Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham's Vegetable Compound for a characteristic power of Lydia E. Pinkham's Vegetable Compound in such cases.

Spotted taffetas in black and brown are being revived and trimmed with quaint old fashioned applications of silk and chenille, but these must be very carefully managed in order not to look dowdy.

Tallor made suits of black and navy blue taffeta will be worn this summer over very full blouses of needlework and embroidery.

In the picture is shown a white liner shirt waist tucked and heavily embroidered.
