

Alpha Gas Engines

The Men Who Use Them Save Money

You can save money by using an Alpha Gas Engine just as do many other men. It will do work you cannot get done at all without power. It will do other work that is now costing you far too much in time and labor.

An Alpha Gas Engine is a saving investment any way you look at it. It will save money you now must pay out to get work done that requires power, because you can own and operate the engine at less cost than that of hiring some one with an engine.

It will do quickly work that you are now doing by hand and wasting a lot of valuable time over. It will pump water and do other similar jobs without attention and leave you free to get other work done. Your wife or your boy can start and operate it at many jobs to which you now must give your time. Having an engine will relieve you of the odd jobs that are time-wasters and give you more time to attend to the important work on your farm.

You need an engine and the sooner you buy one the quicker you will save the cost of the engine. Get an Alpha Gas Engine now, put it to work and it will pay for itself in a few months.

Ask for catalogue, prices and complete information. Made in eleven sizes, 2 to 25 H. P. Each furnished in stationary, semi-portable or portable style, and with hopper or tank cooled cylinder.

How Do You Harvest Your Corn?

Unless you use a corn binder, you are not harvesting your corn—that is, not all of it. Fully a third of the value of the corn crop is in the leaves, husks and stalks. To make full use of this value it is necessary to cut the stalks at just the right time. This cannot be done practically without a corn binder. The loss to American farmers in 1915, through this item alone, is estimated at about three hundred millions of dollars.

Trying to harvest corn without a Deering or McCormick corn binder is just as reasonable as trying to harvest grain with a cradle. It can be done, but up-to-date farmers prefer the binder. When you consider that one man with an I H C corn binder can go into a field of corn in almost any condition and cut and bind from five to eight acres every day, you will see why we are selling more and more corn binders every year. Drop in and see the I H C local agents, or write the nearest branch house for complete information.

Mr. Farmer and Dairyman:

Do not fail to send for our catalogue if you are thinking of remodeling your stables.

BUCHANAN'S Steel Cow Stalls, and Adjustable Positive Lock Stanchions have features found in no other make in Canada.

The arch stall makes a farmer's stable look like a show stable.

The noise and clang so common to the head rail stall is entirely done away with.

There are no spaces for the cattle to run through. All spaces are filled in.

Buchanan's Stall. We use a positive steel lock to lock our stanchion. You know yourself the difference between a steel lock and wire springs. The stanchion can be adjusted for the smallest calf or the largest cow. We have been serving the Canadian Farmer for nearly forty years and thousands of farmers will testify that BUCHANAN Stalls and Stanchions are in a class by themselves. Write us for prices and catalogue. They will interest you.

Go to Market in 1/4 the Time

Think of the pitiful waste of time spent in going to market and back—if it is a ten-mile drive it takes you probably two hours each way. And you could do it in half an hour or less if you had a FOX Trailer for your car.

The Auto Trailer has proved so successful in the United States that thousands of them have been sold in the last few months. This splendid utility—the FOX Trailer—can be attached to any make of car. It causes no injury to the car—no inconvenience to drive. Built like an automobile, with steel chassis, steel axle ball-bearing wheels, interchangeable with Ford wheels, solid Dunlop tires, guaranteed for 10,000 miles. Size of body, 6 ft. x 4 ft. Write for descriptive catalogue.
