THE NORMAL SCHOOL.

The announcement made through the press that the Whitney Government has taken up the matter of the location of the four new Normal schools, has again awakened a keen interest in this subject, and the additional announcement that the Government intends to dispose of this

ernment intends to dispose of this question at an early date has added a touch of anxiety to the aspirations of the various cities who are ambitious to secure the western school. The prospects for this school coming to Chatham are very hopeful. It is a well known circumstance that there is no other place in the Western Peninsula which provides a more suitable location both in point of thoroughly advanced schools and in extensive and important territory to the district which it is aimed to accommodate. The announcement that the choice with the Government prace tically lies between Sarnia and Chatham looks strongly in the Maple City's favor. Sarnia is a border town and the opinion is freely expressed by residents of that place that they are not very anxious to secure the school, in fact they are quite indifferent in the matter.

Of the other cities who made representations before the Government proceedings, howed to the Government proceedings, howed the Government proceedings, howed to the Government proceedings, howed to the Gover

Chetham's claims have been ably put forth. There is nothing class to be done, and in all fairness it is confidently expected that one of the new Normal schools will find a fitting location in the Maple City.

The dismissal of Mr. S. T. Bastido, of the Fisheries Department, has been the signal among some of the more prejudiced Liberal journals for the ery of "spoils" and Premier in the entered of the party and the majority.
