An Important Question
Editor Reporter:
Dear Sir,—Please inform me through your paper if there is at present any person appointed to look after the fire fighting equipment of our village, as in passing the new fire hall I have noticed banks of snow in front of the doors. This, in my opinion, is a serious matter, for in case of a fire alarm the first thing to be done would be to shovel away the snow; second, as usual, try from twenty minutes to half an hour to get the pump to work. If there is a man paid for this work, I think it is time he attended to it or the council pay some one that will do it.

VILLAGE COUNCIL

The Athens village council met on the 14th, as required by law, to wind up the business of the year. All present.

After reading and adoption of minutes, the clerk read the draft of by law to hold municipal and school trustee election for 1907. The by-law was read three times and passed.

A large number of bills were read by the clerk, among them one from F. Pierce, Village Engineer, for \$31.75 for money advanced to pay for work on main drain from Victoria to Sarah st. On motion, council declined to assume any responsibility for this work until the award in made showing how much the corporation should pay in connection with the same. A couple of other bills were laid over for consideration at an adjourned meeting.

On motion, the Formaldehyde Generator, purchased through Lamb & Son, was ordered to be left in care of the village treasurer, to be used by the board of health free of charge in connection with any cases inside this corporation and a fee of \$1.00 for each case used outside the corporation.

On motion, the time for the collector to return his roll was extended ten days.

On motion, the council adjourned to meet on call of the Reeve to finish up business.
