

## Columbia Wooden Horns

No. 41, Oak, price, \$12.00.  
No. 42, Mahogany, price, \$15.00.

Although wood horns have been made and used for a number of years, we have never placed one on sale until recently, because we were unable to find a horn that would meet all our exacting requirements, both as to appearance, acoustic qualities and durable construction. Our horns are made of seasoned three-ply veneer, oak or mahogany, cross-banded and so constructed that they will absolutely not warp or lose their shape. Both the outside and inside layer of veneer are arranged so that the grain runs spirally. There is only one joint on the side, a patented wood rim, which holds the bell in perfect shape. This horn embodies all the good points of other horns, with many improvements. By its use the annoying "dominant note," so evident in some horns, is permanently eliminated. The Columbia Wooden Horn, like all other Columbia Horns used in connection with the aluminum tone-arm, screws solidly into the elbow, so that it cannot fall out, and is readily interchangeable, fitting any disc graphophone and any of the tone-arm cylinder graphophones.

**Sent on one week's trial.** Money refunded if you are not satisfied.

Complete catalogues of Columbia Graphophones and Records (disc or cylinder) sent on request.

Write to-day for us to place your name on our mailing list for the Monthly Supplements of New Records.

The Lock that makes "Page Fences Wear Best."

## There Are No Two Ways About It.

Page High Carbon Fences are either the most economical to buy, or they are not.

Page High Carbon Wire is from 33 1/3% to 50% stronger. Which fence can be stretched the tightest? Which will hold its shape and consequently require least number of posts?

Posts for Page High Carbon Steel Fences can, with equal factor of safety, be set one-half greater distance than for hard steel or ordinary wire fence. Suppose posts cost say 16 cents digging and setting 10 cents. How much would you save, figuring the Page Empire all No. 9 fence costing you two or three cents more than the hard steel fences? The figures will prove Page the Economical Fence.

To all making request to our nearest office, we are mailing, free of charge, a Booklet entitled "How to Test and Prove Wire." It's a money-saver, as you can know for a certainty what quality of wire is used in any fence. No more guesswork. This Booklet is a practical text-book on the fence question. Every farmer or property owner ought to have it. The Booklet, formerly had a big sale at 10 cents per copy, but as the Page Wire Fence Co., Limited, have acquired the copyright they mail it free to enquirers. Send for it now while you think about it.

**Amalite B ROOFING**  
No more paint for me!  
I've now covered every roof  
on my place with Amalite.

**TO** buy a roofing that requires painting is inviting trouble.

Painted roofings are as out of date as the harvester machinery of thirty years ago.

The roofing of to-day needs no painting. That's one of its great features.

If you are still using the "old rubber kind," the kind that requires painting every year or two to keep it tight, we want to tell you about Amalite; why it *needs no painting*; why it *wears longer* than the "smooth surfaced" roofings, and why it *costs less*.

*First*—Its chief ingredient is Coal Tar Pitch—not a "secret compound," but a well-known, long-tested material, recognized by engineers as the greatest waterproofing material known. *Two layers* of this material are used in every sheet of Amalite.

*Second*—We use two layers of the best grade of wool felt to hold the pitch in place. This wool felt gives

tensile strength to the roofing, and is the best material known for that purpose.

*Third*—On top of these four layers is a *real mineral surface*. This surface requires absolutely no painting, and adds materially to the life of the roofing. It is fire retardant. It is permanent.

### FREE SAMPLE

We want to send you a sample so that you can see what a solid, substantial waterproof roofing Amalite really is. Write to day. Address nearest office.
