The Baby Doll Lady.

BY RUTH CAMERON.

We call her the baby doll lady because that is her pose. She is at least twenty-five—we are inclined to make it nearer thirty—but apparently she is not conscious of the fact. For she wears funny little gingham frocks that would look young on a girl in her teens; she has them so short that almost any mother would order her sixteen-year-old daughter into the house for a similar display of legs; and she actually appeared last summer with a straw hat with an elastic on it.

Nor is her manner by any means out of harmony with her clothes.

To hear her gleeful childish laughter, to see her clap her hands in delight and jump up and down when anything pleases her, to watch her prattling about her bathing suit and shrieking with childish terror when she is urged to enter the water, to see her pout when she is teased, you would surely say that she was not more than sixteen at the very most.

At which she would certainly be vastly pleased, for that is just exactly what she wants you to say.

Now if there is anything I love, it is a man or woman who is still young despite the passing of the years, who can still enjoy the sports and games of childhood, who can still feel the enthusiasm of youth long after childhood and youth have fled—in short the men and women who always keep the child heart somewhere within them, even though "daily farther from

the east they still must travel." And yet, if there is any woman in our town that I come pretty near to disliking, it's the baby doll lady.

You think that's inconsistent? Not at all. In the same proportion that anything is beautiful, its cheap imitation is likely to be hideous, and so it always seems to me that that girl's pose is an insult to real youth.

I have known grown women who really laughed with almost childlike glee when they were especially delighted but they didn't know that it sounded that way. This girl does. You can fancy that she is saying to herself, "Now I am laughing with childlike glee." "Now I look like a little bit of a girl who is scared of the water," etc., etc.

Let me tell you something. When you do anything and think to yourself as you do it, "I must look or sound like this or that", beware—you are posing, and at least three-quarters of your audience knows that you are posing, and instead of admiring you, is either amused or disgusted.

The baby doll lady is the joke of the town. The neighbourhood mimic is always applauded when she reproduces her childlike laughter as her prattling, and her absurdities are pointed out as a bad example to all young girls.

And all the time she is clever enough and pretty enough to be a popular girl if she only wouldn't pose.

Don't pose. It doesn't pay. Nobody loves a poseur—at least not for very long. And if you don't know when you are doing it, just use my test—you are posing whenever you have a subconscious eye on the effect you are creating.

Ruth Cameron

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an effective extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. HESSHEIMER.

Mrs. LIZZIE M. HESSHEIMER, of Lincoln, Neb., 230 "C" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured."

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Household Notes.

One teaspoonful of clear lemon juice taken fifteen minutes before each meal and at bedtime is a good preventive for headache if taken when the first symptoms appear.

To keep small screws, brads and tacks from rusting, it is best to place them in a small wide-mouthed bottle tightly corked. The bottles should be perfectly dry before using.

Cucumbers, turnips and carrots should be firm to the touch when fresh. Lettuce, if of the headed variety, should have firm bleached hearts, showing no trace of rust.

The oiled paper which comes around butter, lard, etc., should be carefully removed and used to line cake tins or as a covering for the steamed pudding.

For sunburn and freckles, use half an ounce of elder flowers into three pints of boiling water and let them infuse for two hours. Strain the mixture thoroughly and use as a wash.

Chiffon can be renewed by spreading a wet cloth over a very hot iron and holding the chiffon over the steam until it is free from wrinkles. The chiffon should be dried quickly.

When the white trimming on a coat or dress becomes dingy, wring a clean white cloth out of thin starch, place it on the trimming, then put a dry cloth over that and iron with a hot iron.

Remember when filling a cake tin to spread the batter as much to the

How to Grow Hair.

It has been proved that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

This preparation is called SALVIA and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. McMurdo & Co., your druggist, is the first to import this preparation into St. John's and a large generous bottle, can be procured for 50c.

side as possible, leaving the depression in the centre; then, when the cake is baked, it will be level and more convenient for icing.

An ordinary candle can be made to burn as an all-night lamp if you will pack finely powdered salt around the wick as far up as the blackened part. By this method a clean, steady light can be obtained.

When plaster of paris is used to fill cracks in the plaster, mix it with vinegar instead of water. It will not harden so quickly, whereas if water is used the paste will harden before you can successfully use it.

