When you think of it—it's all rather wonderful—the ability to take two pieces of glass—string them together with a piece of gold wire and bring perfect sight to some unfortunate who has weak, twitching eyes.
Study—years of practice—conscientious examination—together with a touch of the grindstone to the glass in one piece and a higher polish to the lens in another, makes for youthful eyes for you.
If you have any trouble with your eyes, come to see me at once and get them examined—Free of Charge.
