

THE WAR.

No Intelligence of Important Movements Pass Censor

Port Arthur is Securely Blockaded.—
Seven Steamers Sunk at the Entrance.

NEW YORK, March 24.—Com-missioned, he says, by the Japanese government to experiment with balloons and airships and if possible to develop his plans of dropping dynamite on warships. Santos Dumont, the Brazilian aeronaut, sails on the Prince Wilhelm of the North German Lloyd's line, speeding eastward on his mission for the Mikado, says a Paris despatch to the Herald. Prior to leaving this city Santos confided his purpose to a friend, and said he intended to proceed directly to Japan. He will take one of his airships stored in Paris.

TOKIO, March 23.—The Koreans having risen in arms at Hui Hwang, were attacked by a detachment of the Japanese from Gensan, who killed two, wounded twenty and captured thirty six. The prisoners included the ring leaders, who alleged that the rising was instigated by the Russians.

ST. PETERSBURG, March 24, 2:34 a. m.—No further despatches, official or otherwise, having arrived here from Port Arthur up to this morning, the officials have come to the conclusion that the bombardment by the Japanese fleet on the night of March 21 and the morning of March 22, failed to cause any damage considered worthy to be reported to the emperor. In consequence considerable satisfaction at the continued fruitlessness of the Japanese assaults on Port Arthur prevails in high circles.

PARIS, March 23.—A despatch from Shanghai to the Temps says: The four Chinese cruisers which have just left here bound northward were provisioned from Japanese sources.

The Koreans in Takchen and Anju are in a state of terror and are fleeing to the mountains.

The Japanese forces in Northern Korea are being exterminated by sickness.

ST. PETERSBURG, March 23.—The statement that Captain Irkorff of the Manchurian commissariat service was recently summarily court-martialed and shot as a spy, is incorrect. The war office discovered that he had sold information in connection with the quarter-master's department to Lieut. Col. Akashi, military attache to the Japanese legation

here, and he was dismissed from the army. He has now been arrested and awaits trial by court-martial. It is officially announced that the information sold by Irkorff was not of great importance.

SEOUL, March 23.—The Tong Kaks are giving trouble in the northern part of Korea and are making overtures to the Russians. A detachment of Japanese from Gensan engaged a body of Tong Haks near Samung with the result that 24 of the Tong Haks were killed or wounded and 35 were captured.

ST. PETERSBURG, March 23, 4:45 p. m.—According to the government's reports the Japanese cavalry seen north of the Anju, Korea, this week cannot keep in touch with the Russians. The military organ says the occupation of Anju, lying at the juncture of the best roads leading to Wiju, Seoul, Gansan and Kirin, affords a strong position as a screen to the movements of troops from Pin Xan. But much of this natural advantage has been lost by the lack on the part of the Japanese of mounted skirmishers.

LONDON, March 25.—The Daily Telegraph publishes a despatch from its Tokio correspondent, under yesterday's date, which says:—

On the night of March 22 the Japanese fleet renewed the attempt to bottle up Port Arthur. Sixteen warships escorted seven merchant vessels to the mouth of the harbor and, under cover of the bombardment, the steamers ran in and were sunk in desired positions. Three thousand Japanese officers and blue jackets volunteered for this duty. An official report is expected this evening.

MOSCOW, March 24.—A telegram received late tonight from a high official at Irkutsk, Siberia, states great difficulty is being experienced in conveying rolling stock across the temporary railway on the ice at Lake Baikal. Locomotives cannot be used to transfer cars, which are being hauled by horses. The ice is treacherous, and it is feared some cars laden with artillery will yet break through.

ST. PETERSBURG, March 24.—Captain Leontieff, of the St. Petersburg artillery, has been arrested on the charge of selling military secrets to Japan.

