D. Kerr & Co. vs. Chaffey et al."-Ac tion of trover to recover damages for the removal of sawed lumber from the railway by deft., claimed as the property of pitffs It appeared that A. W. Playtair, Esq. being indebted to pitffs, had given a chatte mortgage to them on a quantity of sawed lumber lying at the railway—that Mr. Play fair had been looking for a purchaser and that certain offers passed between him and deft., who had advanced some \$120 to Mr Playfair, and acting on what they under stood of the matter, they sent a boat to the Rideau and removed a quantity of the lumber. Pliffs, finding the lumber removed claimed it but the defts set up the suppose sale to them. On the trial Mr. Playfair was examined and the jury found that no actua e le had taken place, though there were let ters passed on the subject. The jury found for the plff., damages \$230. J. Counsel, for deft. 'Ann Brudly vs. Dr. Atcheson."-Th case excited a great deal of interest, near all the medical men and clergymen of Smith's Falls were subposned. The declaration charges of malicious arrest and imprisonment and libel. D. Atcheson had attended the plff.-an unmarried female-as physician She evinced towards him, either a violent attachment or antipathy or both in turns. She was charged with being insane, and the Dr. had her bound over to keep the peace and had taken steps to send her to the Asy lum. This was the case in which Dr Nichol was suspended by Judge Mallock for signing the usual forms with a view of send ing the p.ff. to the Asylum, and on which she had been di hage! at the Quite Sessions. These proceedings were followed by this action against the deft. On the case coming up, the pltff's second witness, one Simpson, described what took place at Smith's Falls at the time of the alleged as sult by the deft. "the villian," threw stones at deft's house, that he ordered her off his premises, and with a view of frightening her off came out with a whip and struck her about the lower part of the dress, that she wore hoops, and that the Dr. did not in fact strike a blow to huit a buby. The charge of assault thus failed. The pltffs's counsel wished to give evidence that deft. had persevered in his charges against pluff., that he first had her before a magistrate when she was imprisoned, and after her discharge h again brought her up two or three times in succession, when she was dismissed, and that on the last occasion he got her bound over to the peace. These charges being sul sequent to the arrest laid in the declara tion, the Judge did not think the pltfl could so to the extent proposed. The pltff's case therefore broke down, and came to a sudden end, the plft. being nonsuited. D Frazer and J. Deacon for plff.; W. M. Shaw and D. McMar in for deft.

They awoke to the conscious ness that the attempt to bully Britain would

only end an absurd exhibition of folly. Since that memorable period when the national oulse of Canada throbbed in consonance with he great heart of Britain, and our frontiers bristled with defiance, the whole history of the revolution has been a prolonged trial of he ability of the South to defend the postion which she had assumed, and all the evidence adduced has tended to prove that the action of the Southern leaders have in every instance dictated the campaigns - the South have been the active, the North the assive instruments in the war; with all the power possible to ascribe to a great and

The men stood under the ottert fire without flinching, and with one officer killed, the other two wounded, and half its number fallen, it ever was the same. Each man in it is a hero, and well may Capt. Lynch say (himsel: wounded,) as he visits his noble boys in the hospital, that Company G. done its duty.
