

RECIPE MIXED OFTEN.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys; cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October, stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

A minister jokingly told a friend an interview would cost him ten cents. The latter pretended to take the matter seriously, and presented him with ten pennies. The minister then arose to protest, and, while rising, his chair skidded and he tumbled. And now the friend is telling everyone he meets how upset the minister was at having to refuse a contribution.

GOSSIP.

Mr. W. D. Monkman, of Bond Head, Ont., breeder of Shropshire sheep and White Wyandotte poultry, was probably never in better shape to cater to the wants of his many customers than just now.

His large flock of prizewinning Shrops are in fine fettle, the lambs coming strong, healthy, and looking like future winners. The Wyandottes are doing splendidly along the lines of egg-production. He has three pens of very choice pullets separated for breeding purposes; one of them headed by a Dawson-bred cockerel that has an unbeaten record as a show bird. Another pen has an Elliot-bred cockerel, a remarkably fine specimen of the breed. A host of orders for eggs has accumulated, and a number of settings have already been shipped.

CENTRE AND HILLVIEW HOLSTEINS.

Breeding along the line of production, clinging closely to that greatest of all laws of breeding, that like begets like, particularly in the selection of a stock bull, and a strict culling out of all heifers that fail to show their worth at the first freshening, has resulted in a herd of over 60 milking Holsteins, the property of Mr. P. D. Eade, of Oxford Centre, Ont., a few miles south-east of Woodstock, that as a paying, profitable herd have few equals. Thirty-four of those now in milk are in the Record of Merit, and the testing still goes on. Thirteen of these, two years old and under, in their seven days' test gave a total of 4,377.2 lbs. of milk, or an average of 336.7 lbs. each; 170.3 lbs. of butter, or an average of 13 lbs. each. Ten of them, three and four years of age, gave a total of 4,056.8 lbs. milk, an average of 405.68 lbs. each; 167.6 lbs. butter, or an average of 16.76 lbs. each. Eleven aged cows gave 4,690.7 lbs. milk, an average of 426.4 lbs. each; 199.1 lbs. butter, an average of 18.1 lbs. each; an all-round showing very creditable indeed. At the head of this great herd, and the sire of many of the younger things, is the richly-producing-bred bull, Brookbank Butter Baron, by Canary Sir Barnum Mechthilde, who has five daughters in the Advanced Registry, and whose dam, Canary Starlight, at four years, has a record of 21 lbs. 6 ozs., and has three daughters in the Advanced Registry, and his sire, Sir Barnum Mechthilde, has four daughters in the Advanced Registry, with records along 21 and 22 lbs. each; dam Lady Wayne Norine, whose record, at five years old, is 19 lbs. 5 ozs.; at six years, 22 lbs. in seven days, and 62 lbs. in 21 days; while her dam, Norine 2nd, although never officially tested, gave 90 lbs. of milk in one day. Second in service is Bonheur Statesman, bred by H. Smith & Sons, Columbus, Ohio, sired by Rosa Bonheur 5th's Colantha Lad, who has ten daughters in the Advanced Registry, and whose sire, Colantha Lad, is a brother to Colantha 4th's Johanna, who gave 27,432 lbs. of milk, and 1,247 lbs. butter in one year. Also, the sire's dam, Rosa Bonheur 5th, has a milk record of 682 lbs., and a butter record of 25.34 lbs. in seven days; dam Never Again, with a record of 484.90 lbs., testing 3.36 per cent.; and a butter record of 20.39 lbs. in seven days. Nineteen of her sisters are in the Advanced Registry, with records over 20 lbs. each. Her dam, Princess Penserosa, has also a butter record of 19.82 lbs. in seven days. With two sires in use on the herd, backed up by such wonderful producers as these bulls are, crossed with cows with such large official records, the produce must of necessity be producers of a very high order. All told the herd is 125 strong, including, of course, a number of young heifers. In young bulls there are six on hand fit for service, all sired by the stock bulls; four of them out of Record-of-Merit cows, the other two out of heifers not yet tested, but whose dams have records in the Record of Merit. There are also several younger ones. September and October calves, all out of record cows. All these richly-bred young bulls are for sale, as are also a number of one- and two-year-old heifers, and younger ones. Write Mr. Eade, to Oxford Centre P. O., Ont.
