SPECIAL NOTICE

The many thousands of farmers who will require seed grain for their next year's crop have naturally been holding back until reduced freight rates go into effect. The reduction of one-half on all seed grain shipments takes effect on January 1, 1913. This will mean the opening of the seed grain business for next year. The prices realized at the beginning of the season are generally higher than those at the end. We, therefore, recommend to all those having seed grain to sell an ad. on the classified page of The Guide starting immediately. The man who is first on the ground will dispose of his seed to the best advantage. Send us your order for at least six weeks. You can sell, through an ad. on this page, all the seed which you have.
