Tribute, tin, toll, tax, tithes, tow, tester, tip. Value, velvet. Where'erthil, wampum, wad, weight, wip, wipers. Yellow boys.

A WONDERFUL RECORD

Many so-called "specifics" and "cures" for rheumatism have already been brought before the public; but when Rheumatism, Neuralgia and kindred diseases have become chronic and threaten serious results, you may rest assured that they will help but very little, if any. Although not recommended as "infallible," the peculiar qualities of St. Jacobs Oil especially adapt it to those cases which may be termed "chronic," and which have previously withstood all known "specifics" as well as the prescriptions of the best physi-cians. We would mention, as an example, the case of Mr. A. Heilmann, of Pittsburg, who suffered with Rheu-matism for four years. After vainly using all the most recommended remedies, and exhausting the skill of the most experienced physicians, without even temporary relief, it required only two bottles of St. Jacobs Oil to effect a permanent cure. Mr. A. Heilmann, a well-known citizen of Youngstown, Ohio, secured for his wife, who for twelve years had been a constant sufferer from Neuralgia in the head, the services of the ablest physician of the land, but they were unable to do anything for her; half a bottle of St. Jacobs Oil cured her. Mr. Wm. Reinhardt, Elmore, Wis., reports the case of a neighbor who for twenty-four years had suffered so terribly with Rheumatism that, at times, he could hardly move; a few bottles of St. Jacobs Oil cured him. "To cap the climax," however, Mr. A. Heilmann, of Taylorville, Pa., writes, that his mother, who had been a continual sufferer with Rheumatism for the past 30 years, used one bottle of St. Jacobs Oil and was immediately re-lieved of all pain. These are results which truly deserve to be brought to public notice; but they are not exceptions, as will be seen by the numerous other reports from all parts of the United States. It should be the duty of everyone to call the attention of his suffering friends and neighbors to this won-derfully efficacious preparation, especially as the low price of 25 and 50 cents per bottle places it within reach of all persons, rich and poor.

WINES OF COMET YEARS.

Where the Erudite Judge of Vintages Finds His Vocabulary Exhausted. It has been said that a good drinker should be able at the first taste to recognize the wine; at the second, the quality, and at the third, the age. If any of the genuine race of gourmets still survive they may be able to appreciate the old formula, though it is to be feared that the modern expert would find some difficulty in applying it. Not that he would necessarily be unequal to the occasion in the mere matter of words. Every branch of criticism has its necessary vocabulary, and a judge of wine is not behind his brethren in the use of esthetic terms of art. The ordinary consumer contents himself with those broad distinctions which are sufficient for every day purposes. Any wine merchant's list will serve as an elementary text-book on the subject, and the novice may edify his mind with such approved epithets as lovely, soft, round, delicate, until he is competent to pronounce in favor of the "light and dry," of the "full and generous." But the wine taster must be a master of a much more subtle appreciation. He knows to a

nesty what "delicacy and finosity" denote, the precise value of the phrase "elegant in style," and the exact amount of body necessary to justify the encomium of "showing great firmness."

That "port" wine should be pronounced "well bred" is in the nature of things. Considering the good com-pany it kept for so many years any falling off in the manners of Old Port would be positive calamity. Then there is "curious" port, a phrase which touches the connoisseur in the one soft spot of his experienced cred-itality. "Sound" and "old" are respon-sible adjectives, indicative of a vinous status of much seaminess and respectability. But "curious" touches a higher note, and the critical palate at once prepares itself for a revolu-tion.

It may be questioned, however, if any of these epithets are so expres-sive and satisfying as one which was formerly in great vogue. Something like a century ago every virtue and accomplishment which a wine could possess was summed up and certified to by the term "comet wine." Only a genius could have arrived at the conclusion that the vintage of a notable comet year was of vastly superior quality and flavor to that produced in ordinary seasons; and none but an astute man of business could have turned the discovery to profitable account. In the old time comets were held as accountable for wars, plagues, earthquakes and other grievous troubles. But by a playful wretch of fancy they were supposed to bring warmth and sunshine and to bestow special fruitfulness upon the vine.

No one has heard of a "comet" cucumber or peach season, but with regard to wine, it was at once per-ceived that "comet" was a first rate word to conjure with. It fired the convivial imagination and was also of considerable mnemonic assistance. Thus we read of that worthy gen-tleman of the old school who yet "nurses some few bottles of the fam-ous comet year of 1811, emphatically called 'comet wine.'" What an en-thralling subject for after-dinner chat! How often must the wines of all ages and countries have been discussed under the innocuous title of "protestible cordial," probably not without some display of the compara-tive method, in reference to the cel-lars of friends and neighbors.

