The superb new twin screw steamer of the Dominion Atlantic railway, the Prince Arthur, built by Earle's Shipbuilding Company of Hull, sailed for Boston on Sunday last. This steamer is as nearly as possible identical with her sister, the Prince George. On her extended trial, which included a recent long distance trip of 300 knots, she slightly exceeded the maximum speed of the Prince George, attaining a mean speed of 22 knots per hour. The Prince Arthur is commanded by Captain Kinney.

During this week there has been some talk of organizing a cricket club here. It does seem a great pity with such large and convenient grounds, almost prepared by the hand of nature for the game, and so many young men as we have here, that this grand old game should not be revived. Considerable interest has already been manifested, and it has been suggested to us that a meeting be held at Temperance Hall on Wednesday night, June 21st, for the purpose of organizing a club. We are in favour of such arrangements, and we are sure the college authorities will be made with the college authorities by which the use of the campus for this purpose may be obtained for a reasonable sum for the summer months. Everyone who has an interest in athletic exercises should try to be present.
