**A Tip to the Council.**

Editor The Evening Telegram.  
Dear Sir—It seems to me that at the present time there is not a body of men in St. John's more widely advertised and criticised than the members of the Municipal Council, and although some of the criticisms are a little harsh and uncalled for, it is undoubted fact that much more practical work can be performed at their meetings than the past has shown.  
I would like to suggest to them at this time that they should practice more of the "follow up" system, after their meetings are over, than has characterized them in the past. The Council will meet, give orders to the Secretary for the heads of the different departments, and censure some more for lack of duty, and that is about all you will hear of it till their next meeting.  
I would humbly advise you, Councilors, to see that the heads of your different departments get to work, and the work is done, and if it is not done to know the reason why; get your office forces to work, and let the public know that they are getting something in return for the taxes they pay every year, and not have the "people" criticizing you, while it is the fault of your departmental inspectors and over-worked office staff.  
One of our Councilors at the last meeting, criticized the Daily News for the remarks about the snow on Water Street, and laws relating to same, and suggested that some should be made an example of, but I say no, for if the Inspector was doing his work there would be no snow tranches on Water Street to-day, and while I am on this subject, I would advise the different officials to be more impartial with business men on Water Street, and not to pick out the small stores, and say I will have you summoned if the snow is not removed in such a time, while next door or across the street the snow have been shoveled in a heap awaiting the Council men to remove it.  
Now, Mr. Editor, I hope these few remarks will be taken in the spirit they are given, and not as a criticism of the honorable gentlemen who comprise our Council, but just a tip to them that the Council should be run on a more business basis, and they as directors, should see that every department is paying, so to speak, and that the shareholders (taxpayers) are getting something in return for their money.

In conclusion, I am very much in favor with many able writers in advocating very strongly for the ward system for our Municipal body, and I hope that the question will be taken up by the proper authorities at once, and that the Councilors next spring will be elected in their respective wards.  
Truly yours,  
REFORM.

**Headache Costive, Bileous, 'Cascarets'**

Sick Headache, Bad Breath, Sour Stomach, mean Liver and Bowels are clogged—Cheer up!  
Get a 10-cent box.  
Stomach, bileousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.  
Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.  
Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.  
A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

**Four Canadians Honored by King**

Ottawa, Nov. 23.—An interesting ceremony took place at Rideau Hall, Saturday when, in the presence of Their Royal Highnesses, the Duke and Duchess of Cornwall, the Princess Patricia, and the Ladies-in-Waiting and the aides-de-camp, the Royal Governor-General invested four well-known Canadians with honors given by His Majesty the King, Sir Lomer Gouin, Premier of the Province of Quebec, invested with the K. C. M. G., Mr. Creighton, of Ottawa, with the C. M. G., and Messrs. W. S. Bowles, chief clerk of votes and proceedings, House of Commons, and I. G. A. Creighton, law clerk of the Senate, with the Imperial Service Order.  
Sir William Arbuthnot Lane, the distinguished British Surgeon who successfully operated on H. R. H., the Duchess of Cornwall, during her recent illness, was also present.

**Stafford's Liniment.**

Numerous testimonials have been received in reference to "Stafford's Liniment." Below we publish a few of them:  
"I have used almost two bottles of your Liniment and I must say it is all you claim it to be."  
"I have used your Liniment and have found it to be the best Liniment I ever used."  
"We have used your Liniment in our home and find that it is as representative."  
"I can highly recommend your Queen of Liniments. My mother has been an invalid for 2 years, and she praiseth it more than any other remedy she ever used."  
"We have used a great many bottles of your Liniment in our family, and selling dozens. We find it the best, and everyone uses it say the same."  
"The above Testimonials are the exact words copied from letters which we have in our possession, and can be seen by calling at our Drug Store, Theatre Hill—deci.11

**Road Board at Port Blandford.**

Editor The Evening Telegram.  
Dear Sir—Please will you allow me space in your paper to make a few remarks re our Road Board here which new Board was elected early in October.  
Shortly after the Board was elected, the Board met again for electing Chairman, which meeting was held on the twelfth of the month. As I was elected Chairman I immediately sent on the names of the Board to the Secretary of Public Works Office to be gazetted, so that the monies might be worked before the 18th of the month, or else it would have to stand until after the elections were over. I then decided to wait until the elections would be over which I did. I then wrote to the Secretary of Public Works the second time, but got no reply. I then wrote the Hon. Minister of Public Works to the effect that I had written his Secretary twice and my correspondence had been ignored. A few days after I received a letter from the Secretary, his letter read thus:—  
"Dept. Public Works.  
November 18.  
"Sir—Your letter with reference to the election of Road Board received, the same will be gazetted in due course."  
I presume that this letter had been in answer to my last letter, but not giving date to either one of the three.  
Now this is the first sign of authority or any reference given to the newly elected Road Board. With this letter, which was the first in answer to three, I then called a meeting of the Road Board to work out the monies. On the same day I received another from the Secretary of Public Works asking me why the monies had not been worked out as usual, and that he had received word from persons here complaining of monies for expenditure not used.  
Now, Mr. Editor, the Secretary of Public Works was very prompt in writing me for reasons why the monies had not been used. If he had been as live to his duties in answering my correspondence, there would have been no cause of complaints. The monies would have been spent long ago. So I claim it is through the neglect of Public Works Office that the monies are not used before. Then again why did those complainants elect us to the Board? If they had not a certain amount of confidence in us, why did they not elect those that would do just as the complainants would wish? The Road Board has been changed this year. Where the South West End of the place had one representative before it has three now.  
Perhaps this is an eye-sore to some such persons, as it is impossible to stop some people from finding reasons to complain of small matters. After some little enquiry I have found who are the complainants.  
I think these men should attend to their own business and not be so busy in the matters of Road Boards. Do they consider that the Road Board is ignorant of what their work is? If so they should have considered this when electing their Board. The monies have been used but none the sponser because of their inquiring as to the reason.  
As soon as I had authority I used the money. Trusting, sir, that too much time has not been taken up.  
Thanking you for space,  
I remain yours,  
WM. DALLEY,  
Chairman of Road Board.  
Port Blandford, Nov. 29th, 1913.