PARIS, March 24.—The correspondent who telegraphed the statement which he attributed to General Kuropatkin, in which the latter said the treaty of peace would not be concluded until he, Kuropatkin, at the head of a victorious Russian army, marched into Tokio, which statement was contradicted by certain news agencies on the authority of the "Russian War Office," in cable received last night, reiterates his former statement and amplifies it. He declares General Kuropatkin, after pointing out the Russian fleet for movement was useless except to oppose attacks of the Japanese on Port Arthur, said: This inferiority will not last forever. A movement will soon come when the Russian navy will be of powerful assistance to the army. I expect it will be the end of August before a reinforcing Russian squadron, which will be very powerful, will put to sea from Kronstadt. They are working day

HOBBLED SIX YEARS WITH RHEUMATISM

THE REMARKABLE CASE OF MR. CULLEN, A CHRONIC SUFFERER, WHO WAS CURED IN SIX WEEKS BY

FERROZONE

Mr. Cullen of Sturgeon Bay, writes: "For six years I hobbled about like a cripple, unable to move without crutches and canes. I used quantities of medicines, and special baths, but they didn't help me very much."

On the advice of a Presbyterian minister I used Ferrozone, gave it a good trial at first, and when I saw it was helping, I bought six boxes and took one tablet at the close of each meal. I am perfectly cured, and am to-day as spry as a youngster. I feel. I am convinced that my recovery is entirely due to the judicious action of Ferrozone.

Mr. Cullen's case is a fine example of the kind of cures that Ferrozone is effecting every day. In severe cases of Neuritis, Sciatica, Rheumatism, and Lumbago, it acts with surprising alacrity, and no case is recorded where it failed.

Ferrozone cures these diseases because it is a potent purifier and cleanser of the blood. Then it builds up and invigorates the system, and makes weak, sickly people strong and well enough to resist and ward off disease.

The best Rheumatism remedy in existence. I relieve quickly, and it is so perfect that the disease never returns. After all the medicines fail, it cures, and that is the sort of medicine you want. Price 50c. per box, or six boxes for \$2.50. Send to any address by mail if price is forwarded. The Ferrozone Company, Kingston, Ont.

Scribe the poet, says he'd like to run for the legislature. Wonder why?

He heard that member of the legislature got free postage.

MANY SUDDEN DEATHS

Are traced to a heart that was neglected. If your heart is weak or beats too rapidly you need Ferrozone to strengthen the heart's muscles, regulate its action and stop smothering spasms. Ferrozone always cures weak heart and restores this organ to a strong healthy state. The best heart medicine in the world is Ferrozone which beats any substitute. Widely used by doctors and sold at 50c. per box by all druggists.

YOUNG, POIRIER AND BURNS

LOOKING AFTER THE INTERESTS OF THEIR COUNTY.

In a quite unostentatious manner the Gloucester County Members are working industriously in the interests of their constituency. They have interviewed the Government on the matter of providing a subsidy for a steamer running between Canquet, Shippegan, Lemeque and Miscou and have received assurance that the matter will receive their serious consideration. They are also to be heard shortly in a petition presented to the Government by the Salmon Net Fishermen of their County.

An iron ore deposit has been lately discovered in Gloucester County by Mr. Burns, M. P. P. and Wm. Hursey. They have had interested in this property the Dominion Iron and Steel Co. of Sydney, C. B. The Company sent members of their mineral staff to look over the property. Their Mr. C. A. Meisner head of their Mineral Department on examination

of a first class. The result of his report was that the company sent and had the manager of their Wobblers Iron Mine of Newfoundland come over and make a report on it. His report was better than Mr. Meisner's and the percentage of iron in his analysis of the ore ran as high as 55 per cent of magnetic iron ore.

Mr. Marster was then sent by the company to look over the property. He built a cabin, employed a number of men, and during his two months stay he spent over one thousand dollars, and under a tunnel exposed a vein of ore one mile in length and from 10 to 40 feet in width. The depth of the vein has not been determined but it is thought by the Engineer that it is of great depth as the quality denotes a quantity.

Mr. Burns is now asking the Govt. to grant a charter and subsidy for a railroad to the mine.

A NEW HEART FOR YOU

means renewed health, for on the heart depends all health. Doctors will tell you that any diseased organ can be put in good working vigor by pumping plenty of blood into it to make new tissues.

First set the heart right—with most people it is wrong.
