

THE SUNDAY SCHOOL

TO TEACHERS.

Got, if possible, your scholars to commit to memory passages of Scripture and verses of hymns. Even one of the latter when wisely explained, will clench a doctrine in a marvellous way, and will be readily reproduced sometimes, under circumstances which will make it very precious indeed.

Encourage every one in the class to bring a verse of their own selecting, definitely referring to some given subject. It will often be possible too, to get short papers requiring some little research.

In all our teaching we must consciously or unconsciously come round to the Lord Jesus. He will be the Alpha and the Omega, the very life of our lessons. Not by dragging in his name or his words after the manner of the military man of money, who when he ordered his books by the yard line, requested the bookseller to put in a Bible or two here and there, to give his library, as he said "a moral tone."

Well seasoned posts, when thoroughly dried, and then charred and dipped into hot tar, will remain rot and insect proof for many years in almost any kind of soil.

Spiced plums are delicious. To eight pounds of plums allow four of sugar, one tea-spoonful each of cinnamon and cloves, one small cup of vinegar. Cook until they are thick as jelly.

Live forever, in small patches, can be eradicated by covering it a foot deep with earth, leached ashes, spent tan, or any substance which will exclude air and light till the vitality of the roots is exhausted.

Bananas sliced and served with ice cream are very delicious and healthy. They should be sliced and have a little powdered sugar scattered over them for about an hour before serving. Set them in the refrigerator for that length of time.

As the eye is the most delicate organ of the body, it should be treated with great care; and economy in spectacles is a great, a life-long misfortune. The eyes should not face a light; it is better to have the book in such a position as to have the light come on the page over the shoulder.

Cabbage, containing as it does a large per cent. of phosphoric acid, makes one of the most valuable kinds of food for young pigs, calves, chickens, etc. All young animals require a plentiful supply of phosphoric food to make bone and muscle. Young clover is next in value to cabbage.

The oyster-growers on the coast of France have discovered that oyster shells which are thrown back into the sea produce 30 to 40 fold in two years. The theory is that the young oysters attach themselves to the old shells in preference to any other object on the bed of the sea.

To render washing easy and save time, make all possible arrangements the night before; lay the kindling ready to light, put on and fill the boiler, get the bench and tubs in place and fill the rinsing tub, put on the wringer and have the clothes stick, which by the way, should be forked, and soap at hand.

Grape seedlings do not come true to the parent kind. A chance seedling may be a new variety of great value; no one knows what it may be. It is no hard matter to raise seedlings or move chance ones to a place where they can be watched until they bear fruit and their value will be known.

For crullers: mix one pint of sweet milk, one pint of sugar, quarter of a pound of butter, three or four eggs well beaten separately, two tablespoonfuls of cream of tartar, about two pounds of flour, or just enough to make a very soft dough, rose-water and grated nutmeg to taste. Roll out thin; make the cakes small and round, with a hole in the centre. Fry in boiling lard, and after draining them well roll them in powdered sugar flavored with cinnamon.

"Blood-food" is the suggestive name often given to Ayer's Sarsaparilla, because of its blood-cleansing qualities.

If there is anything in this life that will give one a taste of hell, as some top-went men of torture. But there is a single and inexpensive remedy for it Johnson's Anodyne Liniment rubbed up into the lead will give instant relief.

MOTHERS! MOTHERS! MOTHERS! Are you distressed by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's SOOTHING SYRUP. It will relieve at once; there is no stake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, soothe the gums, and give relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and the best female physician and nurse in the United States. Sold everywhere. 25 cents a bottle.

ARRANGEMENT OF ROOMS. The Art Review gives the following useful advice: "Give your apartments expression—character. Rooms which mean nothing are cheerless indeed. Study light and shade, and the combination and arrangement of drapery, furniture, and pictures. Allow nothing to look isolated, but let everything present an air of sociability. Observe a room immediately after a number of people have left it and then, as you arrange

the furniture, disturb as little as possible the relative positions of chairs, ottomans and sofas. Place two or three chairs in a conversational attitude in some cheery corner, an ottoman within easy distance of a sofa, a chair near your stand of stereoscopic views or paintings, and one where a good light will fall on the book which you take from the table. Make little studies of effect which shall repay more than the observer, and do not leave it possible for one to make the criticism which applies to so many homes, even of wealth and elegance. Fine carpets, handsome furniture, a few pictures, and elegant nothings—but how dreary! The chilling atmosphere is felt at once, and we cannot divert ourselves of the idea that we must maintain a stiff and severe demeanour to accord with the spirit of the place. Make your homes then, so cozy and cheerful that if we visit you, we may be joyous and unconstrained, and not feel ourselves out of harmony with our surroundings."