**A Great Picture at the Nickel.**

"The Vengeance of Durand" was the attraction at the Nickel Theatre last night. Hundreds of ladies and gentlemen were present and all left delighted with the entire performance. It is a story in two full reels, acted by the well-known Vitagraph Co. of New York. All their principals were seen in it, and the audiences very justly pronounced it one of the most elaborate productions this company has been responsible for. Every action and gesture was of the greatest interest. Nickel patrons were charmed with it, and the story is all the talk on the streets to-day. To-night it will be shown again and an effort should be made by everyone to see it. The other pictures and Mr. Cameron's singing, last night, were also good.

**"The Boodle Road."**

Editor Evening Telegram.  
Dear Sir—We have here a new and costly road opened up, leading to nowhere from the railway at the top of Witless Bay Hill on the Southside. The "Boodle Road" which it is named, was started by Cashin on the eve of the General Election to give employment to his hangers on and no doubt it will be a lasting monument to his memory, "The Boodle Road." The crowd worked fast and strong until the Boodle was getting low, and then the bosses thought to dismiss the greater number but this was not until they had all pretty well spent. For example: FIFTEEN men were working under five bosses at this stage of the work, but to the surprise of the five bosses the fifteen hangers went on strike and demanded four of the five bosses to resign. Just imagine reader, five bosses at \$2 a day over fifteen poor laboring hangers. Why it was too much for human endurance. The result was a bang-up on "The Boodle Road" leading from the railway to nowhere. I think it will take more than Cashin's financial ability to give a statement of how the money was spent on "Boodle Road."  
Yours for the present,

**Herring Fishery.**

As stated in the Telegram a few days ago, the herring fishery on the West Coast, notably at Bonne Bay, promises to be a record one. Persons who came from that section of late report that the herring voyage will be phenomenally good, as there is every indication of it being so. Already large shipments have left for American and Canadian markets.

**OXO CUBES**  
MINARD'S LINIMENT CURES DISTEMPER.

**Healthy and Unhealthy Lighting**

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not viliate, nor does it purify. Hear what three eminent men have said:—  
"Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this, amongst other reasons, that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson B. Hurry."  
"He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Duffield, before the Society of Medical Officers of Health."  
I have in my mind's eye, at the moment, a hall which, in the old days, was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which with the march of civilization, had its illumination changed from gas to electricity, the latter being employed with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Vivian B. Lewes, Professor of Chemistry at the Royal Naval College, Greenwich.—nov8,13

**How One Burn Was Cured.**

"Did you ever hear how that little girl of Mrs. Wells' got on—the one that had the nasty burn on her arm, you know?  
"Why, yes, she was perfectly cured, not even a scar remains."  
"How was that managed?"  
"Easily enough: Mrs. Wells got a box of a new ointment called Zylex from her druggist—and in a very few days the burn was healed and the child's arm as well as ever."  
Zylex is the latest soothing and healing ointment, and is up-to-date in every respect. It is for sale by all Druggists. Price 50c. a box. Zylex Soap, 25c. a cake. Zylex, London.—dec2, eod, 11

**U.S. Picture & Portrait Co.,**  
Complete House Fitters.

**Dark Days.**

I look on the heavy weight of fighters and sated seven buckets of brine, for they are the worst lot of blighters that ever were whipped into line. They're slower than winter molasses, that turgidly drips from those giants, by jings! They ought to be with Maud Muller a-raking up hay in the mud; their system, I doubt not, are fuller of prunes than of good fighting blood. They ought to be

milking the cattle, and moulding the butter and cheese; they're no more constructed for battle than cows are for toasting in fires.

**ORGANS.**—We are showing a nice lot of Mason and Hamlin and Needham Organs at greatly reduced prices. Get one for Xmas at s. CHESLEY WOODS, Piano and Organ Store, Water St.—nov28, 11

**ADVENTURE DISCHARGING.**

The S. S. Adventure is now discharging her coals, after which she will proceed to Sydney for another cargo, leaving here towards the end of the week.