Even an astronomer might have lapsed into enthusiasm and told how the tail of that stupendous length of 132,000,000 miles. "Had it been coiled round the earth like a serpent it would have gone round more than 5,000 times." A life-giving blanket for the vines, and a magnificent ad-vertisement for the growers. Then there was the vintage of 1858, which was regarded as "something wonder-ful." That was the great year of Donati's comet, the splendid ap-pearance of which some of us still re-member. In 1861, as we are told, the earth passed through the tail of a comet, but how the grapes of that year were affected by the con-tact is not very clear.—London Globe.

THEY STUDY AT HOME.

Why German School Hours Seem Longer Than They Really Are. In Germany the law requires that every child attend school from the age of six up to fourteen. Parents are compelled to pay a fine in court if their children are absent from school without good cause, and the child must make up the time lost by just as many extra days at the end of his course as he has been absent. Children are called by their last name from the very first of their school-days. Their teachers are men almost without exception. The hours for attendance in the winter are from eight to twelve in the morn-ing, and from two to four in the afternoon; and in the warmer months from seven to eleven and from two to four. These hours are shortened for the younger children. On Wednesday and Saturday after-noon the schools are closed. What seems strange to us is that all the studying is done out of school. A class not having a recitation, there-fore, is sent home, and so it hap-pens that few children are all of the six hours a day in school, as the above hours would seem to indi-cate. The very little ones, for in-stance, may be in school from eight to nine, from eleven to twelve, and from two to three, the intervening time being spent at home in play or study. In consequence of this out-of-school study, all books, pen-cils and stationery are taken home at the close of the morning and after-noon sessions. This has given rise to the use of knapsacks by both girls and boys. These knapsacks are made of leather either dressed or with the hair on. If a boy intends to carry his edu-cation beyond that afforded by the grammar school, he is expected to enter the high school at the age of nine or ten years, where his lower-school studies are continued and lan-guages are commenced in a simple way. Girls in like manner go to higher school. The studies pursued in German schools are much the same as in our own.—St. Nicholas.

Quite Different.

Town Topics. Editor—You say that Miss Fitz Smith is "as handsome as a picture." Why a homelier girl— Reporter—Her father has just made \$7,000,000 in coal. Editor—Is that so? Then give her a paragraph; describe her Parisian name; say she was the belle of the occasion. I had lost track of her father.

Wear! That's "the greatest thing in the world,"—in anything that's worn. You get style, fit and finish too, in Granby Rubbers. —But the one thing we emphasize is their Wearing Qualities. "Granby Rubbers wear like iron."

Sick Blood

Feed pale girls on Scott's Emulsion. We do not need to give all the reasons why, Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

We will be glad to send a sample to any sufferer. Do not let this picture in the form of a label in the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE, Chemists, Toronto, Ontario.

From the Smart Set. "Have you any objections to my taking your daughter to the theatre, sir?" "No; not so long as you don't let her select the play."

"In vain! in vain! always in vain," she moaned. "What is?" inquired the benevolent old gentleman, as he passed. "The letter 'V' she cried. Far up the street a pin was heard to fall with a dull sickening thud; there all was still.

Mother (to her seven-year-old son, William, who has been growing free of specs)—Billy, dear, I will give you ten cents a day for every day you don't say "darn fool."

Herold (little brother of five, with superior air)—Bully! If "darn fool" is worth ten cents, I guess I know words that are worth a quarter!

A clergyman told from his text How Solomon was barbered and vexed:— And told it so true That a man in a pew Got rattled, and shouted out, "Next!"

Hewitt—I borrowed a policeman's uniform, and put it on the other day. "I don't know; I immediately fell asleep."

Talk of the Hardware. Harvard Lampon. Burglar (to accomplice)—Screw up your courage, Bill; we'll get nailed if we don't bolt.

Dear Sirs,—I was for seven years a sufferer from Bronchial trouble, and would be so hoarse at times that I could scarcely speak above a whisper. I got no relief from anything until I tried your MINARD'S HONEY BALM. Two bottles gave relief and six bottles made a complete cure. I would heartily recommend it to anyone suffering from throat or lung trouble. J. F. VANBUSKIRK, Frederickton.