USEFUL HINTS.

See to it if you would have healthy hogs that they are never without salt and charcoal.

A good rule to follow when boiling corned beef is to allow half an hour to the pound after it has commenced to boil.

To rid a room of the disagreeable smell of fresh paint, let a pailful of fresh water in which a handful of hay has been placed stand in the room over night.

Well seasoned posts, when thoroughly dried, and then charred and dipped into hot tar, will remain rot and insect proof for many years in almost any kind of soil.

Spiced plums are delicious. To eight pounds of plums allow four of sugar, one tea-spoonful each of cinnamon and cloves, one small cup of vinegar. Cook until they are thick as jelly.

"There is more life, more light, more love beyond."

IF AND IF.

"If you are suffering from poor health or languishing on a bed of sickness, take a course of Hop Bitters, simply acting, or if you feel weak and dispirited, without clearly knowing why, Hop Bitters will surely cure you."

"If you are a minister, and have overtaxed yourself with your pastoral duties, or a Mother, worn out with care and work, or a man of business or laborer weakened by the strain of your every day duties, or a man of letters, toiling over your midnight work, Hop Bitters will surely strengthen you."

"If you are suffering from over-eating or drinking, any indiscretion or dissipation, or are young and growing too fast, as is often the case."

"Or if you are in the workshop, on the farm, at the desk, anywhere, and feel that your system needs cleansing, toning, or stimulating, without intoxicating, if you are old, blood thin and impure, pulse feeble, nerves unsteady, faculties waning, Hop Bitters is what you need to give you new life, health, and vigor."

If you are costive or dyspeptic, or suffering from any other of the numerous diseases of the stomach or bowels, it is your own fault if you do not remember Hop Bitters.

If you are wasting away with any form of Kidney disease, stop tempting death this moment, and turn for a cure to Hop Bitters.

If you are sick with that terrible disease, Malaria, you will find a "Balm in Gilead" in Hop Bitters.

If you are a frequenter, or a resident of a miasmatic district, beriberi, or any of the scourges of all countries—malaria, epidemic, bilious, and intermittent fevers—by the use of Hop Bitters.

If you have rough, pimply, or sallow skin, bad breath, Hop Bitters will give you fair skin, rich blood, the sweetest breath, and health. \$500 will be paid for a case they will not cure or help.

That poor, bedridden, invalid wife, sister, mother, daughter, can be made the recipient of health by a few bottles of Hop Bitters costing but a trifle.

For Cramps, Pain in the Stomach, Bowels, Complaint or Chills, use Perry Davis' Pain Killer. See adv. in another column.

One of the greatest trials that housekeepers have to undergo during the hot weather, is that of washing day. Happily there is a practical relief for them in the use of James Pyle's Pearline.

Got HIM OUT OF BED.—I was confined to my bed with Rheumatism, could not move hand or foot. A clergyman called to see me and advised me to use Minard's Liniment. I did so and in three days was out of bed and resumed my work as well as ever.

JAS. LANGILLE, Springfield, Annapolis Co., 1882. mar 2 1m

Don't Doubt It.—Failure is not always followed by failure, and although you may have tried remedies repeatedly without benefit, don't doubt that you will find the right thing yet. PAIN-KILLER is a positive remedy for corns, and once used at once cures them. This fact has been vouched for by thousands who have used it. Sold by druggists. N. C. POLSON & Co., Kingston, Proprietors.

Try Ayer's Pills and be cured. Misery is a mild word to describe the mischiefs to the body and mind caused by habitual constipation. The regular use of Ayer's Cathartic Pills in mild doses will restore the torpid viscera to a healthy action.

Pure rich blood gives us health, long life and a "green old age," but how few pay any attention to the state of their blood? PARSONS' PURGATIVE PILLS make new rich blood, and taken once a week for three months will change the blood in the entire system.

BELLISLE, KINGS CO., N.B., July 9th, 1866

I have used Graham's Pills myself and in my family, and find them to be the most effective physic I have ever known, and I have tried all the popular Cathartics in use. They cause no griping, do not leave the bowels inactive after their use, and are most effective in removing diseases of the Liver and Bowels. I have proved them to be a superior Dinner Pill, and without hesitation I recommend them to the public.

