### BLACK MAN'S JOB.

German Cabinet Minister on the Negro and His Position.

London, Nov. 5.—Bernhard Dernburg, the German Secretary of State for the Colonies, who is returning from a trip to the Southern States where he made a study of cotton growing, said in an interview last night that his experience in the U. S. convinced him that cotton growing was essentially a black man's job. He was greatly impressed with Booker T. Washington and the Tuskegee students, but did not want an educated proletariat in the German colonies. He considered that the result of the Matayer system of cotton cultivation in the Southern States was to produce cotton at about 33 per cent. more than necessary.

In the opinion of the Secretary an ideal system would be one in which the white man would act as director of the black's labor, subjecting his worker to discipline, so that they could be relied upon to work regularly. He approved of the disfranchisement of the negro because, he argued, it would make mischief to pretend that the black man was the equal of the white.

### SETHLOW'S PROBABLE JOB.

New York, Nov. 5.—Seth Low, former Mayor of New York City and ex-president of Columbia University, would not discuss to-day the report emanating from London that he had been selected to succeed Whitelaw Reid as ambassador to the court of St. James. "I know nothing about it," said Mr. Low.

### RUBBER BOOTS.

Millville, Mass., Nov. 5.—The United States Rubber Company's boot mill here will be shut down next week for an indefinite period for the purpose of curtailing production. Eight hundred hands will be thrown out of work.

COBALT STOCKS. There is a lot of street talk regarding the cut in the dividend of La Rose, but it is held in well-informed circles that the management acted in the best interests of the shareholders.

La Rose opened around par, and sold off to 4.80, the close being around 4.95, the volume of trading being comparatively light. The balance of the list was dormant. There was some little movement in Rochester on the strength of a despatch to A. E. Osler & Co. that a rich vein some six inches in width had been encountered on the surface of the property. The stock held around 16. Foster shares were lower. Trethewey showed some little strength.

Nuggets Size of Peas Picked Up Near Victoria.

Victoria, B. C., Nov. 4.—Reports of the rich placer diggings, 50 miles in the interior from here, have been confirmed by a party of well-known citizens of this city, who, as soon as the news reached here, immediately organized and set out for the spot.

The story that they bring back is one of the most sensational in the long record of British Columbia's mineral deposits. The exploration party all declare that nuggets as large as peas were picked up in spots extending over four or five acres.

## WATER CLEAN.

Windsor, Ont., Nov. 5.—Dr. Ashbaugh, medical health officer, has received a report from Dr. A. Mycott, of the Provincial Board of Health, on samples of water furnished from Windsor, and Walkerville. The samples are pronounced free of typhoid germs. There have been several cases of typhoid here, the cause of which was suspected to be in the use of Detroit river water.

## DENIAL BY COOK.

New York, Nov. 5.—Dr. Frederick A. Cook to-day denied a story from Copenhagen to the effect that the Danish government had despatched a Greenland missionary to the polar regions to verify the story of Cook's discovery by personal examination of the two Eskimos who accompanied him.

## MARKETS AND FINANCE

### Toronto Markets

LIVE STOCK. This increase in cattle can be credited largely to the heavy consignments received by the Harris Abattoir Company, from Manitoba and the Northwest. This company absorbed 1,600 cattle, included in which were 17 car loads of these northwesterns, the quality of the bulk being vastly superior to those on sale from Ontario farms. The name of the city market should be changed to that of the Harris Abattoir market, this company having been the main spring of the trade here for several years past.

Trade on the market was good, notwithstanding the heavy run of cattle, prices holding about steady all round, excepting for lambs, which sold lower.

Butchers—George Rowntree bought 1,660 cattle at the following prices: Steers and heifers, \$3.80 to \$5.50, the latter figure being for prime cattle weighing from 1,070 to 1,350 pounds; cows, \$1.50 to \$4.60; bulls, \$2.50 to \$4.45.

Stockers and Feeders—Mr. Murby, who handled about 300, reports prices as follows: Best steers, 90c to 1.00c; pounds, at \$4 to \$4.50; steers, 80c to 90c; common, at \$3.50 to \$3.80; good stockers, 50c to 70c; common stockers, \$2 to \$2.25.

Milkers and Springers—As will be seen by sales reported below, the receipts of milkers and springers were large. There was a strong market at unchanged prices, ranging from \$40 to \$70 each. Common light cows and late springers not being in demand, sold at lower quotations.

Veal Calves—Moderate receipts, sold at \$3 to \$6.50, with a few new milked veals of prime quality at \$7 per cwt.

Sheep and Lambs—Over 4,000 sheep and lambs sold as follows: Export ewes, \$3.50 to \$3.90; rams, \$2.50 to \$2.75; lambs, at \$5 to \$5.50, or an average of \$3.40. A few select ewes and wethers sold at \$5.65.

Hogs—Receipts from all sources were 3,078. Prices steady, at \$7.75 to \$7.80 for select, fed and watered at market, and \$7.80 to \$7.85 f.a.b. cars at country points.

FARMERS' MARKET. The offerings of grain to-day were again small. There was no wheat, barley dull, 100 bushels selling at 63c per bushel. Oats steady, 100 bushels selling at 43c.

Hay is unchanged, with sales of 20 loads at \$16 to \$22 a ton for timothy, and at \$10 for clover. Straw is nominal at \$16 to \$17 a ton.

Dressed hogs are easier, with prices ruling at \$10.50 to \$11.