MYSTERY OF A LOST RING. It Got Around a Mouse's Neck and Strangled Him to Death. I was told a true lost-ring story the other day which I believe has never been in print, although such may be the case. A well-known society woman suddenly missed a valuable diamond ring from her finger. It was a ring she seldom removed, but all that could be remembered about it was that she had just washed her hands. Fearing it had slipped off in the operation the plumber was quickly called in and all the traps opened with the faint hope of find-ing the jewel, but without avail, and sorrow reigned in the household, for the diamond was not only intrinsically valuable, but a dearly prized souvenir. Some time later the set- tle in the bathroom had to be re-placed, and when it was removed, lo and behold, crowded in behind the water pipes was the skeleton of a mouse, and round the skeleton's throat of a neck hung a diamond ring. Identification was immediate and the mystery quickly cleared up by the poor little beast. He had fastened on a box o' brain which milderly kept to whiten her fair hands, and into which she undoubtedly dropped the ring. Mouse, through vanity or accident, slipped it over his head, but in trying to escape with the loot he did a felon's death.—Boston Herald.

THE MAN WITH STEEL HANDS

Curious Charge Against a Man Arrested in Paris.

There is at present in the Con-trat Police Station of Paris a pri-soner named Castet, who is known as the "Man with the Steel Hands." He was arrested on a curious charge, which will have to be con-structed as an assault. Castet went to the Bichat Hospital and asked to be admitted as a patient. He was examined by a resident medi-cal student, who said that there was nothing the matter with the applicant. Castet then took one of the student's hands in his and ac-tually crushed the young medical man's fingers. It was like the grip of the commander's statue in the sad case of the rake, Don Juan. The student cried for help, and the man with the steel hands was arrested by the police, to whom he calmly stated that he crushed the doctor's fingers as a token of thanks for declaring him to be in perfect health. At the police sta-tion Castet broke a thick log of wood in two, broke a pair of pliers with three of his fingers, and snap-ped a rope tied in tenfold thick-ness around a cask. All this was done (the London Telegraph's Paris correspondent tells us) to show the remarkable strength of his hands, but he will have to answer all the same for having assaulted the medical student.

Minard's Liniment Cures Garget in Cows. It Annoyed Her. Brooklyn Eagle. "Yes, the widow is perplexed."

"How is that?" "She doesn't know whether it means that her husband was a good man or she is a vixen."

"I don't understand." "When he died, the papers said that he had gone to a happier home."

Minard's Liniment Cures Colds, etc. Bound to Keep Them. Philadelphia Press. Mamma—Don't be too selfish. Let your baby brother play with your marbles a little while. Tommy—but he means to keep them always. Mamma—Oh, I guess not. Tommy—I guess yes; he's swal-tered 'em.

A Yankee's Yarn. We have always been given to understand that America is a big country, and that everything in it is bigger, better and more curious than this side of the Atlantic, but we presume that even in the land of the Stars and Stripes there are not many animals as described below. It appears that some men were relating their experiences of wonderful animals, and it came to the Yankee's turn to speak. "I never had any very remarkable animal," he drawled, "but I once had a goat that gave me a lot of trouble. I got so mad with the things it did, I threw things at it that would have killed any ordinary goat, and now and again, in the hope of kidding myself of it, I had a shot at it with my rifle. It did not seem to mind. One day when its behavior got past endurance I got a friend to help take it to a precipice a couple of miles off, and he and I got so mad with the boiling about pulling the washing off the clothes line and chawing up a flannel shirt. That was too much. We dragged it to the rail-way track near by, and fastened it firmly to the rail, then waited till the express came up. As the train came tearing along, what do you think that goat did? Just coughed up that red flannel shirt and waved it for a danger signal."

JUST LIKE BUYING RHEUMATISM. We put the bills in your pocket and take away the malady. Isn't that just like buying it? There's the bunch of money you'll pay out to get rid of the rheumatism if you buy prescriptions with it. It's a cure you want, not prescriptions.

SOUTH AMERICAN RHEUMATIC CURE pull the rheumatism out by the roots. No more doctoring, no more medicine, money saved; health saved, life saved. CURES IN 1 TO 3 DAYS.

Mrs. E. EISENER, a trained nurse, of Halifax, living at 92 Cornwallis St., writes: "I have been a sufferer for six years from rheumatism. Many doctors treated me, but relief was only tempo-rary. I tried South American Rheumatic Cure, and after four days' use of the remedy, was en-tirely free from the disease."

