"Grand Peninsular" has an all-steel oven.

Steel is more uniform in thickness and radiates heat more quickly than cast iron. For that reason most cast iron ranges have steel oven bottoms.

In my new range—GRAND PENINSULAR—I have gone farther and made the WHOLE OVEN—top, bottom and sides—of STEEL PLATE. That is the reason the "Grand Peninsular" is such a quick, even baker—and saves so much fuel.

I have perfected a perfect system of Ventilation, too. All the vapor and odor of cooking are driven off—and a constant current of fresh, heated air fills the oven.

I also put a thermometer in the oven door, so you can tell the exact temperature of the oven. It does away with all guess work and insures perfect cooking.

These are a few of the helpful features that make my new GRAND PENINSULAR the ideal range for Canadian homes.

THE BATTLE COMMENCED

Begins In House Of Lords Over The Education Bill

RELIGIOUS INSTRUCTIONS

London, Oct. 26.—The crucial stage of the education bill was reached yesterday, when the measure came before the House of Lords for detailed debate.

Unless the peers should decide to postpone consideration of the bill until a judicial decision is rendered upon the question of the liability of local educational bodies for the expenses of religious education, the Upper House is likely to be the scene for some time to come of the bitterest legislative fight witnessed in the British Parliament of recent years.

The bill bristles with contentious points, but the main battle centres on the clauses relating to religious instruction.

The Liberals are allegedly immovably pledged that there shall be no denominational teaching at the public expense, while the Unionists, under the leadership of great church dignitaries, both Church of England and Catholic, are outwardly as unalterably determined to amend it so that children of parents belonging to these churches shall have denominational religious instruction during school hours.

The debate is expected to last three weeks.

WOMAN DETERMINED TO DIE.

Escapes From Hospital and Ends Her Life In River.

Peterboro, Oct. 26.—Mrs. Andrew Johnson, the wife of a Smith Township farmer, committed suicide yesterday morning at 6 o'clock by jumping into the Ottonabee River at Argyle street, in this city.

A few days ago Mrs. Johnson attempted to kill herself by taking carbolio acid, but was caught in time to prevent her from taking very much of the poison. She was brought to the Nicholls Hospital here and was apparently fully recovered.

Yesterday morning, when the night and day nurses were changing, she gathered up a bundle of clothes and escaped down the fire escape from the third storey. At 6.45 her body was found in three feet of water at the end of Argyle street.

The unfortunate woman had suffered from nervous prostration over money matters.

She leaves a husband and three children, and was 40 years of age.

JAPS EXCLUDED FROM SCHOOL.

Action of 'Frisco Authorities Leads to Unpleasant Feeling.

Washington, D. C., Oct. 26.—Viscount Aoki, the Japanese ambassador, at a conference with Secretary Root yesterday, made the request in behalf of his Government, that the United States see that the Japanese subjects in California were accorded their full rights under the treaty of 1894, including the public schools of San Francisco.

Secretary Root will take the matter up with the President, and it is likely that representation will be made to the authorities of California.

The ambassador said the exclusion of Japanese children from the anti-Japanese schools was the chief cause of the harsh criticism of the United States.

Feeling Not General.

Tokio, Oct. 26.—It is definitely believed here that the anti-Japanese feeling existing in America is confined to the labor element in California. The tone of the Japanese press is sobering down.

NEWFOUNDLAND CONSULTED.

Kept Informed of Negotiations, But Didn't Concur in Agreement.

London, Oct. 26.—The Parliamentary Secretary of the Colonial Office, Winston Spencer Churchill, when questioned in the House of Commons yesterday on the subject of the recent Anglo-American agreement in regard to the Newfoundland fisheries, said that the Government of Newfoundland had been consulted before any negotiations were begun and was fully informed of their progress at each stage.

The British Government, however, the Secretary added, was not so fortunate as to obtain a concurrence of Newfoundland in the provisional agreement, which the circumstances rendered necessary.

His Death Was Sudden.

Toronto, Oct. 26.—"I wish to God I was dead!" said William Coleman, when Constable Hamilton took him in charge at 9 o'clock yesterday morning. Two hours later his wish was gratified in the ambulance while on his way from No. 1 police station. William, or "Bill" Coleman, as his acquaintances called him, has been a well known character in Toronto for years. He was about 64 years of age and leaves a widow, who resides in Oxford street. John B. Anderson, 22-1-2 Alice street, is a brother-in-law. Some 30 years ago he organized an amateur minstrel organization, which became popular. Coroner Johnson will hold an inquest.

After Unbiased Verdict.

Ottawa, Oct. 26.—The inquest on the dead strikers, Belanger and Theriault, at Buckingham, will commence to-day. Coroner McMahon of Montreal arrived there yesterday and gave instructions for empaneling a jury of eight English and eight French-speaking men, none of whom were on the Warner inquest gr are strikers or MacLaren employees.

Three Miners Asphyxiated.

New Philadelphia, O., Oct. 26.—The bodies of three miners who died by inhaling gas, were found yesterday, as the day shift of miners went to work in the James Mullen Mine, No. 1, near this city.
