Temperance Truths.

It is a fact that the state of civilization in a country may be judged, to a great extent, by the status of its art development. The development of art in the United States has certainly been penenuminal, and while a few years since we were far down the scale, today we stand side by side with nations that were old at the time of the declaration of let his drink be of the search of the declaration of our independence.

fect. It was owing to our attention being concentrated upon this feature of the transit that the discovery of the spot was made. Other observers directed their efforts to the observances of the first contact, the formation of dal; I call it a national disgrace."

If they know it.

Cardinal Manning says of intemperance: "It is no longer enough to call it a sin, and a curse, and a scan-base notate in such matters, all that is necessary is for him to be sure that he purchases the goods of a reliable house.

of the first contact, the formation of dal; I call it a national disgrace." Drawing a diagram in order to enlighten your correspondent the Professor continued: "The line of light

fourth the radius of the planet and along the edge, approximately one-twelfth of the whole circumference. I observed it closely, and as the planet entered the sun the spot widened, apparently, stretching out along the page and disappearing finally when the read sends of the post of the page and disappearing finally when the read sends of the want," was the reply.

During the year 1818 they paid to postage stamps over eighty-seven thousand oblars. During the year 1880 they paid for postage stamps over one hundred and twenty-two their postage bill amounted to over one hundred and forty-four thousand dollars. Thus the read sends the victim recling on it will be seen that Messrs. Stinson & Co. edge, and disappearing finally when the road to ruin. Do not cultivate it
