A good Watch for every workingman in the World. Works of the greatest simplicity.

DESCRIPTION:

DESCRIPTION:
The case is strongly made and carefully fitted to exclude dust. It is open face, with heavy, polished level crystal. The movement is covered with a practically dust-tight glass giving double protection against the ingress of foreign particles. Movement is detachable from case by removing four nuts. Case is plated by a special process, and handsomely finished in gilt, closely resembling gold. Weight of watch complete with case is an exact representation, three-fourths size.
The movement combines many patent devices, which make the construction the simplest and fully as durable as any watch movement known. It has a fine lever, extra long pinion, patent escapement; minute and second hands.
Their sale goes on the year around in the city and country to every class of people. The rich and sportive buy it for the novelty, and the poor and sensible buy it for actual everyday use. Use it, and you will pay for it. It truly fills a long-felt want. Sent post-paid for four new subscribers.