SOUTH AMERICAN RHEUMATIC CURE rich in healing power, relieves bladder and kid-ney troubles in six hours, and in the worst cases will speedily restore perfect health.

A Serious Outlook. Brooklyn Eagle. "I see there is talk of increasing the inheritance tax." "Yes," said the rich man's son; "it's getting so a fellow would al-most as lief have his father live, don't you know?"

Like Father, Like Son. Boston Transcript. Mrs. Flicker—Johnny, Margaret says you swear like a pirate. Johnny Flicker—I suppose she must mean dad. Rather tough on him to call him a pirate, ain't it, ma?

Minard's Liniment Cures Diptheria. He is not Unworthy. If one has failed to reach the end he sought, If out of effort no great good is It is not failure, if the object be The betterment of man; for all that he Has done and suffered is but gain To those who follow seeking to at-tain The end he sought. His efforts they Will find are gaidesposts on the way To that accomplishment which he, For some wise purpose, could not be. The factor in. There is a need Of unsuccessful effort; 'tis the seed Whose mission is to lie beneath The soil that grows the laurel wreath, And he is not unworthy who Falls struggling manfully to do What must be done, in dire distress, That others may obtain success. —William J. Lampan, in February Success.

Minard's Liniment Cures Distem-per. He Got It. The Judge, the sheriff, the coroner and the chief of police of Red Gulch were enjoying a little game of poker. The pot was large and there was con-siderable excitement. The Judge called the sheriff, who casually remarked: "I hold four aces. What do you hold?" "I hold a bowie-knife," promptly re-torted the Judge, as he perceived a fifth ace in his own hand. "And I hold a gun!" exclaimed the chief of police as he realized that he was not entirely destitute of aces himself.

The coroner quickly died under the table and waited. Presently, when the smoke of battle had been cleared away, he crawled out. "I hold an inquest," he commented, "and I guess that takes the pot."—Chicago Chronicle.

Gray's Syrup soothes and heals the sore throat and weak lungs. After a few doses the cough is re-lieved, and the soreness passes away. Gray's Syrup cures to stay cured. At all Druggists 25cts. Gray's Syrup of Red Spruce Gum

FREE ALKALI

There are few women in Canada who have not heard of "free alkali," but there are many who do not under-stand the term. The term is always used in connection with soap. If any think it is meant to convey that it is alkali given free with the soap, then alkali is very dear at the price. But it does not mean that. A soap containing free alkali is a soap in which the alkali is not properly incor-porated with the fatty acids used in the making of soap, and such a soap is most injurious to the clothing and hands. Free alkali in soap will burn the nap of wool and the surface of linen, coarsen the skin of the hands, rendering them liable to eczema, make the nails brittle and chip off. Such a soap does not possess thorough cleansing properties. The difference between a soap containing free alkali and a neutral soap is easily tested. Sunlight Soap is a neutral soap, and no one who has once used Sunlight Soap for any time could with satisfaction go back to any of the common laundry soaps on the market. Complaints about the hands and the clothes are unknown where Sunlight Soap is used. 603.

Quid Pro Quo. Philadelphia Press. Mistress—You don't appear to have as much affection for the children as you might have. Nurse girl—No? Well, I was just thinking I don't appear to have as much wages as I might have, ma'am.

New York and Boston Via New York Central. The numerous trains, the excellent service, the uniformity of its trains, its four tracks, and the location of its depots in Boston and New York, make the New York Central the favor-able line to those points. The Art-ticket agent will confirm the above.

An Undesirable Loss. Life. "Why are you in mourning?" "Oh, for my sins." "I didn't know that you had lost any."

A Place of Interest. Nearly every deputa-tion or con-vention visiting Toronto make a point of inspecting the great imple-ment works of Massey-Harris Co., Limited. Last week the curlers who have been touring Canada, paid a visit to the works, and were much sur-prised, not only at the extent of the same, but at the wonderful methods of manufacture employed. The plant is certainly splendidly equipped for making the world's best harvesting implements.

Minard's Liniment Cures Garget in Cows. It Annoyed Her. Brooklyn Eagle. "Yes, the widow is perplexed."

"How is that?" "She doesn't know whether it means that her husband was a good man or she is a vixen."

"I don't understand." "When he died, the papers said that he had gone to a happier home."
