOW ON DEFENSIVE ALONG WHOLE WESTERN LINE

Petrograd, Oct. 15.—With the exception of Dvinsk, on the northern end of the Russian battlefield, where fierce artillery battles continue, the Germans appear to be on the defensive along the entire eastern front.

Russian military officials say that they have obtained information that the German armies have been ordered to take Dvinsk as any cost. German attacks at this point have been made with the utmost impetuosity under cover of a terrific artillery fire but so far they have been unable to break down the Russian defence. The German losses are reported to have been extremely heavy.

Petrograd, Oct. 16.—The following Russian official statement concerning the progress of hostilities was given out here tonight:

"On the western front, in the district of Kaluzhin, south of Shlok, there has been an artillery duel. West of Grundyaid, east of Mitau, the Germans, after a nocturnal cannonade, crossed the River Ekau Thursday, but a counter-attack drove them back across the river. A somewhat violent artillery action was fought in the region west of the farm of Misahof, on the railway southeast of Riga. German attempts to cross to the left bank of the Misah, southwest of Misahof, were repulsed by our artillery, and rifle fire. An enemy aeroplane again threw bombs on the railway station at Romershof, north of Friedrichstadt.

"The Germans in the Dvinsk region delivered several attacks along the Iloukret road and south of Lake Mayn. All the attacks were repulsed. In a desperate fight yesterday between Lakes Demten and Dreswiaty our troops captured the farm of Gateri and took prisoners and machine guns. Good reports have been received regarding the enemy's very heavy losses in the recent fighting on the Dvinsk front and in the region of Lakes Demten, Dreswiaty and Boghne.

"South of the Dvinsk region, and as far as Pripet the position remains stationary. A Zeppelin on Thursday threw fifteen bombs on Minsk. Our artillery immediately drove the Zeppelin off.

"Near the village of Novo Zelki, on the Str, above Czartorysk, the enemy, after artillery preparation, took the offensive. At first he pressed our troops back a little but shortly afterwards was dislodged and forced to return to his starting point.

"Near Malovrenka, on the Stripa, west of Trembowla, the enemy continued his desperate attacks. Yesterday the enemy here developed a hurricane artillery fire, which lasted more than an hour and a half, attaining extreme tenacity. Thereafter the enemy rushed to the attack several times but on each occasion was repulsed. We had several very hot encounters with the enemy in the region southeast of Buczacz, where the Germans assumed the offensive in many places.

"In the region east of Lake Tortum, near the village of Keghyk, and southeast of Lake Tortum, there has been rifle firing. In the Vastan region, along the southern shore of Lake Van, we continue to pursue the defeated Turks. In the pass between the villages of Lil and Kliziatshik we routed the Turks, annihilating most of them. The whole region, as far as Peshevan, west of Vastan, is clear of Turks."

ZEPPELINS IN NIGHT ATTACK IN ENGLAND

(The author of The Garden of Allah and Belladonna)

There is a saying, "What the eye does not see the heart does not feel," which is much the same as a statement that the world lacks imagination. And no doubt there are many people who are insensitive to the sufferings of others because they cannot think themselves into the lives of others. It is difficult, for instance, for a very rich man to realize what it means to be a very poor man, more difficult still, perhaps for a strong healthy man to understand what it is to be a weak and ill man. And if these things are hard, very hard it must be for a nation enjoying the blessings of peace to understand thoroughly, and to enter imaginatively into, the anxieties, the terrors, the perpetual strain upon brain and heart, and soul, which are the lot of a nation plunged into the vortex of war.

Yet it must be said that Americans have proved that their hearts have felt though their eyes have not seen the agonies of their European brothers and sisters. The help they have given has been very great, but the voices of the guns do not cease, and so the ruin and the misery in Europe continually increase day by day. Mutely sufferers from war turn for aid to those who still enjoy that mysterious, that already by Europeans almost forgotten blessing, the blessing of peace. They are not beggars by nature, these people bereft, but now instinctively from their souls goes out the silent cry "Can you help us? Can you do anything more for us?"

Two nights ago I went out just before ten to walk by the sea which is close to my house. There was not a breath of wind, the waters seemed asleep, and the dead calm which prevailed suggested to me a war-torn night. "A good night for Zeppelins!" I said to my companion.

Here and there along the coast—revolving lights winked in the obscurity, but all the houses scattered over the downs were closely shut, and in the little fishing town near by not a street lamp was lighted. Presently I looked up into the pale sky, in which some dim stars were shining and, very, very high—almost among the farthest stars it seemed—saw a fierce flash of light. It stabbed the peace of the night and was gone. I stood for a moment wondering what it could have been. A flash of lightning it was not. It had looked like a

Complete Victory Only End Of War Which Will Satisfy Allies, Says Lord Reading

Chairman of Anglo-French Loan Commission Says There Can Be No Peace Until Victory Is Achieved.

New York, Oct. 16.—Lord Reading, chairman of the Anglo-French loan commission, and two of his associates, Sir Henry Baldwin Smith and Sir Edward Holden, sailed for Liverpool today on the American liner St. Louis. Although the contracts for the \$500,000,000 loan to be floated in this country were signed yesterday, virtually completing the work of the commission, Basil B. Blackett and the French members, Mallett and Octave Homberg, will remain in this country to attend to any necessary details with the actual placing of the loan.

menacing signal. But up there among the stars! Next morning I knew that I had seen the flash of a light carried by a Zeppelin which was on its way to bombard London.

Trifles such as this make one realize war as words do not make one realize it, in a really intimate way. The eye has seen the enemy's menace in the sky, and suddenly the heart feels something of what war is; the concentrated intention to do harm, to produce ruin, suffering and death, carried out as far as may be in action.

In Europe the carrying out of this intention in action has been appalling effective. Never, I suppose, has such misery been known among men since the world began. And still we cannot see the end. Poverty, starvation, disease, ruin, dishonor, and death have come into their kingdom. The cry of the women and children to not drowned even by the cries of the men.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.
