## THE WESLEY BICENTENARY

The 200th anniversary of the birth of John Wesley, the founder of Methodism, was marked by special and appropriate services in the Athens Methodist church. In the morning the pastor preached a most interesting sermon on the methods adopted by Wesley in promulgating the new doc-trine, by which be secured the har-menious and hearty support of classes in England naturally antagonistic His methods were the same as those adopted in founding and primitive church by which rich and poor, let-tered and unlearned were induced to accept with humility and gladness the

message he brought.

In the evening, after the opening services, Mr. D. Fisher, superintendent of the Sabbath school, took charge of the meeting. An address by the superintendent, singing, responsive readings by the children of the Sundayschool, and appropriate papers by Miss Mabel Slack, Miss Grace Wing, Miss Lillian Reynolds and Mr. Geo. Hol mes furnished an instructive entertaining programme.

Several Lyn maidens added to the sweetness of their boxes of berries by enclosing notes addressed to ers of the boxes. The berries came to Athens and the notes are now receiving proper attention by the youths who received them.

A pair of colts belonging to M Rowsome indulged in a go-as they sed excursion on Sunday morning Mr. Rowsome partly controlled and directed them until the pole dropped out of the neckyoke; then they con-cluded a grand tour of Wiltsetown and came to Athens via the Charles ton road. Little damage was done.

A programme was this week issued for an undenominational Sunday-school convention to be held in the Preshyterian church, Toledo, on Friday, July 10. Afternoon and evening sessions will be held at which there will be addresses, papers, and discussions. J.A. Jackson, B.A., se recary of the Provincial S. S. Association, will be present and take part in the servi-

## His Last Hope Realized

[From the Sentinel, Gebo, Mont.] In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his travelling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a severe diar-rhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlsin's Colic, Cholera and Diarrhoea Remedy him while he was rolling about on the ground in great sgony, and in a few minutes the dose was repeated. The good effect of the medicine was soon ticed and within an bour the patient was taking his first sound sleep for a fortnight. That one little bottle bottle worked a complete cure and he cannot help but feel grateful. The season for bowel disorders suggests this item. For sale by J. P. Lamb & Son.
