Says Education Would Check Negro Movement Northward

Oxford, O., May 27.—(A.P.)—The providing of means for the education of the negroes is one way to keep them in the southern states and check the alarming movement of the blacks northward, is the opinion of Dr. H. C.

USE IT FREELY

Minnich, head of the State Normal College, Miami University in a statement made here upon his return from a tour of the negro educational institutions of the south. According to Dean Minnich, one-third of the negro population of the state of Georgia has migrated to northern states.

Dean Minnich said that unless the negroes are educated in the south they will continue to move northward. His tour, he said, showed conclusively that the attitude of southern whites has changed from that of hostility to friendship in the matter of education of the negroes. It also showed that the standard of these negro educational institutions is steadily rising, and that the number of students matriculated in these various institutions is growing by leaps and bounds.

24 Prizes in the few C. L. A. Election Sweep Tickets yet unsold. You can hardly help drawing a winning number. —may30, 41

Another Prize Butter Maker.

Chicago, May 29.—(A.P.)—California Pieterje Bloom Mead, a pure bred Holstein cow, owned and bred by the University of California, has just completed a year test which makes her the sixty-seventh Holstein in the United States to produce over 1,000 pounds of butterfat in one year. In 365 days she produced 35,226 pounds of milk containing 1,004.62 pounds of butterfat, according to official announcement from the Holstein Association of America. This fat production is equal to 1,255.77 pounds of butter.

Ruffles of white georgette are unusual on a sports frock of white flannel.

Ric-rac, embroidery and applique make a charming sea scene on a smart sweater.

School for Prisoners Started at Maidstone.

MAIDSTONE, Kent May 4.—(A.P.)—Education on a large scale is being organized for the prisoners here. Classes in French shorthand and book-keeping have already been started by the director of education for the country at the request of the prison commissioners. There are 18 prisoners in the French class, 17 in the shorthand class and seven in the book-keeping class.

Additional classes in engineering and Spanish are being formed, the teachers giving their services voluntarily.

\$1000.00 1st Prize in C. L. A. Election Sweepstake to be won by somebody. Why not YOU? Tickets only 10c. each. —may30, 41

Tris Speaker's Training Rules Ban Cigarettes.

CLEVELAND, May 30.—(A.P.)—A rigid training rule laid down by Tris Speaker, manager of the Cleveland Indians, prohibits players from smoking cigarettes or drinking anything stronger than one-half of one percent. The veteran manager-still believes physical fitness offsets minor playing defects. He expects his men to be the stumbling block of all 1922 pennant aspirants.

The Cleveland outfield, with Speaker in center, Summa in right, and Jamieson in left, is at least on a parity with any in the league, in the opinion of Speaker. He regards Summa as the greatest outfielder found by a major league club since Ty Cobb marched out of Georgia to fame in the baseball pennant wars. In Jamieson he has the "triple-threat" excellent fielder, heavy hitter and ideal lead-off man.

In the infield Speaker admits the attacking force is not so great as when Stuffy McInnis was at first and Gardner at third, but the present initial and far corner sackmen, Guisto and Lutake are expected to offset in great defense, what they may lack in offense. Another valuable addition to the Indian camp is Glenn Myatt, former Milwaukee American Association catcher, who now alternates with Steve O'Neil in catching and waiting for a pinch hitting opportunity.

While not claiming a great pitching staff, Speaker says he has a good lot of pitchers and an exceptionally strong force of substitute players, and pinch hitters. In the outfield as substitutes he has Brower, formerly of Washington, who is also a first baseman, and Joe Connolly, both classy fielders and heavy hitters. Infield substitutes include Gardner at third, and Stephenson at short or third. Five heavy batsmen are thus available as pinch hitters.

Speaker, who says he will never be a bench manager, still has his habit of drawing two lines in the dirt before the plate and knocking the dirt from the cleats of his shoes before taking his position at the plate.

Plans Made for Great Aviation Meet Next Fall.

ST. LOUIS, May 26.—(A.P.)—A "free-for-all" air race, from all parts of the country with St. Louis as its objective, is on the tentative program of the international air race to be held here October 1-3. The contest would be open to flying craft of all kinds, and the participants will be handicapped as to type and weight of machine, fuel consumed, and distance covered.

The contest is to be called the "On-to-St. Louis" race, and it is hoped to have a number of entries from Canada, should the National Aeronautic Association approve. The tentative program also includes a dirigible race, in which the army and possibly the navy, would be represented; exhibitions of the helicopter and glider, the radio-controlled plane, the reversible propeller; glider launched from a dirigible; aerial combats and bombing of a dummy fort; and a race between a fast dirigible and an airplane.

There also would be a contest of airplane models built by Boy Scouts, the winner of which would receive a \$5,000 silver trophy. The miniature planes would be driven by motors, operated by compressed air.

Other proposed features include races for army training planes owned by civilians, for army and navy entries, for light commercial planes, and for larger planes.

The Pulitzer Trophy race, which will be held in conjunction with the meet, is expected to take on an international character for the first time, as negotiations are under way to induce some of the noted European flyers to enter.

Concealed Machine Guns to Guard Bank Treasures.

CLEVELAND, May 27.—(A.P.)—The new Fourth Federal Reserve Bank building here is rapidly nearing completion, and it will be ready for occupancy about June 1. The building has many details of architecture and furniture that make it one of the most remarkable in the United States, architects and builders say, with safety and strength the keynote.

The main vault is 39 feet below the street level. Side and rear walls are six feet thick. The front wall is seven feet thick and has the heaviest door in the world. The vault is designed to hold upward of two billion dollars in gold and securities, according to D. C. Wills, chairman of the board.

The first floor, for the transaction of public business, is finished in Italian marble. Customers can lock themselves behind iron bars when transacting business with a teller.

A gallery of armour plate surrounds the first floor, with loopholes from which guards can see everything occurring below. Truck driveways lead directly into the mail room. It cannot be "rushed."

For Street, Home or Business Wear

The height of flexibility and comfort. Shapely, Stylish and Durable, their many designs furnish exactly proper foot-fashions for all occasions.

Coal Shortage in Ruhr Benefits Cardiff Dealers.

CARDIFF, Wales, May 3.—(A.P.)—Cardiff has profited enormously by the stoppage of coal shipments in the Ruhr Valley. Hundreds of thousands of tons of coal have been sent to French and other European ports that otherwise might have been sent from the Ruhr mines.

Some British coal merchants have proved that it is practicable to ship

coal from Cardiff to Eastern Europe and undersell there coal from Pennsylvania. This is a new trade which Cardiff's ship-traders are developing. The fact that those directing the operations have bought large quantities in Canada so as to have ships for coal miners as reserves for wood pulp and grain are also carried on the home market thus avoiding and preventing in uneconomic balance.
