TURE OF RHEUMATISM AND RHEUMATIC GOUT. Extract of a Letter from Mr. Thomas Brunton. Landlord of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28 b, 1848

To Professor Hollowey.

Sin,-For a long time I was a martyr to Rhenmetem and Rhoumstic Gout, and for ten weeks previous to using your medicines, I was so had as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly ide. From seeing yoar remedies advertised in the paper I take in, I thought I would give them a trial. I did 'so. I rabbed the Gintment in as dirated, and hept cabbage leaves to the parts thick-ly spread with it, and took the Pit's night and norting. 'In three works I was easiled to walk about for an hour or two in 'the day with a stick, and in seven weeks'I could go any where without one. I am now, by the biesing of God and year medicines, quite well, and have been attending to my husiness more than seven months, without any symptoms of the return of my old complaint. Besides my case of Rhoumatic Gout, I have lately had proof that your Pills and Ointment alli heal any old wound or ulcer, m a married woman, living nor me, had had a bad leg tor four vers, which no one could cure, and I gave her some of your Pills and Ointment, which soundly healed it when anthing else would do it. For year information I had the honour to serve my Country for twenty five years in the first regiment of Life Guards, and was eighteen years a corporal I was two years in the Peninsula War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, 1838. The Commanding Officer at the time, was Colonel Lygon, who is now a General. I belonged to the truop of Captain the Honourable Henry Baring. THOMAS BRUNTON. (Signed)

Cure of a Bad Leg of Twenty-one Years' Standing ! Estract of a Letter from Mr. Andrew Brack, Blacksmith, Eyemmath, nour Berwick, dated the 10th of Apen+1, 1848.

To Professor Holloway. Srn,-With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of siminence in this part of the country, "bet all to no purpose I was frequently anable to work ; and the pain and agony loften endured no one can tell. My leg is now as sound as ever it was in my life by means of your Pills and Onntment, which I purchased from Mr. I. Davidson, Druggist, Berwick-apon-Tweed, who knows my rase well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderfel cure. (Signed) ANDREW BRACK.

## MOTT'S BROMA

THE following observations having reference L to the preparation of BBOMA, appeared i a late number of the Boston Medical Journal :-

"A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an anobjectionable food for invalids, and was swared that he had fully succeeded. Mospitale, infirmaries, and hosseliolds generally, should always be provided with it. When grues, arrowroot, groats, barley, starch, rice, farina, and many other things ordinarily resorted to for patients are of no stillity, the Broma is sometimes relished. It is believed that those who use it as a beverage will have ma-nifest diatotic advantages over the concorners of ten and coffee. We see it stated that during the ast summer those individuals who were centing aily using Chocolate or Brome neither had attacks of cholers or dyseateric affections, while others of the same families, taking their daily potations in ten, coffee, or simple cold water, were the saferers, if any. We cannot vouch for the trath of this, bat it has recalled to mind the statement that the nil dealers in Lundon have been free from cholera or the thelesoid symptoms. And it has been far ther observed, that persons whe were taking end liver oil for chronic difficulties, during the preve-lence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal of in the last, taken internally, would appear, by these statements, to have secured these who took them from the shafts of the postilence. It is cartainly a point well worth while to determine, whe-

ther the chocelate drinkers have been secure in other infected entire."

MOTT'S BROMA has now been before the public for a considerable period, and along with the commandations of the Medical Faculty of this and the neighbouring Provinces, it has received the approbation of all classes of consumers .- I't is held to be an article of standard reputation, and the demand for it is constantly increasing.