(Deacon) JAMES KIERSTAD

AMERICAN TRIUMPH AT AMSTERDAM.—The Mason & Hamlin Organ and Piano Company have just received the following cable dispatch from Mr. C. C. Bender, their agent in Holland, now representing them at the World's Exposition at Amsterdam: "Received Diploma of Honor, the very highest award." The Mason & Hamlin cabinet organs were placed in competition at this great exhibition with a large number from the leading makers of Europe and America, and this award is but a continuation of their unbroken series of triumphs at all the great world's exhibitions for the last 30 years. Mason & Hamlin's now won the highest award at Paris, 1867; Vienna, 1873; Santiago, 1875; Philadelphia, 1876; Paris, 1878; Milan, 1881; and Amsterdam, 1883.—Boston Journal.

REST AND COMFORT TO THE SUFFERING.—Brown's Household Panacea has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowls, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea" being acknowledged as the great Pain Reliever, and of double the strength of any other Elixer or Liniment in the world, should be in every family handy for use. It is really the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle.

NEVER WASTE Your time or money renting a farm when you can BUY on your OWN TIME and TERMS.

Upon examination, this Stock will be found exceptionally VARIED and ATTRACTIVE.

Our GREAT AIM is to offer FIRST-CLASS VALUE in every department.

Our hither extensive premises have recently been remodelled, and made all more commodious, and we earnestly invite the inspection of every buyer visiting the city before making his purchases.

SMITH BROS.

SHARP'S Self-Dumping Horse Rake.

The WHEELS are of the STRONGEST POSSIBLE MAKE consistent with moderate weight. They have White Oak and HICKORY SPOKES, best Rims and IRON HUBS.

Experience has demonstrated the fact that spokes which are properly prepared and driven into an iron hub by force of a steam spring-hammer, as they are in SHARP'S RAKE, never get loose. The compression of the spokes thus obtained, which would burst a wooden wheel, renders it IMPOSSIBLE FOR THEM TO SHRINK; and we claim that the spokes will remain firm in the hub of SHARP'S RAKE after an amount of wear and exposure to weather such as would ruin a wooden-hubbed rake wheel, in which the best part of the hub is usually hollowed out to receive a large cast-iron rim, and to receive a large cast-iron axle.

The AXLES OF SHARP'S RAKE are made of WROUGHT IRON and NEVER BREAK, as do the cast iron axles of other rakes.

The TEETH, 24 in number, are made of the best quality of steel and oil tempered, each tooth being twice tested to a pull of 25 inches before leaving the factory. They are inserted in the simplest manner, so that any tooth may be put in or taken out without disturbing the others or taking the rake to pieces. Each tooth is independent in its action, and as the rising and falling so as to conform to inequalities in the surface of the ground, and at the same time is so hung as to maintain its proper position without the aid of stays or other obstruction.

The TEETH CLEARING in SHARP'S RAKE is effected by a simple cleaner rake, discharging the hay in the most effectual manner. There are no cleaner rods or staples for the hay to tangle round and prevent the proper filling of the rake, but the teeth, while raking, being free from every obstruction will gather more hay with less labor, and discharge easier, than any rake with the old clumsy cleaner rods.

The SELF-DUMPING DEVICE in SHARP'S RAKE is of an entirely new and improved construction, which any blacksmith could make. Unlike the so-called horse-dumps in which the horse, being hitched to the dump-lever simply helps to pull the rake up and on the lowest part of the lift has been done by hand, and is thereby kept constantly jerking back and forth in the shafts, in sharp's rake the dump does not interfere with the draft, but it draws as steadily as a sulky wagon. A few ounces pressure on the toe of the foot is sufficient to dump sharp's rake, the revolution of the wheels during the work, while both hands are left free for driving. It dumps so easily that any class of horse or horse-dump can be used. The HAND-DUMP lever is entirely independent of the foot-dump, so that the driver has instant and immediate control of the rake by hand as well as by foot. With the self-dumping apparatus entirely dispensed with, Sharp's Rake will remain a perfect hand-dumping rake.

Only three years have elapsed since the introduction of this rake in the Maritime Provinces, but each season the sales have been doubled and the demand far exceeds the supply.

4,500!!! SHARP'S RAKES

Have been manufactured for the season of 1887, nearly all of which are already sold. In tending purchasers should order immediately before the remainder of the stock is exhausted.

For Sale by TIPPET, BURDITT & Co., St. John, N.B.

General Agents for Maritime Provinces and by their Local Agents in every County.
