What Are the Terms?

The Commissioners of Newfoundland, Canada and the United States who have been conferring at Washington during the past few days have come to an agreement. The subject under discussion was the reasonableness of British regulations, largely Newfoundland, in British waters to which Americans can resort for fishing under the Convention of 1818.

Last September the Hague Tribunal decided and awarded that:

The right of the British to make rules, without the consent of the United States, to regulate the liberty of the Americans to take fish in treaty waters is inherent to the Sovereignty of Great Britain. Such regulations must not violate the treaty. Regulations, bona fide, not discriminating between local and American fishermen, which are (1) appropriate or necessary for the protection and preservation of such fisheries, or (2) desirable or necessary on grounds of public order and morals without unnecessarily interfering with the fishery, are reasonable and not in violation of the treaty.

Here of course there is room for differences to arise between the parties as to whether particular regulations are or are not in accordance with the dispositions of the Convention of 1818. That Treaty provided no express means of adjusting these differences. The settlement of differences was implicitly left to the channel of diplomacy.

Originally, according to the text of the submission, these differences were to be settled by an impartial tribunal. They were properly divided into two classes. Those which had already arisen and those which might arise in future. A Commission of fishery experts was formed to deal with present differences.

Newfoundland, however, preferred to resort to a conference to adjust these differences. Hence the presence of Premier Morris and Attorney General Aylesworth at Washington.

The dispute was two parties differently situated. On the one side there was the British, largely Newfoundland, the authors and makers of the fishery regulations. On the other side there was the American, disputing the accordance of the regulations with the disposition of the Convention of 1818.

If the matter had been referred to the judicial tribunal, Newfoundland might have had all or any of these regulations returned as in accordance with the Treaty.

The resort to a conference was an intimation that Newfoundland was prepared to modify some of the regulations in order to get America to agree to the rest. Such was the spirit in which America received and accepted the invitation of Newfoundland, and this feeling was expressed in the American press.

Our Washington dispatch to-day declares that the Newfoundland Govern-

ment will modify the fishery regulations. According to the Daily News, Sir Edward Morris has cabled Hon. D. Morrison, the Attorney General, that a satisfactory arrangement has been made.

We do not know the terms of the agreement and therefore cannot express any opinion as to being satisfactory or not. Sir Edward's offer to confer was an intimation that he was prepared to give way to some extent. How far he has given way is left undisclosed. We can only wait and see.

The Daily News betrays some concern about the arrangement, declaring that information as to the terms will be awaited with interest, and possibly with some anxiety.

It looks as if America has got something for nothing. We, however, are still hopeful for the best, and that the something is inconsiderable.

We do not believe Sir Edward has given away the pass. We believe he is reserving the strength of the Newfoundland fishery position to make a deal with America for free fish for free entry, should the Canadian negotiations for reciprocity fail, as they are likely to do.

Indigestion & Dyspepsia

In all its Forms can be Cured. It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden. Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription. A sure cure for persons afflicted with stomach troubles. It can be obtained at

Obituary.

The death occurred this morning, at his residence, Henry Street, of Mr. Thos. Cullen, Supervisor of Baine Johnston's premises. For the past 5 years Mr. Cullen's health had not been of the best, but this did not prevent him from attending to his duties, and his demise occurred after an illness of about 3 weeks duration. Mr. Cullen was a man widely known, highly esteemed, and greatly respected. He had been connected with the firm of Baine Johnston & Coy. from his boyhood days and in his early manhood was a cutter on the room. He was after some years promoted to the position of weighing master and later when Mr. T. Mullins passed away, he was given charge of the south side premises, retaining the position until the death of the late Jno. Brennan, when he was given the office he occupied up to the time of his death. Mr. Cullen was a good faithful servant, devoted to his masters' interests and kind and obliging to all who had to deal with him. Mr. Cullen was in his 65th year at the time of his death, and is survived by a widow and one son, Mr. Stan Cullen, of Baine Johnston & Coy. office, to whom we tender our sincerest sympathy. Mr. Pat. Pennessy, also of Baine Johnston's, is a nephew of the deceased.
