Mr. F. G. Nixon,
Controller of Telecommunications,
Department of Transport,
Ottawa, Ont.

Dear Sir:

In answer to your wire, we wish to advise that the radio installed, covered by sewing No. WAL-2-56 has been removed from Cessna 310. It is our intention to install a VHF transmitter and receiver together with a Bendix ADF unit at which time we will forward drawings for your approval.

At the moment the aircraft has no radio installed.

Yours truly,

R. L. Bradley
R. L. Bradley.