Frying fish can be prevented from absorbing the grease and becoming sodden if the fat is almost boiling hot before the fish is put in the pan. A blue smoke will rise from the fat when it is in proper condition.

When it is difficult to remove a glass stopper, put a little olive oil around it an hour or so; if it still sticks, place the whole bottle in warm water and tap the stopper gently on either side. It will surely come out.

A sure way to keep flowers fresh, if they are being sent to a distance, is to cut slits in potatoes and insert the flower stems firmly in the inserts. A potato will keep most flowers fresh for two weeks if the temperature is moderate.

A blackboard eraser is the handiest thing to use about a stove. Keep it in a convenient place and use it to mop the top of the stove. Grease and dirt can be easily removed, and the hands will not come in contact with the black grease.

A very good scouring mixture for boards can be made by working into a paste half a pound of soft soap, half a pound of sand and a quarter pound of lime. Put it on a scrubbing brush instead of soap and then wash off with plenty of clean water.

When linen has been scorched in ironing, make a paste of fullers earth and white soap, moisten with a little vinegar and the juice from a boiled onion. Spread this mixture upon the marks, and after the linen has been washed no stains will be visible.

To cleanse fine lace, spread the lace out on a paper cover it with calcined magnesia, place another paper over it and put away between the leaves of a book for two or three days. After that

all it needs is a skilful little shake to scatter the powder, and it is clean.

**Golden Jubilee at
Witless Bay.**

On Wednesday last, October 2nd, Sr. M. Gertrude Walsh, of the Presentation Convent, Witless Bay, celebrated the Golden Jubilee of her religious profession. She was born at Garrison Hill, St. John's, and at an early age entered the Presentation Convent, Cathedral Square, St. John's, where she received the religious habit soon after, A. D. 1860. In the same year, a few months after the foundation of the Convent here, she came to Witless Bay, where she has ever since remained, and where she, with Rev. Mother, who has been here since the foundation of the Convent, and the good Nuns, has done noble work in imparting secular and religious knowledge, and in moulding the characters of the young generations at Witless Bay. She was professed by the late Dr. Mullock, on Oct. 2nd, Feast of the Holy Guardian Angels, 1862. Very Rev. Dean Cleary, Mother Magdalen, venerable foundress of the Order in Newfoundland, and Mother De Pazzi—all of whom have long since passed into the silence of the grave, were present at her profession. On Wednesday last, the day of her Golden Jubilee, Very Rev. Dean Roche referred to her in feeling terms, and asked the people present to offer up prayers and the Holy Sacrifice of the Mass for her. The children flocked around her in the schoolrooms to congratulate the venerable Jubilarian, and get a holiday in her honour. The venerable Jubilarian still looks fresh and blooming after her fifty-two years of labour and sacrifice in the battle ground of the religious vineyard. We congratulate her and we hope and trust that she may yet long be spared to labour in the vineyard, and to do the noble service for the youth of Witless Bay.—Com.

**Erik Passes
The Narrows.**

The S. S. Erik passed the Narrows on Saturday afternoon bound north. The steamer left the Straits some time ago and conveyed a cargo of coal from Sydney to Harbor Breton. After unloading she took a supply of salt to proceed north with. Her next movements will be to bring a cargo of fish to St. John's from the Straits.

Sometimes the digestive machinery gets away off. No kind of food looks good to you. You need

STAFFORD'S PRESCRIPTION "A."
It is a temporary artificial digestive process to do the work until the stomach recovers normal condition. Many people think Pepsin is the thing to take. Four times out of five they are wrong.

Pepsin will digest eggs, meats, etc., but has no effect on starchy foods like bread, potatoes, cake, puddings—in fact most of the vegetables that cause the trouble.

Stafford's Prescription "A" is the thing. It contains all the valuable ingredients for the cure of Indigestion, Dyspepsia, Gastritis and Nervous Dyspepsia, etc.
Eat what you like.
Stafford's Prescription "A" will do the rest. Price (small size) 25c.; postage 5 cents extra. Large size, 50c.; postage 10c. extra.
Prepared only by DR. F. STAFFORD & SON, St. John's, Nfld. Sold everywhere.
