## The Celebrations at Harbor Grace.

Special to Evening Telegram.  
HARBOR GRACE, Yesterday-Afternoon.

The patriotic speeches of His Excellency the Governor, Archbishop Howley and others (Tuesday), were favourably commented upon. The officers on the Brilliant entertained the committee immediately after the great torchlight procession held in boats on the harbor, the British Band supplying the music. The Brilliant and Flona left for Cupids about one o'clock, taking amongst the guests Misses Roddick, Kennedy, Wilback, of Montreal, Mrs. R. A. Munn, Miss Gwendoline Munn, Miss Frew, Canon Smith, W. A. Munn and others.

Great Preparations are Being Made For Battle

tomorrow, horses and carts being sent out to Carbonear Island to be in readiness to remove the heavy guns from landing place to batteries; everything so far has worked most successfully; regatta now on at Lady Lake. Great number of visitors coming in from outlying settlements, and cabmen are reaping a harvest.—H.F.S.

## Flies Across Channel With Passengers.

Special Evening Telegram.  
DEAL, England, Aug. 17.

It has been reserved for an American citizen to perform one of the most daring feats in the history of aviation. John B. Moissant, of Chicago, to-day flew across the English Channel to Falmouth with a passenger, and by this achievement far surpassed the feat of Bleriot, De Lesseps and the unfortunate English aviator, Rolls, who later met his death at Bournemouth. The two man flight from France to England was the more astonishing as it was only a month ago that Moissant learned to fly, and made so few flights and was so little known among men that even his nationality was not disclosed. To make the feat more surprising Moissant was totally ignorant of the geographical part of the country. He had never been in England and was obliged to rely entirely upon the compass, while the crossing of the Channel was accomplished in the teeth of a strong westerly wind. The Channel flight was an incident in the aerial voyage from Paris to London. Moissant left Issy yesterday in company with Hubert Latham and reached Amiens in two hours. Latham's machine was wrecked, and this morning Moissant leaving Amiens at an early hour headed for Calais. Thousands who had gathered to watch the daring aviator were amazed, and urged him not to make the attempt in the face of the high gale that was blowing. He cared nothing for the warning of the people, and even the fact that there was no torpedo boat to follow in his wake but only a slow moving tug boat, did not deter him. He made the trip in 37 minutes. When he descended his eyes were bloodshot and greatly inflamed, as a result of the heavy rainstorm into which they drove on approaching the English coast. The high wind beat rain into the faces of the men like hail and almost blinded them. An average height of between 300 to 400 feet was maintained over the water. The aviator expected to land at Dover but was forced by the wind a few miles north and made the coast near Deal. The cold was intense, and both men were benumbed. Moissant seemed to take his feat as though it was a daily occurrence. When he revived sufficiently he said to an interviewer: "This is my first visit to England."

## Highland Sports a Grand Success

At St. George's Field yesterday the Highland Sports under the auspices of the Newfoundland Highlanders, were carried out with great success. The programme which was an excellent one concluded with the wind up of the Marathon Race, W. Wall, the winner, finishing the 15 mile race from Manuels on the grounds, amidst great applause. There was great interest manifested by the spectators in all the items of the programme, and in some instances the competition was very close, which added to the interest. On the whole the event was voted one of the most successful held yet by the Brigade. The gathering would, no doubt, have been much larger if the weather had been more genial, and there had not been so many other attractions.

The field was gayly decorated with flags, and the grand stand presented a brilliant appearance. The prizes were presented by Mrs. H. D. Carter. Following is the programme and the names of the winners:—
